## Sutter Health:

### Building Healthier Communities and Caring for Those in Need

Sutter Roseville Medical Center is affiliated with Sutter Health, a not-for-profit network of 48,000 physicians, employees, and volunteers who care for more than 100 Northern California towns and cities. Together, we're creating for a more integrated, seamless and affordable approach to caring for patients.

---

#### **It's better for patients:**

We believe this community-owned, not-for-profit approach to health care best serves our patients and our communities – for multiple reasons. First of all, it's good for patients. According to the Journal of General Internal Medicine (April 2000), patients treated at for-profit or government-owned hospitals were two-to-four times more likely to suffer preventable adverse events than patients treated at not-for-profit institutions.

#### **Our stockholders are our communities:**

Investor-owned, for-profit health systems have a financial incentive to avoid caring for uninsured and underinsured patients. They also have a financial incentive to avoid hard-to-serve populations and "undesirable" geographic areas such as rural areas. In many Northern California's underserved rural locales, Sutter Health is the only provider of hospital and emergency medical services in the community.

#### **Providing charity care and special programs to communities:**

Our communities' support helps us expand services, introduce new programs and improve medical technology. Across our network, every Sutter hospital, physician organization and clinic has a special story to tell about fulfilling vital community needs.

---

**Our Commitment to Community Benefit:** Meeting the health care needs of our communities is the cornerstone of Sutter Health's not-for-profit mission. This includes directly serving those who cannot afford to pay for health care and supporting programs and services that help those in financial need.

In 2012, our network of physician organizations, hospitals and other health care providers invested \$795 million in health care programs, services and benefits for the poor and underserved. This includes:

- The cost of providing charity care
- The unpaid costs of participating in Medi-Cal
- Investments in medical research, health education and community-based public benefit programs such as school-based clinics and prenatal care for patients.

Sutter Health's commitment to delivering charity care to patients continued to grow, reaching another all-time high of \$153 million in 2012 – or an average of nearly \$3 million per week.

## Executive Summary

Providing community benefits demonstrates our commitment to enhance the well-being of residents in our region, and creates access to healthcare for individuals, children and families who struggle against barriers such as poverty, disability and isolation. Sutter’s Community Benefit programs help people get healthy and stay healthy.

We have launched many programs to enhance health-related awareness and access; and we have partnered with organizations working on the front lines in response to behavioral issues and medical conditions afflicting the residents in our region. Our Community Benefit programs are designed to help the people who need it most.

As a health care organization our hospitals are open 24 hours a day and serve anyone who walks through the door, but we know that’s not enough to promote active, healthy communities. As a partner in building a healthier community, we must also reach into the community to locate the areas of need and provide services and resources to address those needs.

The Sutter Health Sacramento Sierra Region (SHSSR) considers five principles described in “Advancing the State of the Art in Community Benefit: A User’s Guide to Excellence and Accountability,” developed by the Public Health Institute when developing community benefit programs:

- Disproportionate unmet health-related needs - We strive to build and support programs that serve the people who need it most.
- Primary prevention - We develop programs that focus on keeping families healthy.
- A seamless continuum of care - We work to ensure our programs and services are linked.
- Capacity building - We seek to build the capacity of existing community assets.
- Collaborative approach - We can’t do it alone, so whenever possible, we partner with existing community and government agencies.

2012 Community Benefit Value	Sutter Health Sacramento Sierra Region
Benefits for the Poor and Underserved	\$159,840,171
Benefits for the Broader Community	\$6,413,342
<b>Total Quantifiable Community Benefit</b>	<b>\$166,253,513</b>

*The financial numbers above reflect the community benefit values for Sutter Health Sacramento Sierra Region (SHSSR), the legal entity that includes Sutter Roseville Medical Center. Other Sutter Health affiliates that are a part of SHSSR are Sutter Amador Hospital, Sutter Auburn Faith Hospital, Sutter Davis Hospital, Sutter Medical Center, Sacramento, and Sutter Solano Medical Center.*

## I. 2012 Progress Report on Community Benefit Plan

The following pages will provide a progress report on the community benefit programs and activities conducted during the reporting year Sutter Roseville Medical Center. These programs were created in response to the 2010 Community Needs Assessment – a collaborative report that helps our partners, other health providers, public agencies and leaders identify and prioritize priority needs as they relate to the health of our communities.

