## INTRODUCTION

### General Information:

The California Office of Statewide Health Planning and Development (OSHPD) provides public datasets of data collected from licensed emergency departments and ambulatory surgery facilities in California. Each record within the dataset consists of one outpatient encounter, also known as a service visit, for each time a patient is treated. Data collected for these encounters include demographic, clinical, payer, and facility information.

Emergency Department (ED) data include encounters from hospitals licensed to provide emergency medical services. ED services are classified as basic, standby, or comprehensive. Urgent care should not be automatically considered an ED encounter. Urgent care centers or clinics are licensed by the California Medical Board, can be owned and operated by a physician, contracted out by a hospital, or act as a drop-in for the ambulatory care clinic. Urgent care is not a replacement for the ED. The ED encounters include those patients who had a face-to-face contact with the provider. In the event of elopement or when the patient left without being seen, the patient did not have a face-to-face encounter with a provider and therefore the ED encounter was not reported. The provider is a person with primary responsibility for assessing and treating the condition of a patient at a given contact and exercises independent judgment in the care of the patient. Providers include medical doctors, doctors of osteopathy, doctors of dental surgery, or doctors of podiatric medicine. If the ED encounter resulted in a same-hospital admission, the ED encounter would be combined with the inpatient record. A separate ED record would not be reported for that scenario. When analyzing ED records, you may want to include these direct admissions, identified in the inpatient database as having ED as the source of admission.

Ambulatory Surgery (AS) data include encounters from general acute care hospitals and licensed freestanding Ambulatory Surgery Centers, during which at least one ambulatory surgery procedure is performed. While not all freestanding Ambulatory Surgery Centers are required to be licensed by California Department of Public Health (CDPH), the freestanding Ambulatory Surgery Centers that are licensed by CDPH as surgical clinics are required to report. The 2007 Capen decision affects these licensed entities and is discussed in more detail below under the heading The Capen vs. Shewry Decision.

An ambulatory surgery procedure is defined as those procedures performed on an outpatient basis in the general operating rooms, ambulatory surgery rooms, endoscopy units, or cardiac catheterization laboratories of a hospital or a freestanding ambulatory surgery clinic. If the procedure was done elsewhere such as radiology, OSHPD cannot mandate collection from those areas not specified in the law. If a hospital-based AS encounter resulted in a same-hospital admission, the hospital-based AS encounter would be combined with the inpatient record. A separate AS record would not be reported for that scenario. When analyzing hospital-based AS records, you may want to include the AS direct admissions, using the inpatient's source of admission's site for Ambulatory Surgery and licensure for "Admitting Hospital".

For more details on the definitions of the data reported and reporting requirements, see the California Emergency Department and Ambulatory Surgery Data Reporting Manual at [www.oshpd.ca.gov/HID/MIRCal/EDASManual.html](http://www.oshpd.ca.gov/HID/MIRCal/EDASManual.html).

## File Documentation – Public File

The public data is released twice a year by OSHPD once it has been screened by the automated reporting software (MIRCal) and corrected by the individual facilities. Separate public files are available for ED and AS center encounters. Because of its size, the ED data is divided into three separate files based on the geographic location of the facility as indicated below:

- Los Angeles County
- Southern California (Imperial, Orange, Riverside, San Bernardino, San Diego, Santa Barbara, Ventura)
- Northern California (remaining counties)

### **Masked Variables:**

To protect patient confidentiality, records with unique combinations of certain demographic variables will have one or more of those variables masked to make sure the files are de-identified. In most cases masking involves defaulting the variable to blank or missing. Each unique record will have the minimum number of fields masked to ensure it is no longer unique.

