## GENERAL INFORMATION

The Office of Statewide Health Planning and Development (OSHPD) provides a data file which contains selected financial and utilization data from the Long-term Care Facility Integrated Disclosure and Medi-Cal Cost Reports (Disclosure Report) submitted by California long-term care facilities. This data file is available for purchase on PC diskette and for downloading from the Office's web- site ([www.oshpd.state.ca.us](http://www.oshpd.state.ca.us)).

Due to the large number of data elements reported on the Disclosure Report, only a maximum of 221 selected data items for each reporting facility are provided. We tried to provide a wide range of commonly used data items, including general facility information, utilization data by payer, revenue data by payer and type of care, expense data by cost center, financial ratios, and labor information. We realize that the limited number of data items may preclude some data users from performing detailed analysis of a facility's report, in which case more detailed data can be obtained by contacting OSHPD's Healthcare Information Resource Center at (916) 326-3802 or at [hirc@oshpd.state.ca.us](mailto:hirc@oshpd.state.ca.us).

The data file includes selected data from each Disclosure Report that was submitted within the specified range of reporting periods. This means that if a facility submitted two Disclosure Reports within the specified range, both reports are included. These situations arise due to changes in facility licensure or fiscal year end date. As a general rule, most reports will cover a 12 month (365 day) reporting period, although some reports will be less than or greater than 12 months.

OSHPD routinely grants reporting modifications to reflect the unique operating characteristics of certain facilities. These modifications may include the submission of an abbreviated Disclosure Report in lieu of the full 13-page Disclosure Report. Since the data file contains data from all facilities that submitted a report, you should exercise caution when using the data from these "non-comparable" reports. To assist you in identifying these reports, the data file contains a data field (Item 7, "Comparable") which indicates if the facility is considered "comparable." Additionally, Appendix D contains a list of "non-comparable" facilities and a description of each facility.

### **Data File Availability**

An updated data file is released two times per year (around October 1st and April 1st). Each file contains data from report periods that ended within the specified 12 month period. This file contains up to 221 data items on each of the approximately 847 facilities that submitted a Disclosure Report to OSHPD for fiscal years ending December 31, 2000.

## GENERAL INFORMATION

### **Data File Documentation**

This documentation is available in hardcopy, or on the OSHPD web-site ( [www.oshpd.state.ca.us](http://www.oshpd.state.ca.us)) in a PDF file format. Included in this documentation package are the definitions of the data items from the Disclosure Report and a description of each data item (field). The three appendices are : A) a cross-reference between each data item and the Disclosure Report; B) a cross-reference list between counties, Health Service Areas, and Health Facility Planning Areas; and C) a list of non-comparable facilities.

### **Standard Data File Format**

The file is in a text format (.TXT) with comma-delimited/comma-separated values, which can easily be imported into most spreadsheets and databases as well as other software. (For users of LOTUS software, we can create a compressed format LOTUS file as a PKZIP<sup>®</sup> self-extracting file.) The first record (row) contains column titles that can be used as database names or spreadsheet titles. The titles are unique for each column and are 10 characters or less. If your database can accommodate only eight characters, see Appendix D, Alternate Field Titles, for suggested data titles.

If you are having or believe you will have trouble processing the .TXT file format, please contact a technical representative in OSHPD's Healthcare and Information Resource Center at (916) 32 6-3802, and indicate your concerns. We attempted to produce a data product that will meet the needs of most data users, but do not want to exclude anyone from gaining access to the data.

### **Diskette Size**

Diskettes are available only in 3 1/2" (1.44Mb). The diskette will contain data for each facility that filed a Disclosure Report during the specified range of reporting periods. They can be used on IBM or compatible PCs operating under DOS Version 2.0 or higher with a recommended minimum of 640Kb of memory.

Should you be unable to process the 1.44Mb diskette, contact Healthcare Information Resource Center to make arrangements for special request processing. This may entail additional time and expense.

### **Data File Description**

Each line (row) represents one facility. For technical and practical reasons, we were unable to include all data elements from each submitted Disclosure Report. The 221 selected data items (columns) represent the data for approximately 847 Disclosure Reports and reflect those data items that are in highest demand. Some data items, such as the financial ratios, are calculations based on reported data.

## GENERAL INFORMATION

### PKZIP® Self-Extracting File (for LOTUS software)

If you are using LOTUS software, the data file is a PKZIP® self-extracting file and should have an extension of .EXE. To execute and expand this file, please follow these instructions:

1. Insert the diskette into your **A:** drive.
2. Copy the zipped file from the diskette to your designated drive that has the available space to hold the unzipped (expanded) file. For most users, this will be your **C:** drive.
3. Switch to the directory or subdirectory in which you wish to expand the zipped file.
4. At the prompt, type the filename and extension: **C:> filename.EXE** and press **<Enter>**. The file will execute and expand, and is now ready to be used.

### Data File Specifications

In the Data File Specifications that follow on pages 1 through 8, these data format representations are used:

Item No.	Each data field is assigned an item number, which is referenced consistently throughout this documentation.
Column	Indicates the column in which the data item is located, if the file is imported into a spreadsheet.
Field Title	The title of each data item that can be used as database names or spreadsheet titles. We limited the titles to 10 characters.
Data Item	The name of the data field, which is referenced consistently throughout this documentation.
Data Type	Indicates if field is TEXT or NUMERIC, as defined below:

<u>CODE</u>	<u>Representation Meaning</u>
TEXT	Alphanumeric <sup>1</sup> Alphabetic and/or numeric data, left justified, and space filled
NUMERIC	Numeric (comma-only numeric values, no delimited) punctuation, right justified, and

## GENERAL INFORMATION

left space filled (leading hyphen for negative sign)

<sup>1</sup>There are double quotes (") around text fields in the comma-delimited format since they may contain a comma as data.