The 2010 – 2012 priority needs for Sutter Roseville Medical Center are:

1. Ensuring Access to Primary Care and Mental Health Services
2. Improving the Lives of Families and Children
3. Connecting with Our Senior Residents
4. Preparing Our Community for Healthy Futures

For more information about the **2010 – 2012 Community Needs Assessment**, including quantitative and qualitative data, please visit our website at [www.HealthyLivingMap.com](http://www.HealthyLivingMap.com).

For more information on the **Community Benefit Plan 2010 – 2012** that this progress report pertains to, visit our website at [www.CheckSutterFirst.org/community](http://www.CheckSutterFirst.org/community)

## Ensuring Access to Primary Care and Mental Health Services

<b>Link to Community Needs Assessment</b>	The <b>Emergency Department Navigator</b> program seeks to connect with patients who are inappropriately accessing care at the Sutter Roseville Medical Center Emergency Department and links all non-urgent users of the ED to immediate community resources and medical care.
<b>Program Description</b>	This program is managed and administered through a partnership with Sutter Roseville Medical Center and the Federally Qualified Health Center, WellSpace Health. The SRMC ED Navigator program piloted in the summer of 2012 and is modeled after the SMCS ED Navigator program (a partnership with WellSpace) which has proven to be a best practice.
<b>Goals and Objectives</b>	Without community partnerships and innovative program development, efforts like the Emergency Department Navigator program would not be possible. The goal of the ED Navigator is to connect patients who inappropriately access the ED with the necessary resources, programs and ultimately a medical home.
<b>Strategy</b>	More specifically, ED Navigators reach out to patients who do not have a primary care provider and provide external management, connection to services (e.g. insurance enrollment, substance abuse treatment, etc.) and follow up to ensure a primary care provider is being utilized. ED Navigators are employees of WellSpace Health and reside in the Sutter Roseville Medical Center Emergency Department.
<b>Baseline Information</b>	The ED Navigator was implemented at SRMC after data showed that 14% of the total visits to SRMC's ED are Level 1 and 2 visits, with a total of 63.2% of those visitors being defined as underinsured. 42.6% of those underinsured patients utilize Medi-Cal and 1/3 of the underinsured Level 1 and 2 patients are repeat visitors to the SRMC ED.
<b>Affiliate's Contribution or Program Expense</b>	\$42,000
<b>Results</b>	This program was launched in the summer of 2012. In that short time, over the last quarter we have seen significant activity from patients in the emergency room resulting in over 51 community referrals and approximately 30 new enrollments for the T3 Foothills program.
<b>Amendment to Community Benefit Plan</b>	N/A

## Ensuring Access to Primary Care and Mental Health Services & Connecting With Our Senior Residents

<b>Link to Community Needs Assessment</b>	<b>Health Express</b> seeks to provide transportation to and from medical appointments for Placer County's most vulnerable populations, including senior residents.
<b>Program Description</b>	Sutter Auburn Faith Hospital started Health Express more than a decade ago, offering free non-emergency medical transportation to seniors and disabled individuals in Auburn. Due to the growing need, a collaborative partnership was formed with Sutter Roseville Medical Center, Sutter Auburn Faith Hospital, Kaiser Permanente, Seniors First, the Placer Collaborative Network, the Placer County Transportation Planning Agency and others to offer the service to all underserved populations within Placer Counties and beyond.
<b>Goals and Objectives</b>	In order to increase access to health care services for Placer County seniors, disabled, and underserved populations, the Health Express was expanded in 2007 to include a larger population and provide last resort medically related transportation services within most of Placer county.
<b>Strategy</b>	The Health Express partnership provides transportation to and from medical appointments for Placer County's underserved, vulnerable and elderly population, who are unable to access necessary medical care, due to transportation constraints. Seniors First answers and schedules all pick up and drop off times, in accordance with the patient's needs and appointment times. The partnering agencies that make this program possible meet periodically to ensure that Health Express is not only meeting the needs of those who utilize the services, but also works as efficiently and effectively as possible.
<b>Baseline Information</b>	One of the key issues often identified during Community Health Needs Assessments are gaps in basic transportation services for seniors and the underserved population, who often site lack of transportation as a key barrier to accessing appropriate primary care and health-related appointments. Health Express seeks to bridge this gap, to ensure that the Placer County citizens who would otherwise not have access to transportation, necessary to obtain appropriate medical care.
<b>Affiliate's Contribution or Program Expense</b>	\$75,000
<b>Results</b>	Health Express statistics for 2012: <ul style="list-style-type: none"> <li>• Provided 7956 trips</li> <li>• We served 655 unduplicated clients</li> <li>• 35% are Medi-Cal and 5% are MCE clients</li> <li>• 37% from Auburn, 30% from Roseville, 12% Rocklin and 8% Lincoln and 4% Granite Bay</li> </ul>
<b>Amendment to Community Benefit Plan</b>	N/A