The variable masking occurs in the following order:

ORDER OF MASKING	DATA FIELDS SUBJECT TO MASKING
1 <sup>st</sup>	Age in Years (at service date)
2 <sup>nd</sup>	Ethnicity
3 <sup>rd</sup>	Race
4 <sup>th</sup>	Sex
5 <sup>th</sup>	Age Range 20 (20 categories)
6 <sup>th</sup>	Age Range 5 (5 categories)
7 <sup>th</sup>	Quarter of Service
8 <sup>th</sup>	Patient ZIP Code (5-digit)*
9 <sup>th</sup>	Small County Groups**
10 <sup>th</sup>	Patient ZIP Code (3-digit)*
	<p>*Five-digit ZIP will be masked to three-digits; if record is still unique, ZIP will be totally masked with an asterisk.</p> <p>**Small counties with total populations of 30,000 or less are grouped into 3 categories: Central (CE), Northeastern (NE), and Northwestern (NW). Listings of small counties for each reporting year are provided in Appendix A along with the number of records that were masked by variable.</p>

### **Modifications and Variant Action Reports:**

Some facilities have applied for and been granted "modifications" to standard data reporting requirements. Other facilities were unable to complete specific fields as required and were deemed "non-compliant" at the time of reporting. See Appendix B - Data Exceptions, Modifications, and Non-Compliances for a listing of all non-compliant facilities and those with approved modifications, along with their affected variables.

### **The Capen vs. Shewry Decision:**

In an opinion filed on February 8, 2007, the California Court of Appeals, Third Appellate District, interpreted California clinic licensing law pursuant to Section 1200, et seq. of the California Health and Safety Code, that certain types of clinics and surgical clinics are eligible for licensure by CDPH. The Statute defines "surgical clinics" to exclude clinics that are owned and operated by one or more physicians, but expressly provides that physicians or dentists may, at their option, apply for licensure. CDPH had interpreted the Statute as excluding from mandatory licensure only clinics in which all of the physicians are owners, and requiring licensure of physician-owned clinics in which non-owner physicians practice. CDPH had also licensed physician-owned clinics that voluntarily requested it.

However, on September 19, 2007, the Third District Court of Appeals issued its decision in the Capen vs. Shewry lawsuit holding that all clinics that are owned by a physician or group of physicians are excluded from licensure by CDPH. According to the decision, physician-owned clinics are subject to licensure by the Medical Board of California, which licenses certain "outpatient surgery settings" that use anesthesia.

CDPH has interpreted the decision as stripping it of the authority to license or regulate any physician-owned surgical clinic, including the authority to issue licenses that physicians request voluntarily.

### **Consolidation Facility Listing:**

When multiple facility locations operate under one hospital license, the licensed entity is considered a consolidated provider. These types of facilities can report patient-level data as either separate entities, or, aggregated, as one consolidated provider. Appendix L – Consolidation Facility Listing shows the reporting facilities and their consolidated status at the time the data in this file was collected.

### **Importing Notes:**

There are several fields that, although they appear to contain numeric data, should be treated as text (character). This is particularly important when working with diagnosis and procedure codes. These fields are comprised of ICD-9-CM (diagnosis) and CPT (procedure) codes. Diagnosis and procedure codes are stored without decimals and many contain leading zeros. For example, the ICD-9-CM code for Salmonella Gastroenteritis is "003.0" (implied decimal following the third digit from the left). If it is not formatted as text, the leading zeros may be dropped and the code will appear as an invalid diagnosis code of "30".

### **File Format:**

In the comma-delimited set, the length of each field and the length of each record will vary according to the data reported. To assist you in using the comma-delimited, patient-level datasets, a header row identifying each data element is provided in the position of the first record. The SAS data has been created using SAS version 9.2 for Windows.

The attributes for each data field is provided on the following pages.

## File Documentation

### **Facility Identification Number**

Field Name: fac\_id  
Definition: A unique six-digit identifier assigned to each facility by the Office of Statewide Health Planning and Development. The first two digits indicate the county in which the facility is located. The last four digits are unique within each county. A list of facility numbers and their names and number of encounters are provided in Appendix C - Emergency Department Encounters by Facility and Appendix D - Ambulatory Surgery Encounters by Facility.  
Variable Type: Character  
Variable Length: 6

### **Patient Type**

Field Name: pat\_type  
Definition: The type of facility where a particular patient encounter occurred.  
A = Ambulatory Surgery  
E = Emergency Department  
Variable Type: Character  
Variable Length: 1

### **License Type**

Field Name: lic\_type  
Definition: The license type of the reporting facility. For Ambulatory Surgery data, this variable can be used to distinguish between freestanding ambulatory surgery centers and hospital-based ambulatory surgery.  
C = Clinic  
H = Hospital  
Variable Type: Character  
Variable Length: 1

### **Age in Years (at service date)**

Field Name: age\_yrs  
Definition: Age of the patient (in years) at time of service. This is based on the reported service date and patient's date of birth. If the date of birth is unknown or invalid, the age in years is set to "0".  
Variable Type: Numeric  
Variable Length: 3

## File Documentation – Public File

### Age Range (20 categories)

Field Name: agecat20

Definition: Age range of the patient at the time of service, in five-year increments.

