

## 2014 Federal Health Workforce Development Grant Opportunities - Updated 5/30/2014

Below you will find a brief description of each Federal Grant Opportunity that has been announced and a link to the Grant website which has complete funding and eligibility information. If you are applying for any of these grant opportunities, please let us know via email to [HCRWorkforce@oshpd.ca.gov](mailto:HCRWorkforce@oshpd.ca.gov) to ensure OSHPD can report how many California stakeholders are applying for these federal grants.

If you are interested in applying for a grant and would like to receive a letter of support from the State, please send your request via email to [HCRWorkforce@oshpd.ca.gov](mailto:HCRWorkforce@oshpd.ca.gov). In your letter, please include the addressee's name, the amount of your grant request, your grant objective, and any relevant information you would like the State to consider. Also, please include the deadline date of your grant application submission.

Grant Notice Date	Grant Title	Granting Organization	Grant Description	Grant Eligibility	Funding Available	Grant Due Date	Amount Awarded to Applicants
5/12/14	Center for Integrative Medicine in Primary Care Program (CIMPC)	HRSA Department of Health and Human Services	The Health Resources and Services Administration, Bureau of Health Professions, Division of Public Health and Interdisciplinary Education is accepting applications for the Fiscal Year 2014 for the CIMPC Program. The purpose of the CIMPC is to incorporate evidence-based Integrative Medicine (IM) curricula into existing primary care residency and other health professions training programs. Health professions training programs can include pediatrics, internal medicine, family medicine, preventive medicine, nursing, physician assistant, public health, and behavioral health, among others. The CIMPC is expected to contribute to the evidence-base for IM, and identify and disseminate promising practices related to the integration of IM into primary care. For more information regarding this grant, please go to: <a href="https://grants3.hrsa.gov/2010/Web2External/Interface/FundingCycle/ExternalView.aspx?&amp;fCycleID=9147c7fe-87e1-48d5-964a-dc2bf74d0f86&amp;txtAction=View+Details&amp;submitAction=Go&amp;ViewMode=EU">https://grants3.hrsa.gov/2010/Web2External/Interface/FundingCycle/ExternalView.aspx?&amp;fCycleID=9147c7fe-87e1-48d5-964a-dc2bf74d0f86&amp;txtAction=View+Details&amp;submitAction=Go&amp;ViewMode=EU</a>	Eligible applicants include a health professions school, including an accredited school or program of public health, health administration, preventive medicine, or dental public health or a school providing health management programs; an academic health center; a State or local government; or any other appropriate public or private nonprofit entity.	\$1,700,000	6/13/14

5/12/14	Faculty Loan Repayment Program	HRSA	<p>The Health Resources and Services Administration announced the Faculty Loan Repayment Program. The Faculty Loan Repayment Program supports health professions educators who are from disadvantaged backgrounds and serve a vital role in preparing the next generation of healthcare professionals. Health professions faculty from disadvantaged backgrounds can receive up to a maximum of \$40,000 towards repayment of their student loans in exchange for educating tomorrow's clinicians. Individuals selected to participate in the program agree to serve on the faculty of an accredited health professions college or university for 2 years. For more information including eligibility criteria please go to the following link: <a href="http://www.hrsa.gov/loanscholarships/repayment/Faculty/index.html">http://www.hrsa.gov/loanscholarships/repayment/Faculty/index.html</a></p>	<p>U.S. citizens (either U.S. born or naturalized), U.S. National or Lawful Permanent Resident (LPR), which is any person not a citizen of the U.S. who is residing in the U.S. under legally recognized and lawfully recorded permanent residence as an immigrant. An LPR is also known as a "Permanent Resident Alien," "Resident Alien Permit Holder," and "Green Card Holder".</p>	\$40,000	6/26/14	
5/16/14	Evidence-Based Tele-Emergency Network Grant Program (EB TNGP) HRSA 14-138	HRSA Office of Rural Health Policy (ORHP)	<p>The Health Resources and Services Administration, ORHP is accepting applications for Fiscal Year 2014 for the EB TNGP Program. The purpose of this program is to support implementation and evaluation of broad telehealth networks to deliver Emergency Department consultation services via telehealth to rural and community providers without emergency care specialists. Tele-Emergency is defined as an immediate, synchronous, interactive audio/video connection between an ED specialist at the distant site and general practitioners at the originating site used to support delivery of emergency care. These services may include assessment of patients upon admission to the ED, interpretation of patient symptoms and clinical tests or data, supervision of providers administering treatment or pharmaceuticals, or coordination of patient transfer out of the local ED. While the EB TNGP emphasizes expanding access to needed services for rural patients, it primarily seeks through systematic data collection and analysis to establish an evidence-base assessing the effectiveness of Tele-Emergency care for patients, providers, and payers. For more information, please go to the following link: <a href="https://grants.hrsa.gov/webExternal/SFO.asp?ID=82c63d20-806f-4213-97a4-09de6dc4125d">https://grants.hrsa.gov/webExternal/SFO.asp?ID=82c63d20-806f-4213-97a4-09de6dc4125d</a></p>	<p>Eligible applicants include public, private, and non-profit organizations, including faith-based and community organizations, as well as Federally-recognized Indian tribal governments and organizations.</p>	\$1,600,000	6/19/14