## Connecting with Our Senior Residents

<b>Link to Community Needs Assessment</b>	<b>Senior Recreation and Respite Program (R &amp; R)</b> connects the senior population in Placer County, who might otherwise be isolated, with important social and educational activities.
<b>Program Description</b>	The Senior Recreation and Respite Program (R & R) is designed to meet the needs of older adults with memory or physical impairment. The program provides recreational, social and educational activities for the participants and respite for caregivers to enjoy some free time to themselves.
<b>Goals and Objectives</b>	The goal of the Recreation and Respite program is to connect as many senior residents in Placer County, who are isolated and disconnected from social interaction. Additionally, this program seeks to provide interactive and educational activities that help enrich the daily lives of the elderly population who use this program.
<b>Strategy</b>	The staff is supported by its valuable team of volunteers and completed by personal care aides. R & R meets two times a week at the Maidu Community Center in Roseville, once a week in Dewitt Multipurpose Senior Center in Auburn, and twice a week at the Twelve Bridges Library in Lincoln. In 2010, the R&R program expanded and transportation is now offered through Health Express to ensure those who benefit the most from the program will continue to access.
<b>Baseline Information</b>	Because the senior population within Placer County is significant, Sutter Auburn Faith Hospital and Sutter Roseville Medical Center have multiple programs that focus on creating better health care access for those 60 years and older and the disabled. R&R offers older adults with physical challenges or memory loss the opportunity to play games and music, exercise, enjoy adventures with pets and much more, in a protective environment.
<b>Affiliate's Contribution or Program Expense</b>	\$25,000
<b>Results</b>	In 2012, Recreation and Respite had a total of 5,088 instances of participation. This number counts how many participants this program had in 2012, with many participants attending R&R multiple times in one year.
<b>Amendment to Community Benefit Plan</b>	N/A

## Ensuring Access to Primary Care and Mental Health Services

<b>Link to Community Needs Assessment</b>	In partnership with the Gathering Inn, Kaiser Permanente, Sutter Roseville Medical Center and Sutter Auburn Faith Hospital provide the <b>Interim Care Program (ICP)</b> , a temporary respite program for homeless patients who are discharged from one of the participating hospitals
<b>Program Description</b>	The Interim Care Program links people in need to vital community services while giving them a place to heal. The program offers three meals per day, medical follow up and case management.
<b>Goals and Objectives</b>	The program is designed to give patients without housing alternatives, a clean and safe place to heal for up to six weeks and comprehensive wrap around services like substance abuse treatment, permanent housing and medical care.
<b>Strategy</b>	When a patient is ready for appropriate discharge, but does not have a place to otherwise heal, they can be referred to the Interim Care Program. Upon discharge, the Gathering Inn, provides on-site nursing and social services to support clients in their recuperation and help them move out of homelessness. The Gathering Inn case manager links clients with services, like mental health services, substance abuse recovery, housing workshops and provides disability application assistance. The Gathering Inn works with Advocates for Mentally Ill (AMI) to provide beds where clients have three meals a day and a safe, clean place to recover from their hospitalizations.
<b>Baseline Information</b>	The clients who are enrolled in the ICP are homeless adult individuals who otherwise would be discharged to the street or cared for in an inpatient setting only. The program is designed to offer clients up to six weeks during which they can focus on recovery and developing a plan for their housing and care upon discharge. This innovative community partnership provides temporary respite housing that offer homeless men and women a place to recuperate from their medical conditions, link them to vital community services, and provide them a place to heal. Patients are referred from the hospitals to the Interim Care Program when they are well enough to go home, but need ongoing rest and follow-up treatment. Patients come for various reasons including wound care, recovery from surgery, or injury from an accident. Clients can stay in the program up to six weeks, depending on their medical condition.
<b>Affiliate's Contribution or Program Expense</b>	\$50,000
<b>Results</b>	In 2012, the Placer County ICP program had 28 patients.
<b>Amendment to Community Benefit Plan</b>	N/A

