The federal Health Professional Shortage Area (HPSA) designation is given to areas that demonstrate a shortage of healthcare providers, on the basis of availability of primary care physicians. This designation is based on the MSSA boundary, its population to primary care physician ratio, and available access to healthcare.

The data displayed in this map were created by the California Office of Statewide Health Planning and Development's (OSHPD) Healthcare Workforce Development Division (HWDD). To obtain more information about the federal designations shown on the map, see http://www.oshpd.ca.gov/HWDD/HPSA.html