5/5/14	American Indians Into Medicine	Health & Human Services (HHS) Indian Health Services (IHS)	<p>The IHS is accepting competitive grant applications for the Indians into Medicine (INMED) Program. This program is authorized under the authority of the Indian Health Care Improvement Act and is described in the catalog of Federal Domestic Assistance under 93.970. The IHS, an agency within the HHS, is responsible for providing Federal health services to American Indians and Alaska Natives (AI/AN). The mission of the IHS is to raise the physical, mental, social, and spiritual health of AI/AN. The purpose of the INMED Program is to augment the number of Indian health professionals serving AI/AN by encouraging them to enter the health professions and removing the multiple barriers to their entrance into practice serving AI/AN. For further information regarding this grant opportunity, click at the following link:  <a href="http://www.ihs.gov/dgm/documents/HHS-2014-IHS-INMED-0001.pdf">http://www.ihs.gov/dgm/documents/HHS-2014-IHS-INMED-0001.pdf</a></p>	<p>Eligible applicants include public and nonprofit private colleges and universities with medical and other allied health programs accredited by an accrediting agency recognized by the U.S. Secretary of Education. Public and nonprofit private colleges that operate nursing programs are not eligible under this announcement since the IHS currently funds the nursing recruitment grant program.</p>	\$397,360	6/13/14	
4/28/14	Workforce Investment Act- Workforce Accelerator Fund	CA Workforce Investment Board (CWIB) and Employment Development Department (EDD)	<p>The CWIB and the Employment Development Department (EDD) have announced the availability of up to \$2.5 million in Workforce Investment Act funds to design, develop, and implement projects that accelerate employment and re-employment strategies for California job seekers. The State Board and EDD will fund projects and partnerships to create and prototype innovative strategies that bridge education and workforce gaps for targeted populations, and initial implementation of promising models and practices in workforce system service delivery infrastructure. This grant will make grants for projects accelerate skill development, employment, and re-employment for one or more of the target populations (long-term unemployed, returning veterans, individuals with disabilities, low-income workers, disconnected youth, and ex-offenders). Goals are to improve labor market and skills outcomes for target groups through the development of strategies that fill gaps, accelerate processes/customize services to ensure greater access to workforce services/job opportunities; create new modes for service delivery and funding alignment that can be replicated across the State and tailored to regional needs; and leverage State investment with commitments from industry, labor, public, and community partners. More information located at:  <a href="http://www.edd.ca.gov/Jobs_and_Training/pubs/wsrfa14-1.pdf">http://www.edd.ca.gov/Jobs_and_Training/pubs/wsrfa14-1.pdf</a></p>	<p>Eligible applicants for this solicitation include local Workforce Investment Boards, labor organizations, K-12 education entities, community colleges and adult schools, community-based organizations, business-related non-profit organizations, and workforce intermediaries. A for-profit private business or for-profit consortium of businesses can be a partner on the application but cannot be the lead applicant.</p>	\$2,500,000	6/2/14

4/28/14	<b>Public Health Traineeships Program Modification 1</b>	HRSA	This announcement solicits applications for the Public Health Traineeship Program, which will provide grants to accredited schools of public health and/or other public or nonprofit private institutions accredited for the provision of graduate or specialized training in public health to support traineeships in severe workforce shortage disciplines to eligible individuals enrolled in a post-bachelor's degree certificate program, a master's program, or a doctoral program in public health. This program will provide traineeship support to cover the costs with tuition, stipends, fees and allowances (including travel and subsistence expenses and dependency allowances) for students pursuing graduate level education in one of six disciplines (epidemiology, environmental health, biostatistics, toxicology, nutrition, and maternal and child health), representative of current severe workforce shortage areas as identified in the statutory language. Students receiving traineeship support must also participate in public health practice-based field placements particularly in state and local health departments and/or underserved communities as part of their training. More information located at: <a href="https://grants.hrsa.gov/webExternal/SFO.asp?ID=3e971f87-62b8-4fa2-8dbd-08240f893eed">https://grants.hrsa.gov/webExternal/SFO.asp?ID=3e971f87-62b8-4fa2-8dbd-08240f893eed</a>	Eligible applicants include any accredited school of public health accredited by the Council on Education for Public Health, and/or other public or nonprofit private institutions accredited by a body recognized for the purpose of providing graduate or specialized training in public health, is eligible to apply for a PHT grant. Faith-based and community-based organizations are eligible to apply for these funds if otherwise eligible.	\$2,300,000	5/19/14

4/14/14	<b><i>Now Is the Time: Minority Fellowship Program-Youth (NITT- MFP-Y)</i></b>	HRSA SAMHSA	The Substance Abuse and Mental Health Services Administration (SAMHSA), Center for Mental Health Services (CMHS) is accepting applications for fiscal year (FY) 2014 for the Now Is the Time: Minority Fellowship Program-Youth (NITT-MFP-Y) grant program. The NITT-MFP-Y is part of the President's Plan, <i>Now is the Time</i> , to increase access to mental health services for youth in America. This program expands the focus of the current MFP program to support master's level trained behavioral health providers in the fields of psychology, social work, professional counseling, marriage and family therapy, and nursing. The purpose of this grant program is to reduce health disparities and improve behavioral health care outcomes for racially and ethnically diverse populations by increasing the number of culturally competent master's level behavioral health professionals serving children, adolescents, and populations in transition to adulthood (aged 16–25) in an effort to increase access to, and quality of, behavioral health care for this age group. The mental health and substance abuse needs of racial and ethnic minority communities within the United States have been historically underserved due to a variety of factors, including a limited number of trained professionals equipped with the language skills or cultural competency training that impact effective services delivery to this population. More information at following link: <a href="http://beta.samhsa.gov/grants/grant-announcements/sm-14-015">http://beta.samhsa.gov/grants/grant-announcements/sm-14-015</a>	Eligible applicants are the four (4) organizations and the National Professional Counselor Organizations who have applied for funding under the MFP RFA No. SM-14-007. Only one award will be made to a professional counselor organization and it will go to the organization receiving the MFP award.	\$2,661,000	5/14/14	