## Ensuring Access to Primary Care and Mental Health Services

<b>Link to Community Needs Assessment</b>	In 2012, Sutter Roseville Medical Center made a financial contribution to WellSpace Health, a Federally Qualified Health Center, which allowed <b>WellSpace to open a clinic on the campus of SRMC.</b>
<b>Program Description</b>	WellSpace Health is a Federally Qualified Health Center in the Sacramento and Placer counties that offers primary care, pediatric dental care and specialty and integrated behavioral health services across the greater Sacramento area. The WellSpace Health service center in Roseville provides comprehensive medical care including preventive care, treatment for minor illnesses or injuries, and management of chronic medical conditions for those who are Placer County MCE members, uninsured, or Medi-Cal. Additionally, The WellSpace Health Roseville Health Center medical team includes family physicians, physician assistants and nurse practitioners. Hours of operation are: 8 a.m. – 4:30 p.m., Monday through Friday.
<b>Goals and Objectives</b>	Investment in Federally Qualified Health Centers (FQHC's) throughout the Sutter Health Sacramento Sierra Region is imperative to the health and wellbeing of our communities as we prepare for Affordable Care Act implementation in 2014. As a result, various SHSSR affiliates are making investments in local FQHC's over the next year to increase their capacity to serve the underinsured.
<b>Strategy</b>	The financial commitment further strengthens SRMC's place in the community as a collaborative and supportive partner to critical health centers like WellSpace. Moreover, the opening of WellSpace on the SRMC campus not only increases capacity and provides a medical home for the underserved in Placer County, but it also serves as a compliment to other, concurrent SRMC initiatives such as the ED Navigator and T3 Programs.
<b>Baseline Information</b>	By 2014, almost 200,000 people won't have access to care. WellSpace expansion efforts, coupled with our programs have the capacity to serve approximately 140,000 more patients per year (x 2.5 visits each =350,000 more visits per year).
<b>Affiliate's Contribution or Program Expense</b>	\$400,000
<b>Results</b>	No patients were seen in 2012 due to HVAC system renovations, which were required by OSHPD. All necessary renovations have been made and the clinic is now fully operational.
<b>Amendment to Community Benefit Plan</b>	N/A

## Ensuring Access to Primary Care and Mental Health Services

<b>Link to Community Needs Assessment</b>	T3 ( <b>Triage, Transport and Treatment</b> ) connects patients to the services they need at the easiest level of care and right intensity of support. T3 is a Sacramento and Placer County program designed collaboratively by SAFH, SRMC, SMCS and WellSpace Health.
<b>Program Description</b>	T3 Foothills began in January 2011 and is already proving successful, serving patients who are mentally ill, frequent users of the emergency department and who are currently homeless. T3 meets the needs of persons who are seeking ED treatment for non-urgent issues by bringing them out of the ED and ensuring that they are engaged in health, behavioral health, and ancillary services in the community. While persons served may be directed to seek urgent care in the ED following admission to T3, these admissions are medically necessary due to the medical complexity attending T3 clients. Meanwhile, routine medical care occurs in a 'medical home' in the community.
<b>Goals and Objectives</b>	Moving these patients from the emergency department improves the patients' health by providing them with the appropriate care in the right setting, while reducing the wait for those seeking care for real medical emergencies, and dramatically reducing costs to our health care system.
<b>Strategy</b>	T3 provides services to patients who seek emergency department care for needs that are best addressed through preventive measures and by primary care providers. This program is a model for the kind of change being called for in various health care reform plans.
<b>Baseline Information</b>	A huge obstacle for healthcare providers is the inappropriate use of the Emergency Department. This issue is not only problematic for the healthcare provider, but also for the patients who are not receiving the appropriate care in the appropriate place, at the appropriate time. Programs like T3 seek to connect people who frequently and inappropriately use the Emergency Department to the correct resources, including housing and mental health services.
<b>Affiliate's Contribution or Program Expense</b>	\$120,000
<b>Results</b>	Between SRMC, and the two other Sutter Hospitals (SAFH and SMCS) that utilize this program, T3 is currently meeting the needs of 233 active patients. More than \$1.5M savings in reduced cost for first 850 T3 clients, with 65% reduction in ED utilization.
<b>Amendment to Community Benefit Plan</b>	N/A