01 = Under 1 year	11 = 45-49 years
02 = 1-4 years	12 = 50-54 years
03 = 5-9 years	13 = 55-59 years
04 = 10-14 years	14 = 60-64 years
05 = 15-19 years	15 = 65-69 years
06 = 20-24 years	16 = 70-74 years
07 = 25-29 years	17 = 75-79 years
08 = 30-34 years	18 = 80-84 years
09 = 35-39 years	19 = 85 years or greater
10 = 40-44 years	00 = Unknown age

Variable Type: Character

Variable Length: 2

### Age Range (5 categories)

Field Name: agecat5

Definition: Broader age range of the patient at the time of service.

1 = Under 1 year	4 = 35-64 years
2 = 1-17 years	5 = 65 years or greater
3 = 18-34 years	0 = Unknown age

Variable Type: Character

Variable Length: 1

### Gender

Field Name: sex

Definition: Gender of the patient at time of service. "Unknown" includes undetermined sex, congenital abnormalities that obscure sex identification, and sex change operations, including any procedure related to a sex change operation (e.g., hysterectomy, mastectomy, etc.) and that the patient's gender was not available from the medical record. Reported invalid and missing values for sex were defaulted to "U".

M = Male
F = Female
U = Unknown/Invalid

Variable Type: Character

Variable Length: 1

### File Documentation – Public File

#### **Ethnicity**

Field Name: eth

Definition: Ethnicity (self-reported) of the patient. If the patient's ethnicity is not recorded in the patient's medical record, or the patient could not or would not declare ethnicity, it was reported as "Unknown" (code 99). Reported invalid and missing values for ethnicity were defaulted to "99". Detailed definitions are provided in Appendix G – Race and Ethnicity Definitions.

E1 = Hispanic  
E2 = Non-Hispanic  
99 = Unknown/Invalid/Blank

Variable Type: Character

Variable Length: 2

#### **Race**

Field Name: race

Definition: Patient's racial background (self-reported). If the patient's race is not recorded in the patient's medical record, or the patient could not or would not declare race, it was reported as "Unknown" (code 99). Reported invalid and missing values for race were defaulted to "99". Detailed definitions of Race and Ethnicity are provided in Appendix G – Race and Ethnicity Definitions.

R1 = American Indian/Alaskan Native  
R2 = Asian  
R3 = Black/African American  
R4 = Native Hawaiian/Other Pacific Islander  
R5 = White  
R9 = Other Race  
99 = Unknown/Invalid/Blank

Variable Type: Character

Variable Length: 2

#### **Patient ZIP Code**

Field Name: patzip

Definition: The patient's 5-digit ZIP Code of residence. If the reported ZIP Code is invalid or if the ZIP Code is unknown, it is assigned a value of "99999". In the masking process, the ZIP Code may be masked at the 3-digit level (i.e., first three digits).

Variable Type: Character

Variable Length: 5

#### Patient County

Field Name: patco

Definition: The patient's county of residence. OSHPD assigns the county of residence based on the patient's reported ZIP Code. Invalid, blank and unknown ZIP Codes and patients residing outside of California are assigned a county code value of "00". Counties with populations of less than 30,000 residents are assigned to one of three small county codes.

