

eServices Client Access Project Statuses

Plan Review Statuses	
Open	Initial project status. Project workflow is at "Intake" awaiting documentation or information from the client.
Active	Application has been triaged by the PT and passed to the Plan Review Manager to Accept for Triage.
Active - Triage	Plan Review Manager has accepted the project for Triage. All disciplines are performing triage.
Active - Plan Review	Triage has been completed. All disciplines are performing plan review.
Open - Returned	Project has been moved back to Intake after <u>trriage</u> . Reason: incomplete documentation or field staff was referred to the office for review. Project is awaiting resubmittal to OSHPD from the client.
Open - Remarked	Project has been moved back to Intake after <u>plan review</u> . Reason: Plan Review revealed code deficiencies that require correction by the design professional. Project is awaiting resubmittal to OSHPD from the client.
Approved	Project has successfully completed plan review. If the project does not have a construction phase (ex. PAD, AMC, BP), this will be the final status for this plan review application.

Construction Statuses	
Pending Construction Start	Project has successfully completed plan review. OSHPD is awaiting an Application for Building Permit and a Notice of Start of Construction to begin the construction phase.
Pending Field Operations	Building permit has been issued and a Notice of Start of Construction has been received. Project is awaiting the start of field operations.
Field Operations in Progress	Construction has commenced. Project will remain at this status until construction is completed.
Field Operations Complete	Project has received a Construction Final. Project is ready for the closure process to begin.

Closure Statuses	
Closed	Project closure is complete. Project has been closed in compliance with California Building Standards Code.

eServices Client Access Project Statuses

Closure Statuses (Continued)	
Closed Administrative	Project has been closed by administrative action.
Closed Inactive	Project has been closed due to project inactivity. Project has exceeded inactivity threshold and cannot be re-opened.
Closed Non-CAC Compliant	Project has been closed due to lack of compliance with California Administrative Code. Project cannot be re-opened.
Closed Non-CBSC Compliant	Project has been closed due to lack of compliance with California Building Standards Code. Project cannot be re-opened.

Cancellation Statuses	
Cancelled	OSHPD has received a written request to cancel the project/record. Cancellation has been approved and processed. Refund must be requested separately; Cancellation does not insure a refund.
Withdrawn	Project has been withdrawn by the client. Project scope requires a different project type. Fees may be transferred to the new application.
Void	Project has been created in error.
