- To populate the County Summary page the County must enter the path where files have been saved and the path name must be followed by a backslash (\). The next step is to enter the County name. Once the above is complete, the County Summary will populate after clicking on the grey button.

- If the path name or County name is not entered correctly, or if the files are not named using the naming convention specified above, the links from the County Summary to the individual programs sheets will not work. Note: When opening the Summary spreadsheet Counties may be prompted to update, if this happens click "Don't Update."