Grant Notice Date	Grant Title	Granting Organization	Grant Description	Grant Eligibility	Funding Available	Grant Due Date	Amount Awarded to Applicants
4/14/14	<b><i>Now is the Time: Minority Fellowship Program- Addiction Counselors (NITT-MFP-AC)</i></b>	HRSA SAMHSA	The Substance Abuse and Mental Health Services Administration (SAMHSA), Center for Substance Abuse Treatment (CSAT) is accepting applications for fiscal year (FY) 2014 for the <i>Now is the Time: Minority Fellowship Program- Addictions Counselors (NITT-MFP-AC)</i> grants. The NITT-MFP-AC is part of the President's Plan, <i>Now is the Time</i> , to increase behavioral health services for youth in America. This program expands the focus of the current MFP program to support master's level addiction counselors. The purpose of this four-year grant program is to reduce health disparities and improve behavioral health care outcomes for racially and ethnically diverse populations by increasing the number of culturally competent master's level addiction counselors available to underserved minority populations with a specific focus on transition age youth (ages 16-25) in public and private non-profit sectors. The NITT-MFP-AC grants will support students pursuing master's level degrees in addiction/substance abuse counseling. The mental health and substance abuse needs of racial and ethnic minority communities within the United States have been historically underserved due to a variety of factors including a limited number of trained practitioners equipped with the language skills or cultural competency training that impact effective services delivery to this population. The NITT-MFP-AC seeks to address health disparities by providing stipends to individuals that have demonstrated commitment in working in underserved communities and working with underserved populations post fellowship. More information at following link: <a href="http://beta.samhsa.gov/grants/grant-announcements/ti-14-010">http://beta.samhsa.gov/grants/grant-announcements/ti-14-010</a> .	Eligible applicants are professional organizations representing addictions counselors with Master's level training because they are comprised of professionals who work or will work in the addiction/substance abuse counseling field. These organizations have the necessary mechanisms and databases in place for identifying candidate students pursuing master's degrees in addiction/substance abuse counseling and the infrastructure and expertise in place to carry out grant activities.	\$1,600,000	5/21/14

4/8/14	<b>The Behavioral Health Workforce Education and Training (BHWET) for Professionals</b>	HRSA SAMHSA	<p>In support of the White House <i>Now is the Time</i> initiative. The Behavioral Health Workforce Education and Training (BHWET) for Professionals grant program aims to expand the mental health and substance abuse (jointly referred to as behavioral health throughout the funding opportunity announcement) workforce serving children, adolescents, and transitional-age youth at risk for developing or who have developed a recognized behavioral health disorder. Grantees will be expected to expand the behavioral health workforce by supporting pre-degree clinical internships and field placements for students at accredited master's-level schools and programs of social work, psychology, marriage and family therapy, psychiatric-mental health nurse practitioner, and professional counseling that require a pre-degree clinical field placement in behavioral health; support doctoral-level health service psychology internship programs (including health services psychology, clinical psychology and counseling psychology) and/or doctoral-level health service psychology schools and programs. More information located at the following link:  <a href="https://grants.hrsa.gov/webExternal/SFO.asp?ID=84ef19ca-f1b6-4c18-b446-40c746e867a8">https://grants.hrsa.gov/webExternal/SFO.asp?ID=84ef19ca-f1b6-4c18-b446-40c746e867a8</a></p>	Eligible applicants are accredited master's-level schools and programs of social work, psychology, marriage and family therapy, psychiatric-mental health nurse practitioners and professional counseling that require a pre-degree clinical field placement in behavioral health as part of the training and a prerequisite for graduation; and doctoral-level health service psychology internships and schools and programs.	\$26,700,000	6/3/14

4/7/14	<b>The Behavioral Health Workforce Education and Training (BHWET) program for Community Health Workers - Paraprofessionals</b>	HRSA SAMHSA	In support of the White House <i>Now is the Time</i> initiative, the Behavioral Health Workforce Education and Training (BHWET) program for Paraprofessionals is supported by the Health and Human Services' Substance Abuse and Mental Health Services Administration (SAMHSA) and the HRSA. This program places special emphasis on treating children and adolescents aged 16 to 25 years old who are at risk for mental illness, substance abuse, and suicide, and among the least likely to seek continuous help. Expands the behavioral health workforce by supporting education and training for behavioral health-related paraprofessional certification at community and technical colleges, including tribal colleges and universities, focusing on the behavioral health needs of at-risk youth and families. Paraprofessional certificate programs may include community health worker, outreach worker, social services aide, mental health worker, substance abuse/addictions worker, youth worker, promotora, and peer paraprofessional. Certificate programs for peer paraprofessionals may also be offered by organizations recognized by their state government to offer peer paraprofessional training programs, and these programs must offer a state licensure. For more information, click at: <a href="https://grants.hrsa.gov/webExternal/SFO.asp?ID=75777519-34e4-4ec4-853d-fc8bf82fd0a7">https://grants.hrsa.gov/webExternal/SFO.asp?ID=75777519-34e4-4ec4-853d-fc8bf82fd0a7</a>	Eligible applicants for paraprofessional certificate training programs are community and technical colleges, including tribal colleges and universities, accredited by a U.S. Dept. of Education nationally recognized accrediting body. Entities must offer a certificate program(s) in a behavioral health-related paraprofessional field (i.e., community health worker, outreach worker, social services aide, mental health worker, substance abuse/addictions worker, youth worker, promotora, peer paraprofessional).	\$3,400,000	6/3/14