01 = Alameda	21 = Marin	42 = Santa Barbara
03 = Amador	23 = Mendocino	43 = Santa Clara
04 = Butte	24 = Merced	44 = Santa Cruz
05 = Calaveras	27 = Monterey	45 = Shasta
07 = Contra Costa	28 = Napa	47 = Siskiyou
08 = Del Norte	29 = Nevada	48 = Solano
09 = El Dorado	30 = Orange	49 = Sonoma

#### Quarter of Service

Field Name: serv\_q

Definition: The calendar quarter when service was provided to the patient. This was based on the service date. The service date is the start of care date provided in the emergency department or ambulatory surgery, whichever occurred first.

- 1 = January - March
- 2 = April - June
- 3 = July - September
- 4 = October - December

#### Expected Source of Payment

Field Name: payer

Definition: The type of entity or organization expected to pay the greatest share of the patient's bill. For a complete list of definitions for these payers, see Appendix E - Expected Source of Payment Definitions. Reported invalid and missing values for expected source of payment were defaulted to "99".

- 09 = Self Pay
- 11 = Other Non-federal Programs
- 12 = Preferred Provider Organization (PPO)
- 13 = Point of Service (POS)
- 14 = Exclusive Provider Organization (EPO)
- 16 = Health Maintenance Organization (HMO) Medicare Risk

#### Disposition

Field Name: dispn

Definition: The consequent arrangement or event ending a patient's encounter in the reporting facility. For detailed definitions, see Appendix F – Disposition Definitions. Prior to January 1, 2011, the description for "04" was "Discharged/Transferred to an intermediate care facility (ICF)." Reported invalid and missing values for disposition were defaulted to "99."

- 01 = Discharged to home or self care (routine discharge)
- 02 = Discharged/Transferred to a short-term general hospital for inpatient care
- 03 = Discharged/Transferred to a skilled nursing facility (SNF) with Medicare certification in anticipation of covered skilled care
- 04 = Discharged/Transferred to a facility that provides custodial or supportive care (includes Intermediate Care Facility)
- 05 = Discharged/Transferred to a designated cancer center or children's hospital

- 06 = Discharged/Transferred home under the care of organized home health service organization in anticipation of covered skilled care
- 07 = Left against medical advice or discontinued care
- 20 = Expired
- 21 = Discharged/Transferred to court/law enforcement (new 10/1/09)
- 43 = Discharged/Transferred to a federal health care facility
- 50 = Discharged home with hospice care
- 51 = Discharged to a medical facility with hospice care
- 61 = Discharged/Transferred to a hospital-based Medicare approved swing bed
- 62 = Discharged/Transferred to an inpatient rehabilitation facility (IRF) including a rehabilitation distinct part unit of a hospital
- 63 = Discharged/Transferred to a Medicare certified long-term care hospital (LTCH)
- 64 = Discharged/Transferred to a nursing facility certified under Medicaid (Medi-Cal), but not certified under Medicare
- 65 = Discharged/Transferred to a psychiatric hospital or psychiatric distinct part unit of a hospital
- 66 = Discharged/Transferred to a critical access hospital (CAH)
- 70 = Discharged/Transferred to another type of health care institution not defined elsewhere on this code list
- 00 = Other
- 99 = Invalid/Blank

### External Cause of Injury – Principal E-Code

Field Name: ec\_prin

Definition: The external cause of injury or poisoning or adverse effect code (E800-E999) which describes the mechanism that resulted in the most severe injury, poisoning, or adverse effect related to the admission. An E-Code is to be reported on the record for the first episode of care reportable to OSHPD during which the injury, poisoning, and/or adverse effect was diagnosed and/or treated. If a patient was first diagnosed in a doctor's office and then sent to an ED or AS facility, the E-Code was reported on the ED or AS record. If the E-Code has been previously reported on a discharge or encounter, the E-Code will not be reported again on the encounter record. E-Codes are coded according to the ICD-9-CM.

Variable Type: Character (implied decimal after the 4<sup>th</sup> character from the left)

Variable Length: 7

## Emergency Department and Ambulatory Surgery Data

July – December 2011

### File Documentation – Public File

#### **External Cause of Injury – Other E-Code (up to 4)**

Field Name(s): ec1-ec4

Definition: The additional external cause of injury or poisoning or adverse effect codes (E800-E999) that completely describe the mechanisms that contributed to, or the causal events surrounding, any injury, poisoning, or adverse effect. Up to 4 other E-Codes should be included for the first reportable episode of care during which the injury, poisoning, or adverse effect was diagnosed and/or treated only. If a patient was diagnosed in a doctor's office and then sent to an ED or AS facility, the E-Code was reported on the ED or AS record. If the E-Code has been previously reported on a discharge or encounter, the E-Code will not be reported again on the encounter record. E-Codes are coded according to the ICD-9-CM.

