Dear Mr. Yee,

RE: California Pacific Medical Center – Davies Campus (ID 12416)

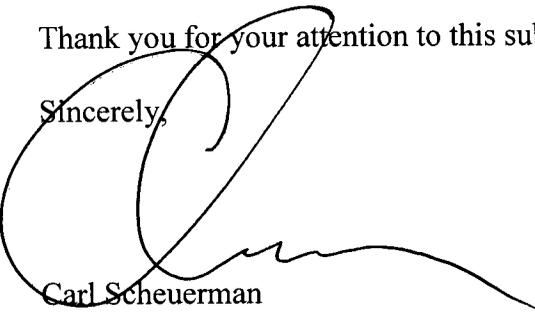

Sutter Health is pleased to submit an SB 1661 report on behalf of its California Pacific Medical Center (CPMC) affiliate for its Davies campus. The campus has numerous buildings carrying an SPC-1 seismic performance rating, thus necessitating the submission of this report.

The North Tower has been seismically retrofitted to earn an SPC-2 rating, pending OSHPD approval. It is intended that the remaining buildings on the campus will be removed from acute care service prior to 2013; however, the ability to meet this deadline will be impacted by the ability to achieve timely completion of the CPMC Cathedral Hill project (CHH - ID 18165) which is influenced by two factors:

- Continuing turmoil in the financial markets and other economic factors may render the start date for this project infeasible; and,
- Commencement of construction for CHH requires the issuance of discretionary land use entitlements by the City and County of San Francisco which may be delayed and are subject to appeal.

Thank you for your attention to this submission.

Sincerely,

Carl Scheuerman
Director, Regulatory Affairs