3/7/14	<b>Cooperative Agreements to Benefit Homeless Individuals - States Supplement (Short Title: CABHI-States Supplement) SM-14-012</b>	SAMHSA	SAMHSA-Center for Mental Health Services announces the availability of funds to expand/enhance grant activities funded under the Cooperative Agreements to Benefit Homeless Individuals for States (TI-13-004) grant announcement. The purpose is to enhance or develop the infrastructure of states and their treatment service systems to increase capacity to provide accessible, effective, comprehensive, coordinated/integrated, and evidence-based treatment services; permanent supportive housing; peer supports; CMHS-funded peer navigator(s); other critical services to persons who experience chronic homelessness with substance use disorders or co-occurring substance use and mental disorders. The funding for this supplement must be used for new activities and shouldn't supplant funding received under the original grant. The funds awarded will be used to conduct enhancement of the statewide plan to ensure sustained partnerships across public health and housing systems that will result in short- and long-term strategies to support individuals who experience chronic homelessness; enhancing computer systems, management information system (MIS), electronic health records (EHRs), etc., to document and manage client needs, care process, integration with related support services, and outcomes; training/workforce development to help staff or other providers in the community identify serious mental illness and/or co-occurring substance use & mental disorders. For more information regarding this grant opportunity, please visit the following link: <a href="http://beta.samhsa.gov/grants/grant-announcements/sm-14-012">http://beta.samhsa.gov/grants/grant-announcements/sm-14-012</a>	Eligibility for this supplemental funding announcement is limited to the current FY 2013 CABHI-States grantees. CMHS is providing supplemental funding for this program in order to create a more comprehensive program that is consistent with the CABHI States model in order to better address the full range of individuals who experience chronic homelessness and have behavioral health issues, including those with only serious mental illness and homeless veterans.	\$5,492,870	4/14/14

3/7/2014	<b>Mental Health Transformation Grant Program: Transforming Lives Through Supported Employment</b>	SAMHSA Center for Mental Health Services	SAMHSA- Center for Mental Health Services is accepting applications for Fiscal Year (FY) 2014 for the Mental Health Transformation Grant Program: Transforming Lives through Supported Employment (Short Title: SE Program). The purpose of this program is to enhance state and community capacity to provide and expand evidence-based supported employment programs (such as the Individual Placement and Support model) to adults with serious mental illnesses including persons with co-occurring mental and substance use disorders. The expected outcome of the program is for states to have the necessary infrastructure in place to maintain and expand supported employment services throughout the state and increase the number of individuals with serious mental illness and co-occurring mental and substance use disorders who obtain and retain competitive employment. Grantees will establish a robust SE program in two (2) communities within the state, secure sustainable funding for ongoing community SE services, establish a permanent training program using in-person and virtual platforms, and collect and analyze program data. Eligible applicants are the mental health authorities in states, territories, and the District of Columbia; federally recognized American Indian/Alaska Native tribes and tribal organizations, or urban Indian organization authorized to develop or direct the state/tribal-sponsored supported employment programs. More information located at: <a href="http://beta.samhsa.gov/grants/grant-announcements/sm-14-011">http://beta.samhsa.gov/grants/grant-announcements/sm-14-011</a> .	Eligible applicants are the mental health authorities in states, territories, and the District of Columbia; federally recognized American Indian/Alaska Native tribes and tribal organizations, or urban Indian organization authorized to develop or direct the state/tribal-sponsored supported employment programs. 2/25/14	<b>Loan Repayment Program (LRP) for Repayment of Health Professions Educational Loans</b>	Indian Health Services (IHS)	The Indian Health Service (IHS) estimated budget request for Fiscal Year (FY) 2014 includes \$19,090,023 for the IHS Loan Repayment Program (LRP) for health professional educational loans (undergraduate and graduate) in return for full-time clinical service as defined in the IHS LRP policy clarifications. This program announcement is subject to the appropriation of funds and is being published early to coincide with the recruitment activity of the IHS, which competes with other Government and private health management organizations to employ qualified health professionals. Applicants selected for participation in the FY 2014 program cycle will be expected to begin their service period no later than September 30, 2014. For more information available at the following link: <a href="http://www.ihs.gov/loanrepayment/documents/LRP_Policy_Updates.pdf">http://www.ihs.gov/loanrepayment/documents/LRP_Policy_Updates.pdf</a>	Eligible applicants must be enrolled in a course of study or program in an accredited institution, as determined by the Secretary, within any State and be scheduled to complete such course of study in the same year such individual applies to participate in such program; or be enrolled in an approved graduate training program in a health profession; or have a degree in a health profession and a license to practice in a state.	\$19,090,023	8/15/14