## Ensuring Access to Primary Care and Mental Health Services & Improving the Lives of Families and Children

<b>Link to Community Needs Assessment</b>	Promotoras assist Sutter Auburn Faith Hospital staff to help bridge the cultural and linguistic gap between the health care provider and the patient.
<b>Program Description</b>	The Promotora program is the result of a partnership between Sutter Auburn Faith Hospital, Sutter Roseville Medical Center and the Latino Leadership Council. As the bridge between the hospital and the patients, Promotoras serve the dual role of advocating for the patient while at the same time ensuring that the patient fully understands and complies with the health care provider's recommendations.
<b>Goals and Objectives</b>	Promotoras help bridge the cultural and linguistic gap between the health care provider and the patient. As the bridge, they serve the dual role of advocating for the patient while at the same time ensuring that the patient fully understands and complies with the health care provider's recommendations. They ask the questions that the patients aren't aware they should be asking or are culturally dissuaded from asking, since it is culturally inappropriate to question authority figures such as physicians or nurses. Promotoras help ensure that patients truly understand what is at stake and what is being asked of them, and can provide follow up services to help ensure that patients receive the resources they need.
<b>Strategy</b>	Sutter nurses and other medical staff are trained to provide Spanish speaking patients with information on the Promotora program, as well as provide referrals for patients who might benefit from making a connection of this nature. Promotoras are experts in the culture, language and community of Latino patients in that area as well as a connector to community resources and programs that can help patients continue their path to wellness. They also understand cultural nuances, particularly as they relate to health care. When a patient is in need of care, it is a time of crisis for them and those cultural nuances become very important. Promotoras are quickly becoming a much-needed resource and partner in our efforts to provide the best medical care possible to patients, as they help to extend a continuum of care beyond the four walls of the hospital.
<b>Baseline Information</b>	Promotoras assist with managing patient follow ups, connecting them to additional community resources and education, and addressing the family and home needs that may impact our patients' health and overall wellbeing. They help patients feel more comfortable and connected by giving them someone with whom they can culturally and linguistically relate, which helps them to have better health outcomes. A level of trust is established that allows for patients to become more comfortably involved in their care.
<b>Affiliate's Contribution or Program Expense</b>	\$30,000
<b>Results</b>	<p>In 2012, the Promotoras program:</p> <ul style="list-style-type: none"> <li>• Provided health screenings for 423 (blood pressure, BMI) in Auburn, Lincoln and Roseville at 8 separate screenings.</li> <li>• Of the 423 people screened, 46 of them met pre-determined health indicators to get free lab work for further analysis. Of the 46 people, 23 received clinic services (up to 2 free visits) to establish them with a medical home and avoid ER costs for nonemergency issues.</li> <li>• Provided 195 flu vaccines to adults and children for free and conducted 137 dental screenings in Auburn, Lincoln and Roseville.</li> <li>• Of the 137 patients receiving screenings, 32 of them received dental xrays, a free exam and intervention dental services (extraction for pain or infection)</li> <li>• In 2012, Promotores were contacted by SRMC social workers for 22 patients and by SAFH social worker for 4 patients. Of the 26 patients, 18 of them were assisted in finding a medical home, making appointments, securing medications,</li> </ul>

	<p>applying for insurance or receiving other services for dental or vision needs.</p> <ul style="list-style-type: none"> <li>• Of the 26 patients, 22 received referrals to therapy, family counseling, support groups, or support services through Family Resource Centers or other providers. Of the 26 patients, 10 were connected to providers of basic needs such as clothing, food, housing, etc. All patients noted that the promotora played a key role in helping them to access care or other services.</li> </ul>
<p><b>Amendment to Community Benefit Plan</b></p>	<p>N/A</p>