Variable Type: Character (implied decimal after the 4<sup>th</sup> character from the left)

Variable Length: 7

#### **Principal Diagnosis**

Field Name: dx\_prin

Definition: The condition, problem, or other reason established to be the chief cause of the encounter for care. Diagnoses are coded according to the ICD-9-CM. If the reported principal diagnosis code is blank or invalid and is not corrected by the reporting facility after it is identified by OSHPD as an error, the principal diagnosis was defaulted to 799.9, in accordance with Health and Safety Code Section 97248.

Variable Type: Character (implied decimal after the 3<sup>rd</sup> character from the left)

Variable Length: 7

#### **Other Diagnoses (up to 24)**

Field Name(s): odx1-odx24

Definition: All conditions that coexist at the time of the encounter for emergency or ambulatory surgery care, that develop subsequently during the encounter, or that affect the treatment received. Diagnoses are coded according to the ICD-9-CM.

Variable Type: Character (implied decimal after the 3<sup>rd</sup> character from the left)

Variable Length: 7

#### **Principal Procedure**

Field Name: pr\_prin

Definition: The procedure that is surgical in nature, or carries a procedural risk, or carries an anesthetic risk and is most closely related to the principal diagnosis, as the chief reason for the encounter. Procedures are coded according to the Current Procedural Terminology, Fourth Edition (CPT-4). Category II CPT-4 codes and modifiers are not accepted by OSHPD. For more information on the risks and cancelled surgeries, see the California Emergency Department and Ambulatory Surgery Data Reporting Manual (<http://www.oshpd.ca.gov/HID/MIRCal/EDASManual.html>).

Variable Type: Character

Variable Length: 5

#### **Other Procedures (up to 20)**

Field Name(s): opr1-opr20

Definition: All other procedures which are surgical in nature, carry a procedural risk, or carry an anesthetic risk. Procedures are coded according to the Current Procedural Terminology, Fourth Edition (CPT-4). Category II CPT-4 codes and modifiers are not accepted by OSHPD. For more information on the risks and cancelled surgeries, see the California Emergency Department and Ambulatory Surgery Data Reporting Manual (<http://www.oshpd.ca.gov/HID/MIRCal/EDASManual.html>).

## Expected Source of Payment Definitions

### July - December 2011

**Self Pay** – Payment directly by the patient, personal guarantor, relatives, or friends. The greatest share of patient's bill is not expected to be paid by any form of insurance or other health plan.

**Other Non-federal programs** – Include any form of payment from local, county, or state government agencies.

**Preferred Provider Organization (PPO)** – Includes Blue Cross/Blue Shield or commercial insurance companies under a PPO arrangement. Does not include Medi-Cal patients under a PPO arrangement.

**Point of Service (POS)** – Includes Blue Cross/Blue Shield or commercial insurance companies under a POS arrangement.

**Exclusive Provider Organization (EPO)** – Includes Blue Cross/Blue Shield or commercial insurance companies under an EPO arrangement.

**Health Maintenance Organization (HMO) Medicare Risk** – Includes Medicare Patients covered under an HMO arrangement only.

**Automobile Medical** – Includes PPO, POS, EPO, HMO and Fee for Service or any other payment resulting from automobile coverage.

**Blue Cross/Blue Shield** – Includes only BC/BS Fee for Service payments.

**CHAMPUS (TRICARE)** – Includes any PPO, POS, EPO, HMO, Fee for Service, or other payment from the Civilian Health and Medical Program of the Uniformed Services (CHAMPUS) or from TRICARE

**Commercial Insurance Company** – Includes payments from insurance carriers on a Fee for Services basis; Excludes PPO, POS, and EPO payments.