2/19/14	<b>Service Area Competition-Additional Areas (SAC-AA) (AL, AZ, CA, CO, KY, MO, MS, MT, NC, NJ, NY, OK, OR, PA, PR, TN, and TX)</b>	HRSA	HRSA administers the Health Center Program (HCP) as authorized by section 330 of the Public Health Service (PHS) Act, as amended (42 U.S.C. 254b). Health centers improve the health of the Nation's underserved communities and vulnerable populations by assuring access to comprehensive, culturally competent, quality primary health care services. HCP grants support a variety of community-based and patient-directed public and private nonprofit organizations that serve an increasing number of the Nation's underserved. Individually, each health center plays an important role in the goal of ensuring access to services, and combined, they have had a critical impact on the health care status of medically underserved and vulnerable populations throughout the US and its territories. Targeting the Nation's neediest populations and geographic areas, the HCP currently funds approximately 1,200 health centers that operate nearly 9,000 service delivery sites in every state, the District of Columbia, Puerto Rico, the Virgin Islands, and the Pacific Basin.	Eligible applicants include nonprofit private entity, including tribal, faith-based, or community-based organizations.	\$22,781,022	3/21/14	
2/18/14	<b>Development and Translation of Medical Technologies to Reduce Health Disparities (SBIR) (R43/R44) National Institutes of Health</b>	Department of Health and Human Services	This funding opportunity is to reduce health disparities through the development and translation of appropriate medical technologies. The NIH defines health disparities as differences in the incidence, prevalence, morbidity, mortality, and burden of diseases and other adverse health outcomes that exist among specific population groups. These population groups include racial and ethnic minorities (African Americans, American Indians, Alaska Natives, Asian Americans, Hispanic Americans, Native Hawaiians, and other US Pacific Islanders, subpopulations of all of these racial/ethnic groups), socioeconomically disadvantaged individuals, and medically underserved populations including individuals residing in rural and urban areas. Appropriate medical technologies must have the following basic characteristics: effective, affordable, culturally acceptable, and easily accessible to those who need them. Supports applications to develop medical devices, imaging systems, and other technologies that adequately address the healthcare needs of health disparity populations. It is expected that responsive grant applications will result in advances in medical technologies that will be invaluable in reducing health disparities within and across the priority areas of cardiovascular disease, stroke, cancer, diabetes, HIV/AIDS, infant mortality, mental health, and obesity, as well as lung, liver, and kidney diseases, psoriasis, scleroderma, other	Eligible applicants include nonprofit service and/or membership organizations that can provide training and technical assistance on a national level to strengthen the infrastructure capacities of states and local government entities.	\$2,000,000	5/23/14

2/5/14	<b>Additional Funding under PCORI's Five Broad National Priorities for Research</b>	Patient-Centered Outcomes Research Institute	PCORI intends to award up to \$81 million via the following initiatives, the details of which are delineated below: <ul style="list-style-type: none"> <li>o Assessment of Prevention, Diagnosis, and Treatment Options</li> <li>o Improving Healthcare Systems</li> <li>o Communication and Dissemination Research</li> <li>o Addressing Disparities</li> <li>o Improving Methods for Conducting Patient-Centered Outcomes Research</li> </ul>	Applications may be submitted by any private sector research organization, including any non-profit or for-profit organization; any public sector research organization, including any university or college hospital or healthcare system, laboratory or manufacturer, unit of local, state or federal government.	\$81,000,000	3/07/14 for Letter of Intent (LOI)  5/06/14: applications (if invited to apply)	
2/5/14	<b>Obesity Treatment Options Set in Primary Care for Underserved</b>	Patient-Centered Outcomes Research Institute	PCORI intends to award up to \$20 million “to fund up to two trials comparing obesity treatment options – such as dietary counseling, increased physical activity, and behavioral therapy – in primary care settings. Because low-income, minority, and rural individuals experience higher rates of obesity, this PFA focuses on how well these options help these underserved populations lose weight.”	Applications may be submitted by any private sector research organization, including any non-profit or for-profit organization; any public sector research organization, including any university or college hospital or healthcare system, laboratory or manufacturer, unit of local, state or federal government.	\$20,000,000	3/07/14 for Letter of Intent (LOI)  5/06/14: applications (if invited to apply)	
2/5/14	<b>Effectiveness of Transitional Care</b>	Patient-Centered Outcomes Research Institute	According to PCORI, “up to \$15 million to fund a comprehensive study to determine which clusters of transitional care services work best at reducing preventable hospital readmissions and improving outcomes among at-risk patients, such as those with multiple chronic illnesses. The study will also determine which of these services are most effective in various healthcare settings and payment contexts.”	Applications may be submitted by any private sector research organization, including any non-profit or for-profit organization; any public sector research organization, including any university or college hospital or healthcare system, laboratory or manufacturer, unit of local, state or federal government.	\$15,000,000	3/07/14 for Letter of Intent (LOI)  5/06/14 for applications (if invited to apply)	
2/5/14	<b>Pragmatic Clinical Studies and Large Simple Trials</b>	Patient-Centered Outcomes Research Institute	PCORI intends to provide \$90 million in funding to “support 9 large, multi-year CER studies in the first of two such announcements planned this year.” As noted by PCOPI, priority topics will “be based on the previous work of respected health care organizations and the input of [PCORI's] multi-stakeholder advisory panels.” PCORI intends to select from the Letters of Intent (LOIs) those applicants who will be permitted to subsequently submit a full application.	Applications may be submitted by any private sector research organization, including any non-profit or for-profit organization; any public sector research organization, including any university or college hospital or healthcare system, laboratory or manufacturer, unit of local, state or federal government.	\$90,000,000	3/07/14 for Letter of Intent (LOI)  8/08/14: applications (if invited to apply)