## Preparing Our Community for Healthy Futures

<b>Link to Community Needs Assessment</b>	<b>Sutter Center for Health Professions (SCHP)</b> helps people of all ages enter a career in health care is an important part of what we do.
<b>Program Description</b>	The Sutter Center for Health Professions is a partnership between the Sutter Health Sacramento Sierra Region and the Los Rios Community College District that helps address the nursing shortage. Since August 2003, SCHP has been providing opportunities for a portion of students to complete nursing pre-requisite classes, or be accepted into the nursing program if the appropriate coursework has been successfully completed and other admission criteria is met.
<b>Goals and Objectives</b>	The SCHP reaches and recruits from at-risk communities and provides steady career opportunities to those who might not otherwise have access to health care career education.
<b>Strategy</b>	The Sutter Center for Health Professions (SCHP) is an 18-month accelerated nursing program that allows these new nurses to put their skills to use and immediately begin work as registered nurses in the greater Sacramento area community.
<b>Baseline Information</b>	Through strategic programming, the Sutter Health Sacramento Sierra Region offers opportunities for people to explore in health care related careers, which is critically important as we work to grow capacity and fill the workforce gaps in the healthcare industry.
<b>Affiliate's Contribution or Program Expense</b>	\$762,963
<b>Results</b>	The Sutter Center for Health Professions has graduated a total of 447 RNs to support hospitals in Northern California since the first graduating class in 2005. SCHP admits 55 to 110 students annually.
<b>Amendment to Community Benefit Plan</b>	N/A

## Improving the Lives of Families and Children

<b>Link to Community Needs Assessment</b>	<b>Health Teacher</b> was originally developed in 1999 by health educators and health professionals with the goal of providing a comprehensive online resource that would make it easy to teach good health habits to children.
<b>Program Description</b>	Today HealthTeacher is used in all 50 states and 14 foreign countries. In Placer County, a dedicated SHSSR staff member works with various schools throughout the Placer School Districts to share this curriculum with school nurses, physical education teachers, classroom teachers, community organizers and parents. We partnered with Health Teacher tpo provide this free of charge to all Placer county schools, K-12.
<b>Goals and Objectives</b>	The goal of Health Teacher curriculum is to increase the health literacy of all teachers; enable teachers to overcome constraints that limit health education in the classroom; provide the knowledge, skills and tools that increase the health literacy of all students and engage parents and other key community stakeholders to reinforce healthy behaviors among children.
<b>Strategy</b>	By spreading the lessons of Health Teacher to as many schools and school districts as possible, it is believed that we can drastically improve childhood health. By implementing smart nutrition, health and exercise lessons early, we can stop bad habits before they start and ensure that the children in Placer County stay healthy.
<b>Baseline Information</b>	Given the dire state of our school budgets, many schools find themselves without a dedicated school nurse and/or physical education teacher. Due to unfortunate budget cuts, many key programs and athletic programs focusing on nutrition, health education and physical activity have been carved out of curriculum, due to layoffs. This is why it is critical for school age children to have a health education resource like Health Teacher.
<b>Affiliate's Contribution or Program Expense</b>	\$65,000
<b>Results</b>	In 2012 Health Teacher produced the following statistics: <ul style="list-style-type: none"> <li>• 569 Registered HealthTeacher Users</li> <li>• 98 Active Schools using HealthTeacher</li> <li>• 75% of the school districts have signed the Sutter - HealthTeacher Letter of Participation</li> </ul>
<b>Amendment to Community Benefit Plan</b>	N/A