**Disability** – Payments resulting from disability coverage.

**Health Maintenance Organization** – Includes HMO payers including out-of-state HMOs, BC/BS HMOs and Knox-Keene HMOs. Does not include Medicare HMO or Medi-Cal HMO.

**Medicare Part A** – Defined by Title XVIII of the Social Security Act. Covers inpatient hospital stays, care in a skilled nursing facility, hospice care and some home health care.

**Medicare Part B** – Defined by Title XVIII of the Social Security Act. Covers some outpatient hospital care and some home health services.

**Medi-Cal** – (Medicaid). Defined by Title XIX of the Social Security Act and Title I of the Federal Medicare Act (PL 89-97). Includes all Medi-Cal including Fee for Service, PPO, POS, EPO, and HMO.

# **Appendix E**

## **Expected Source of Payment Definitions**

### **July - December 2011**

**Other Federal Program** – Federal programs not covered by any other category.

**Title V** – Defined by the Federal Medicare Act (PL 89-97) for Maternal and Child Health. Title V of the Social Security Act is administered by the Health Resources and Services Administration, Public Health Service, Department of Health and Human Services. Includes California Children Services and Maternal and Child Health program payments not covered under Medi-Cal.

**Veterans Affairs Plan** – Includes any PPO, POS, EPO, HMO, Fee for Service or other payment resulting from Veterans Administration coverage.

**Workers' Compensation Health Claim** – Includes payments from Workers' Compensation Health Claim insurance.

**Other** – Includes payments by governments of other countries, payment by local or organized charities such as the Cerebral Palsy Foundation, Easter Seals, March of Dimes, Shriners, and payments not listed in other categories.

# **Appendix F**

## **Disposition Definitions**

### **July - December 2011**

#### **01 - Discharged to home or self care (routine discharge):**

This category includes patients discharged to home directly after treatment (including the homeless and those receiving non-home health or non-hospice care services, such as services by a durable medical equipment (DME) supplier or services related to home oxygen), a home environment (e.g. half-way house, group home, community care facility, foster care, woman's shelter), a Residential Care facility, court, a correctional institution, and law enforcement custody. This category also includes various types of facilities that provide supportive and custodial care. These facilities are licensed by the California Department of Social Services and are not considered to be health facilities. The facilities are referred to by a variety of terms (e.g., board and care, residential care facilities for the elderly). This category is used to indicate discharge to a location not licensed as a medical facility by the Department of Health Services, such as Mental Health Rehabilitation Centers (MHRC). This category DOES NOT include patients sent to home health care or to home with hospice care.

#### **02 - Discharged/Transferred to a short term general care hospital or inpatient care:**

This category includes patients discharged or transferred to inpatient hospital care. This category DOES NOT include patients discharged or transferred to physical medicine rehabilitation facilities, or rehabilitation distinct part of a hospital, or psychiatric facilities, or psychiatric distinct part unit of a hospital.

#### **03 - Discharged/Transferred to a skilled nursing facility with Medicare certification in anticipation of covered skilled care:**

This category includes patients discharged or transferred to: SNF facility or skilled nursing distinct part of a hospital that provides supportive and nursing care to patients whose primary need is for skilled nursing care on an extended basis; SNF certified by Medicare; Rehabilitation unit in a SNF; Institute for Mental Disease (IMD), if licensed by California Department of Health Services as SNFs. If IMD is not licensed by the California Department of Health Services as SNF, this may be reported as Federal health care facility. This category DOES NOT include patients discharged or transferred to facilities with a Medicare approved skilled nursing swing bed.

#### **04 - Discharged/Transferred to an intermediate care facility (ICF):**

This category includes patients discharged or transferred to: Intermediate care facility or a distinct part of a hospital or SNF that provides inpatient care to ambulatory or non-ambulatory patients who have recurring need for skilled nursing supervision and need supportive care, but who do not require availability of continuous nursing care; Non-certified SNFs; and Skilled nursing level of care in the state designated assisted living facilities.