2/4/14	<b>National Rural Health Policy and Community Development Program – New and Competing Continuation</b>	HRSA	Patient Centered Outcomes Research Institute seeks to fund pragmatic clinical trials, large simple trials, or large-scale observational studies that compare two or more alternatives for addressing prevention, diagnosis, treatment, or management of a disease or symptom; improving health care system-level approaches to managing care; or for eliminating health or healthcare disparities. Proposed studies must address critical clinical choices faced by patients, their caregivers, clinicians, and/or delivery systems. Must involve broadly representative patient populations and be large enough to provide precise estimates of hypothesized effectiveness differences and to support evaluation of potential differences in treatment effectiveness in patient subgroups. PCORI requires that relevant patient organizations, professional organizations, and/or payer or purchaser organizations be included as partners and actively participate in the study.	Public, private and nonprofit organizations, including faith-based and community-based organizations, state governments and their agencies such as universities, colleges, research institutions, hospitals, state and local governments or their bona fide agents along with federally recognized Indian Tribal governments, Indian Tribes, and Indian Tribal organizations.	\$1,800,000	3/31/14	
2/4/14	<b>National Organizations for State and Local Officials (NOSLO) – New and Competing Continuation</b>	HRSA	The purpose of the NOSLO cooperative agreement is to improve health, promote a skilled healthcare workforce, and achieve health equity for communities by: strengthening the organizational capacities of state and local health departments, PCOs, SORHs, small rural hospitals and clinics, State Medicaid agencies, and legislatures through information exchanges and participation in learning communities that support quality improvement and innovative public and private sector initiatives; developing technical assistance materials and training activities that can be used by states and political subdivisions to benefit HRSA grantees such as health centers, state maternal child health programs, health professions training programs, state and local Ryan White grantees, and state and local public health agencies/entities providing services to underserved communities; and engaging national organizations, representing state and local officials, to provide training and technical assistance to promote primary care and public health integration initiatives for their constituencies.	Eligible applicants include nonprofit service and/or membership organizations that can provide training and technical assistance on a national level to strengthen the infrastructure capacities of states and local government entities.	\$2,000,000	3/31/14

2/3/14	<b>Affordable Care Act (ACA) Patient Centered Medical Home–Facility Improvements</b>	HRSA	HRSA has announced the ACA-Patient Centered Medical Home – Facility Improvements FOA. This FOA details the FY2014 Patient Centered Medical Home–Facility Improvement (P-FI) Grant Program, as authorized by the Patient Protection and ACA (P.L. 111-148, Section 10503(c)). Funds made available by the P-FI Program will support health centers’ efforts to make facility enhancements through alteration and renovation or construction that will improve patient access to services and quality of care using the Patient Centered Medical Home (PCMH) model of care. Subject to the availability of funds, this funding opportunity will award approximately \$35 million in FY 2014 to support approximately 150-175 awards through competitive one-time awards for capital projects for existing health centers receiving funding under the Health Center Program (section 330 of the Public Health Service (PHS), 42 U.S.C. 254b, as amended).	Applicants must comply with applicable requirements of Section 330, implementing regulations, and guidelines, including the Health Center Program requirements.	\$35,000,000	3/14/14: Phase 1 Grants.gov deadline  4/17/14: Phase 2 EHB deadline	
1/31/14	<b>Affordable Care Act-Mental Health Services Expansion-Behavioral Health Integration (BHI) Grant</b>	HRSA	HRSA announces the ACA-Mental Health Services Expansion-Behavioral Health Integration (BHI) Grant. The goal of the FY 2014 BHI funding is to increase the coordination, collaboration, and integration of primary and behavioral health care services at existing health centers funded under Section 330 of the Public Health Service Act. Specifically, this funding opportunity will increase access to behavioral health services and increase the number of health centers with integrated primary care and behavioral health models of care. Must demonstrate high level of need for behavioral health services in their community/target population, a sound proposal to meet this need, and readiness to rapidly implement the proposal. Must show that BHI grant funds will increase access to comprehensive, culturally competent, collaborative, and integrated behavioral health services. Applicants are expected to explain how services will be made available to all individuals in the service area while maximizing collaboration with existing behavioral health providers in the community.	Applicants are limited to grantees funding under Title III, Section 330 of the Public Health Service Act, as amended by Section 10503 of The Patient Protection and Affordable Care Act (i.e., Community Health Centers, Section 330(e); Migrant Health Centers, Section 330(g); Health Care for the Homeless, Section 330(h); and Public Housing Primary Care, Section 330(i).	\$50,000,000	3/3/14