Field Size                      Indicates the maximum field size.

### **Data Field Definitions**

This documentation also includes definitions of the data items included in the data file. Pages 9 through 29 list the number of each data item (Item No.), its name (Data Item), and a brief description of the data item. These definitions are consistent with the uniform accounting and reporting requirements specified in OSHPD's *Accounting and Reporting Manual for California Long-term Care Facilities*. If you need assistance in interpreting these definitions or would like to purchase a manual, please call the Healthcare and Information Resource Center at (916) 326-3802.

## **DATA FILE SPECIFICATIONS**

This section contains the data file specifications for the data items included in the data file. For each data item, it specifies: 1) the number of the data item (Item No.); 2) a spreadsheet column reference (Column); 3) the title of the field (Field Title); 4) the data item's name (Data Item); 5) the type of data (Data Type); and 6) the size of the field (Field size). Pages iii and iv of this documentation describe each of these categories.

## **DATA ITEM DEFINITIONS**

This section contains the definitions of the data items included in the data file, listing the number of each data item (Item No.), its name (Data Item), and a brief description of the data item.

## DATA ITEM DEFINITIONS

**DISCLOSURE REPORT INFORMATION** -The following are definitions for each data item contained in the data file:

1. **OSHPD Facility Number** - A nine-digit facility identification number assigned by OSHPD for reporting purposes.
2. **Facility DBA (Doing Business As) Name** - The name under which the facility is doing business. This name may be an abbreviation and may differ from the facility's legal name.
3. **Report Period Begin Date** - The first day of the reporting period (YYYYMMDD).
4. **Report Period End Date** - The last day of the reporting period (YYYYMMDD).
5. **Days in Report Period** - The number of calendar days in the reporting period. For most facilities, this value is 365. A different number usually indicates that the facility opened or closed, or had a change in licensure or fiscal year end date, during the reporting cycle.
6. **Data Status Indicator** - Indicates if the report is AUDITED or IN PROCESS. Audited data are included for those facilities whose reports have completed the Office's desk audit process. In Process data are included for those facilities whose reports are still in the desk audit process. Please note that facilities may submit revisions to a report subsequent to our completion of the desk audit.
7. **Comparable Facility Indicator** - Indicates if the report is from a “comparable” or “non-comparable” facility. A list of non-comparable facilities is provided in Appendix D along with a description of the type of facility it is, and why it is considered non-comparable.

**GENERAL FACILITY INFORMATION** - The following fields provide general information with respect to the facility, including its location, license category, and street address, and the Administrator's name:

8. **County Number** - The number of the County in which the facility is located. There are 58 counties in California. Appendix C is a cross-reference between county numbers and names. Please note that no facilities are located in the Counties of Alpine, Mariposa, Modoc, Mono, Sierra, Trinity, and Tuolumne (County Numbers 02, 22, 25, 26, 46, 53, and 55).
9. **Health Service Area (HSA) Number** - A numeric code denoting the HSA in which the facility is located. The HSA's geographic area, consisting of one or more contiguous counties, is designated by the Federal Department of Health and Human Services for health planning on a regional basis. Appendix C identifies the HSAs that are located in each county.

This ratio indicates the percentage of health care revenue which remains as income after operating expenses have been deducted.
165. **Net Return on Equity** - Net income (Item 52) divided by average equity. This ratio defines the amount of net income earned per dollar of equity investment.
166. **Turnover on Operating Assets** - The sum of gross routine services revenue (Item 42) and gross ancillary services revenue (Item 43) less deductions from revenue (Item 44), divided by the sum of current assets (Item 131) and net property, plant, and equipment (Item 134). This ratio indicates how well operating assets are used to generate patient revenue.
167. **Assets to Equity Ratio** - Total assets (Item 138) divided by total equity (Item 142). This ratio indicates the extent to which equity levels are used to support assets and generate future earnings. If the value is too high, the facility may be undercapitalized; if too low, the facility may be overcapitalized. A value of 4 or 5 is a well-capitalized condition.
168. **Net Property, Plant, and Equipment Per Licensed Bed** - Net property, plant, and equipment (Item 134), plus construction-in-progress (Item 135), divided by the number of licensed beds (Item 22). This ratio indicates the dollar value of net fixed assets per licensed bed. Age of the facility can affect this ratio and should be considered in comparing facilities.

### **NON-COMPARABLE FACILITIES**

Many facilities which submit reports are unique in their operation, or the type of service they provide. Since the data file contains data from all facilities which submitted a report, you should exercise caution when using the data from these “non-comparable” facilities. We have included the following list and description of the facilities which are considered non-comparable.

## APPENDIX C - NON-COMPARABLE FACILITIES

Data items belonging to the following “non-comparable” facilities may not correspond comparably with long-term care facilities in general. Caution should be used when comparing these facilities with “comparable” facilities, and in including their data in statewide totals or other groupings.

### A. Facilities Without Direct Patient Revenues

There are no facilities in this data file that operates without direct patient revenues.

### B. Facility Operated by Governmental Agencies

There are no facilities in this data file that is operated by the Veterans Administration of California.

### C. Congregate Living Health Facilities (CLHFs) and SNF-Based Hospices

Data from 21 CLHFs and SNF-based hospices are included in this data file. They are typically small facilities, and provide care to patients with terminal or life-threatening illnesses, or catastrophic and severe injury. Some of the facilities also have large home health components.

While these facilities are still considered “comparable,” their balance sheet data include the assets, liabilities, and equity for their combined residential and health care operations. These facilities are identified as either “SNF/RES” or “ICF/RES” in Item 11, **License Category**. Caution should be used when comparing the data for these facilities, and when including their data in the statewide totals.