#### **05 - Discharged/Transferred to a designated cancer center or children's hospital:**

Beginning with encounters on 4/1/08 this category includes patients discharged or transferred to either a designated cancer center or children's hospital. Transfers to non-designated cancer hospitals are coded under short term general care hospital or inpatient care (02). For a list of designated cancer centers link to: [National Cancer Institute Designated Cancer Centers](#). Prior to 4/1/08 this category included patients discharged or transferred to another type of institution not defined elsewhere (code 70 beginning 4/1/08).

# **Appendix F**

## **Disposition Definitions**

### **July - December 2011**

**06 - Discharged/Transferred home under the care of organized home health service organization in anticipation of covered skilled care:**

This category includes patients discharged or transferred to home with healthcare services from an organized home health service organization where the provided services are at a level less intensive than health facility requirements. Services under an organized home health service organization may include nursing care, respiratory/inhalation therapy, electrocardiology, physical therapy, occupational therapy, and recreational therapy. Also included in this category are discharges and transfers to home with a written home health plan of care for home health care services. This category DOES NOT include discharges or transfers to home with hospice services.

**07 - Left against medical advice or discontinued care:**

This category includes patients who left against medical advice (AMA) or who discontinued care. If a patient did not see a provider, the encounter was not reported to OSHPD.

**20 - Died/Expired:**

This category includes all episodes of care that resulted in death before patient left the facility.

**43 - Discharged/Transferred to a federal health care facility:**

This category includes patients discharged or transferred to federal government owned health care facilities such as Veterans Administration hospitals, Department of Defense hospitals, Public Health Services hospitals, and Institutes for Mental Disease (IMD), not licensed by the California Department of Health Services as SNF.

**50 - Discharged home with hospice care:**

This category includes patients discharged or transferred to home with hospice care. A hospice program is a centrally administered program of palliative and support services which provide psychological, social and spiritual care for dying persons and their families, focusing on pain and symptom control for the patient. This category DOES NOT include discharges or transfers to home or home health services.

**51 - Discharged to a medical facility with hospice care:**

This category includes patients discharged or transferred to any medical facility for hospice care only. A hospice program is a centrally administered program of palliative and support services which provide psychological, social and spiritual care for dying persons and their families, focusing on pain and symptom control for the patient.

**61 - Discharged/Transferred to a hospital-based Medicare approved swing bed:**

This category includes patients discharged or transferred to a SNF level of care within the hospital's Medicare approved swing bed arrangement.

**62 - Discharged/Transferred to an inpatient rehabilitation facility (IRF) including rehabilitation distinct part unit of a hospital:**

This category includes patients discharged or transferred to a rehabilitation facility or to a rehabilitation distinct part of a hospital.

## **Appendix F**

### **Disposition Definitions**

#### **July - December 2011**

**63 - Discharged/Transferred to a Medicare certified long term care hospital (LTCH):**

This category includes patients discharged or transferred to a long term care hospital that provides acute inpatient care with an average length of stay greater than 25 days. This category DOES NOT include discharges and transfers to SNF facility certified by Medicare or ICF facility or SNF facility certified by Medicaid (Medi-Cal).

**64 - Discharged/Transferred to a nursing facility certified under Medicaid (Medi-Cal), but not certified under Medicare:**

This category includes patients discharged or transferred to a SNF level of care within the hospital's non-Medicare approved swing bed arrangement; skilled nursing bed for the Medi-Cal Subacute Care Program, skilled nursing bed for the Medi-Cal Transitional Care Program, skilled nursing bed in a Congregate Living Health Facility licensed by California Department of Health Services, and Institute for Mental Disease (IMD), if licensed by California Department of Health Services as SNF. If IMD is not licensed by California Department of Health Services as SNF, it may be reported as a federal health care facility.

**65 - Discharged/Transferred to a psychiatric hospital or psychiatric distinct part unit of a hospital:**

This category includes patients discharged or transferred to a psychiatric facility or to a psychiatric distinct part of a hospital.

**66 - Discharged/Transferred to a critical access hospital (CAH):**

This category includes patients discharged or transferred to a hospital designated as a Critical Access Hospital.

**70 - Discharged/Transferred to another type of institution not defined elsewhere on this list:**

Beginning with encounters on 4/1/08, this category includes patients discharged or transferred to a health care institution not otherwise mentioned in one of the categories described above. Included in this category are patients discharged to Urgent Care or Chemical Dependency care. Prior to 4/1/08 patients in this category would be coded as "05".