1/24/14	<b>Minority Fellowship Program</b>	SAMHSA	SAMHSA announced the Minority Fellowship Program (MFP) which aims to reduce health disparities and improve health care outcomes for racially and ethnically diverse populations by increasing the number of culturally competent behavioral health professionals available to underserved minority populations in the public and private non-profit sectors. Mental health and substance abuse needs of racial and ethnic minority communities within the US have been historically underserved through a limited number of trained practitioners sensitive to the cultural issues or equipped with the language skills that impact effective services delivery. The MFP closely aligns with the ACA and SAMHSA's Eight Strategic Initiatives by addressing the current and projected behavioral health workforce shortages and the need to train providers on recovery-based practices. The MFP seeks to address health disparities by providing stipends, specialized training and mentoring supports to individuals that have demonstrated commitment to working in underserved communities and working with underserved populations post fellowship. MFP info link: <a href="http://beta.samhsa.gov/grants/grant-announcements/sm-14-007">http://beta.samhsa.gov/grants/grant-announcements/sm-14-007</a>	Congress has limited eligibility for this program to American Nurses Association (ANA), American Psychiatric Association (ApA), American Psychological Association (APA), Council on Social Work Education (CSWE) and American Association for Marriage and Family Therapy (AAMFT) as these professional organizations have unique access to students entering their respective professions.	\$47,000,000	3/17/14	
1/10/14	<b>System-level Workforce Capacity Building for Integrating HIV Primary Care in Community Health Care Settings - Demonstration Sites</b>	HRSA	HRSA announced the soliciting of applications for a new Ryan White HIV/AIDS Program Special Projects of National Significance multi-site initiative entitled System-level Workforce Capacity Building for Integrating HIV Primary Care in Community Health Care Settings Demonstration Sites. Funding will be provided to support organizations to promote the design, implementation, and evaluation of system-level changes in staffing structures that improve health outcomes along the HIV Care Continuum. Applicants must propose innovative strategies to increase their capacity to achieve efficient and sustainable service delivery practices that both optimize human resources and improve health outcomes. Demonstration projects will implement and evaluate innovative Practice Transformative Models for the delivery of HIV treatment and comprehensive care services through workforce efficiencies that improve health outcomes. Evaluation of these innovative PTMs will identify best practices and methods to support organizations in adapting and re-aligning their workforce in a changing healthcare landscape, as well as factors that increase the potential for successful integration of HIV care into primary care and community healthcare settings serving vulnerable populations. Grant program link: <a href="http://www.hrsa.gov/grants/index.html">http://www.hrsa.gov/grants/index.html</a> .	Nonprofits having a 501(c)(3) status with the IRS, other than institutions of higher education; Native American tribal organizations (other than Federally recognized tribal governments). Must be public or private non-profit entities; including those that receive funding under Ryan White HIV/AIDS Treatment Extension Act of 2009; community health centers receiving support under Section 330 of the PHS Act; and/or federally qualified health centers as described in Title XIX.	\$45,000,000	3/10/14

1/8/14	<b>Nurse Corps Loan Repayment Program</b>	HRSA	HRSA announced the NURSE Corps Loan Repayment Program which sets registered nurses (including advanced practice registered nurses and nursing faculty) on a rewarding career path while paying off 60 percent of their unpaid nursing student loans in just 2 years, and an additional 25 percent of the original balance for an optional third year. In return, NURSE Corps members fulfilling a service obligation at one of the thousands of eligible nonprofit hospitals, clinics, nursing schools and other facilities located in designated mental health or primary medical care HPSA across the US; NURSE Corps members enjoy the same competitive pay and benefits negotiated with their employer as non-members. More info at: <a href="http://www.hrsa.gov/loanscholarships/repayment/nursing/index.html">http://www.hrsa.gov/loanscholarships/repayment/nursing/index.html</a>	Must be a licensed registered nurse (nurse practitioners and other advanced practice nurses encouraged to apply) or nurse faculty, have completed your training (diploma, associate, baccalaureate or graduate), and be employed full time (at least 32 hours per week) at an eligible critical shortage facility.		2/27/14	
1/3/14	<b>Dental Reimbursement Program- Ryan White HIV Part F Dental Reimbursement Program (DRP)</b>	HRSA	HRSA announced the soliciting applications for the Part F Dental Reimbursement Program (DRP) to expand HIV services and education and training. These services target low-income, underserved people living with HIV/AIDS. The primary purpose of the DRP is to improve access to oral health care services for patients with HIV and to train dental and hygiene students and dental residents to deliver HIV/AIDS dental care. The DRP accomplishes this by defraying a portion of unreimbursed dental care costs for people living with HIV/AIDS incurred by accredited dental or dental hygiene education programs recognized by the Commission on Dental Accreditation. Grant program link: <a href="http://www.hrsa.gov/grants/index.html">http://www.hrsa.gov/grants/index.html</a> .	Applicants are limited to dental schools and other dental education programs, that were described in 777(b)(4)(B) Public Health Service Act as such section was in effect on the day before the date of the enactment of the Health Professions Partnerships Ed.	\$9,000,000	2/26/14

12/31/13	<b>Recovery Community Services Program-Statewide Network (RCSP-SN) Substance Abuse &amp; Mental Health Services Administration</b>	SAMHSA	SAMHSA, Center for Substance Abuse Treatment (CSAT) is accepting applications for fiscal year (FY) 2014 Recovery Community Services Program-Statewide Network (RCSP-SN) grants. The purpose of this program is to expand the capacity of addiction recovery community organizations (RCOs) through the development of an organized statewide network. In collaboration with other relevant groups, grantees will work to strengthen the voice of the larger addiction recovery community at the local and state levels. There is a need for greater recognition of the scope and value of addiction recovery community organizations, peer recovery supports and services, and the need for the peer voice to be represented in state-level policy planning and implementation. The intent of this program is to further enhance the presence of RCOs as key partners in treatment, recovery, and affiliated health systems. In accordance with SAMHSA's Strategic Initiative on Recovery Support, this program aims to highlight the value of lived experience through the inclusion of addiction RCOs, which are led by those in recovery, as an organized statewide presence. <a href="http://beta.samhsa.gov/grants/grant-announcements/ti-14-001">http://beta.samhsa.gov/grants/grant-announcements/ti-14-001</a>	Eligible applicants for this program include RCOs that are domestic private nonprofit entities in states, territories, or tribes. RCOs are independent, non-profit organizations led and governed by representatives of local communities of addiction recovery. A primary goal of this program is to strengthen the presence of addiction recovery communities as key partners in local and state substance use disorders treatment and recovery systems, as well as in affiliated health systems.	\$1,000,000	3/5/14	
12/30/13	<b>Nurse Faculty Loan Program (NFLP)</b>	HRSA	This announcement solicits applications for the Nurse Faculty Loan Program (NFLP) to increase the number of qualified nursing faculty. The NFLP provides funding to schools of nursing to support the establishment and operation of a distinct, interest-bearing NFLP loan fund. Participating schools of nursing make loans from the fund to assist registered nurses in completing their graduate education to become qualified nurse faculty. The program offers loan cancellation of up to 85% for borrowers that graduate and serve as full-time nursing faculty for the prescribed period of time. Accredited schools of nursing are eligible to apply for funding. Eligible schools must offer educator coursework within an advanced education nursing degree program(s) that will prepare the graduate student to teach. <a href="http://www.grants.gov/view-opportunity.html?oppld=249626">http://www.grants.gov/view-opportunity.html?oppld=249626</a> <a href="http://www.hrsa.gov/grants/index.html">http://www.hrsa.gov/grants/index.html</a>	Eligible applicants are accredited schools of nursing or a department within the institution that offers an eligible advanced nursing education program yielding a graduate degree in nursing.	\$22,500,000	2/3/14