## Preparing Our Community for Healthy Futures

<b>Link to Community Needs Assessment</b>	<b>Free Mammogram Screening Program</b> throughout the Sutter Health Sacramento Sierra Region.
<b>Program Description</b>	Sutter’s Diagnostic Imaging centers across the region are giving free digital screening mammograms to uninsured women in honor of National Breast Cancer Awareness Month. Comprehensive, fully integrated imaging services are part of the Sutter Health all-inclusive approach to patient care.
<b>Goals and Objectives</b>	The goal of this outreach effort was to not only provide free screenings to underinsured women in our communities, but was also an opportunity to provide women with information on health and insurance resources.
<b>Strategy</b>	Free mammograms were offered in various locations, at various times, throughout the SHSSR region, to ensure as many women as possible were able to take advantage of this effort. In addition, a packet of follow up resources was created in the event that a participant had an abnormal screening. Sutter Diagnostic staff was also given resources to provide to women who needed diagnostic follow up and/or treatment.
<b>Baseline Information</b>	Of the eight events we held in Roseville, Auburn, Elk Grove, Amador, Fairfield, Vallejo, Sacramento and Davis, all of them filled to capacity within a short period of time. This tells us that a great need exists in the community for events of this nature and as a result, we hope to expand this event to accommodate more women next year.
<b>Affiliate’s Contribution or Program Expense</b>	\$17,499
<b>Results</b>	Throughout the month of October, Sutter Diagnostic Imaging centers across the region provided uninsured/underinsured women the opportunity to receive free digital mammograms. As a result of these collaborative events, we were able to screen 358 uninsured women.
<b>Amendment to Community Benefit Plan</b>	N/A

## II. 2012 Community Benefit Values

Sutter Health affiliates and many other health care systems around the country voluntarily subscribe to a common definition of community benefit developed by the Catholic Health Association. Community benefits are programs or activities that provide treatment and/or promote health and healing as a response to community needs.

The community benefit value for Sutter Roseville Medical Center is calculated in two categories:

**Benefits for the Poor and Underserved** and **Benefits for the Broader Community**. Below are definitions for each community benefit activity:

### **Benefits to the Poor and Underserved**

- **Traditional Charity Care** – Free or discounted health care services provided to the uninsured and underinsured populations.
- **Unreimbursed Cost to Medi-Cal** – The “shortfall” created when the facility receives payment below the costs of treating public beneficiaries.

### **Benefits for the Broader Community**

- **Non-Billed Services** – Activities with no individual patient bill, therefore no deduction from revenue is shown in the traditional statement of revenues and expenses.
- **Cash Donations and In-Kind Donations** – Dollars and other items such as staff time and supplies donated by a facility to a community-based program or agency.
- **Education & Research** – All community, patient, and medical education such as community lectures, nursing student rotations and physician/clinician training.

# Community Benefit Summary 2012

## Sutter Health Sacramento Sierra Region

<b>Benefits for the Poor and Underserved</b>	<b>Community Benefit</b>
<b>Traditional Charity Care</b>	\$50,485,406
<b>Unreimbursed Costs of Public Programs</b>	
<b>Medi-Cal</b>	\$69,945,614
<b>Other Public Programs</b>	\$31,448,683
<b>Other Benefits for the Poor and Underserved</b>	\$7,960,468
<b>Total Quantifiable Benefits for the Poor and Underserved</b>	<b>\$159,840,171</b>

<b>Benefits for the Broader Community</b>	<b>Community Benefit</b>
<b>Non-Billed Services</b>	\$56,573
<b>Education &amp; Research</b>	\$5,019,777
<b>Cash and In-Kind Donations</b>	\$1,041,882
<b>Other Community Benefits</b>	\$295,110
<b>Total Quantifiable Benefits for the Broader Community</b>	<b>\$6,413,342</b>

*The financial information above reflects the community benefit values for Sutter Health Sacramento Sierra Region. This includes the total benefits for the poor and underserved and broader community for the following hospitals:*

- *Sutter Amador Hospital*
- *Sutter Auburn Faith Hospital*
- *Sutter Davis Hospital*
- *Sutter Medical Center, Sacramento*
- *Sutter Roseville Medical Center*
- *Sutter Solano Medical Center*

*For further detail regarding the community benefit values for Sutter Roseville Medical Center specifically, please contact Kelly Brenk at (916) 541-0519 or [brenkkm@sutterhealth.org](mailto:brenkkm@sutterhealth.org).*

### **III. 2012 List of Community Partners**

At times, Sutter Roseville Medical Center community benefit efforts may involve investing in partnerships that fundamentally improve community health. In doing so, we acknowledge that our role goes beyond providing care or a service to supporting those organizations that have shown measurable impact in meeting an identified community need.

We are proud to support the following community organizations as we work collaboratively to help create healthier communities.

City of Roseville

Lighthouse Counseling and Family Resource Center

Latino Leadership Council

Kids First

Seniors First

PEACE for Families Placer County

Placer Collaborative Network

Placer Community Foundation

The Gathering Inn

WellSpace Health