**00 - Other:**

This category does not include health care institutions which would be otherwise categorized in above.

## Race and Ethnicity Definitions

### July - December 2011

**Race and Ethnicity** data is most accurate when the patients are asked to identify their own race and ethnicity. Self-identification may include the use of a form displaying race/ethnicity choices. Because data quality deteriorates when assumptions are based on the patient's or a family member's name, physical appearance, place of birth, or primary language, hospitals are instructed to code Race and Ethnicity as "Unknown" if the patient or family member is unable or unwilling to declare. The parents declare the ethnicity and race of a newborn. If the parent(s) is unable or unwilling to declare the newborn's race, it is appropriate for the facility reporting to OSHPD to report the ethnicity and race of the mother for that of the newborn. Multiracial patients may choose any one of the categories that is at least partially accurate (including "other"). For more discussion and examples of coding guidelines, see the California Emergency Department and Ambulatory Surgery Data Reporting Manual at <http://www.oshpd.ca.gov/HID/MIRCal/EDASManual.html>

### Race

**American Indian or Alaska Native:** A person having origins in or who identifies with any of the original peoples of North and South America, and who maintains cultural identification through tribal affiliation or community recognition.

**Asian:** A person having origins in or who identifies with Asian Indian, Bangladeshi, Bhutanese, Burmese, Cambodian, Chinese, Filipino, Hmong, Indonesian, Iwo Jiman, Japanese, Korean, Laotian, Madagascar, Malaysian, Maldivian, Nepalese, Okinawan, Pakistani, Singaporean, Sri Lankan, Taiwanese, Thai, and Vietnamese.

**Black or African American:** A person having origins in or who identifies with any of the black racial groups of Africa including Botswanan, Ethiopian, Liberian, Namibian, Nigerian, Zairean, Barbadian, Dominican, Haitian, Jamaican, Tobagoan, Trinidadian, and West Indian.

**Native Hawaiian or Other Pacific Islander:** A person having origins in or who identifies with the following groups: Native Hawaiian, Carolinian, Chamorro, Chuukese (Trukese), Fijian, Guamanian, Kiribati, Kosraean, Marshallese, Melanesian, Micronesian, Mariana Islander, New Hebrides, Palauan, Papua New Guinean, Pohnpeian, Polynesian, Saipanese, Samoan, Solomon Islander, Tahitian, Tokelauan, Tongan, and Yapese.

**White:** A person having origins in or who identifies with any of the original Caucasian peoples of Europe, North Africa, or the Middle East. This may include the following groups: Armenian, English, French, German, Irish, Italian, Polish, Scottish, Middle Eastern, North African, Assyrian, Egyptian, Iranian, Iraqi, Lebanese, Palestinian, Syrian, Afghanistani, Israeli, and Arab.

# Appendix G

## Race and Ethnicity Definitions

### July - December 2011

**Other Race:** Any possible options not covered in the above categories. This category includes patients who cite more than one race.

#### **Ethnicity**

Hispanic origin or descent is not to be confused with race. A person of Hispanic origin may be of any race.

**Hispanic:** A person who identifies with or is of Mexican, Puerto Rican, Cuban, Central or South American, or other Spanish culture or origin. This may include the following groups: Andalusian, Argentinian, Asturian, Balearic Islander, Bolivian, Castilian, Catalanian, Canarian, Chicano, Chilean, Columbian, Costa Rican, Criollo, Dominican, Ecuadorian, Gallego, Guatemalan, Honduran, La Raza, Latin American, Mexican American, Mexican American Indian, Mexicano, Nicaraguan, Panamanian, Paraguayan, Peruvian, Salvadorian, Spaniard, Spanish Basque, Uruguayan, Valencian, and Venezuelan. A person of Hispanic origin may be of any race.

**Non-Hispanic:** A person who identifies with a culture or origin other than Hispanic.

**Unknown:** Includes patients who cannot or will not declare their ethnicity. Unknown is also used as a default for reported invalid and blank values of ethnicity.