12/27/13	<b>Indian Health Professions Preparatory, Pre-graduate and Indian Health Professions Scholarship Programs</b>	Indian Health Services (IHSA)	An estimated \$13.2 million will be available for Fiscal Year (FY) 2014 awards. Approximately 45 awards will be made under the Health Professions Preparatory and Pre-graduate Scholarship Programs for Indians. The awards are for ten months in duration, with an additional two months for approved summer school requests, and will cover both tuition and fees and Other Related Costs (ORC). The average award to a full-time student is approximately \$34,490.60. An estimated 276 awards will be made under the Indian Health Professions Scholarship Program.	This is a limited competition announcement. New and Continuation scholarship awards are limited to "Indians" as defined at 25 U.S.C. Section 1603(13).	\$1,500,000	2/28/14 for continuing students  3/28/14 for new students	
12/27/13	<b>Nurse Education, Practice, Quality and Retention (NEPQR) Program - Veteran's Bachelor of Science Degree in Nursing</b>	HRSA	This announcement solicits applications for the Nurse Education, Practice, Quality and Retention - Veteran's Bachelor of Science Degree in Nursing Program. The Division of Nursing will solicit three-year cooperative agreements that propose to develop and implement innovative career ladder programs that will increase the enrollment, progression, and graduation of veterans in Bachelor of Science in Nursing programs. The VBSN program supports HRSA's strategic plan to improve access to quality health care and services; strengthen, the nation's healthcare workforce; build healthy communities; and improve health equity. Awarded VBSN applications will complement the collaborative efforts of the HRSA, DoD, and the VA that seek to reduce barriers that prevent veterans from transitioning into nursing careers; develop BSN career ladder programs targeted to the unique needs of veterans; explore innovative educational models to award academic credit for prior health career experience/training or other relevant military training; improve employment opportunities for veterans through high demand careers training. Information link: <a href="http://www.grants.gov/web/grants/view-opportunity.html?oppld=249594">http://www.grants.gov/web/grants/view-opportunity.html?oppld=249594</a>	Eligible applicants include accredited schools of nursing as defined in section 801(2), of the Public Health Service Act, a health care facility as defined in section 801(11) of the Public Health Service Act, or partnership of such a school and facility.	\$2,800,000	2/18/14	
12/26/13	<b>Telehealth Resource Center Grant Program</b>	HRSA	HRSA announced the Telehealth Resource Center Grant Program to support the establishment and development of Telehealth Resource Centers (TRCs) in order to: expedite and customize the provision of telehealth technical assistance across the country, while at the same time working together to make available a wide range of expertise that might not be available in any region. The TRCs provide technical assistance to health care organizations, health care networks, and health care providers in the implementation of cost-effective telehealth programs to serve rural and medically underserved areas and populations. Information on the TRCs Program: <a href="http://www.grants.gov/web/grants/view-opportunity.html?oppld=249573">http://www.grants.gov/web/grants/view-opportunity.html?oppld=249573</a>	Native American tribal organizations (other than Federally recognized tribal governments). 12/19/13	<b>Implementation Cooperative Agreements for Expansion of the Comprehensive Community Mental Health Services for Children and their Families Program</b>	SAMHSA	SAMHSA announced the Implementation Cooperative Agreements for Expansion of the Comprehensive Community Mental Health Services for Children and their Families Program - Expansion Implementation Cooperative Agreements. The purpose of this program is to improve behavioral health outcomes for children and youth with serious emotional disturbances and their families. This program supports the operation, expansion, and integration of SOC through the creation of sustainable infrastructure which allows for the provision of and access to required services and supports that adhere to the values, principles, and practices comprising the system of care approach to become the primary way in which children's mental health services are delivered throughout the nation. This cooperative agreement is intended to support the availability and provision of mental health and related recovery support services to children and youth with emotional disturbances along with the implementation of systemic changes in policy, financing, services and supports, training and workforce development, and other areas that are necessary for expanding and sustaining the system of care approach, and to accomplish these goals through linkages with other health reform implementation efforts. For more info: <a href="http://beta.samhsa.gov/grants/grant-announcements/sm-14-002">http://beta.samhsa.gov/grants/grant-announcements/sm-14-002</a>	Eligibility for this program is statutorily limited to public entities such as: State governments; Indian or tribal organizations (as defined in Section 4[b] and Section 4[c] of the Indian Self-Determination and Education Assistance Act); governmental units within political subdivisions of a state, such as a county, city or town; District of Columbia government; and the Commonwealth of Puerto Rico, Northern Mariana Islands, Virgin Islands, Guam, American Samoa, and Trust Territory of the Pacific Islands (now Palau, Micronesia, and the Marshall Islands).	\$23,000,000	3/21/14
