## How to Fold Your OSHPD Goal Catcher

1. Cut along the dotted line to create a square piece of paper.
2. Fold your paper in half twice (first vertically then horizontally) to create a seam in the paper in the shape of a cross.
3. Open your paper with the blank side up.
4. Fold each corner into the center of the paper so the four points all touch in the middle. You will now have a smaller square of paper.
5. Turn over your paper and fold the corners on this side into the center just like you did on the other side. You will once again have a new smaller square.
6. Fold this small square in half each way (horizontally and vertically) to create deeper creases in the paper, then open it back up to the square you had at the end of step 5. Slide your fingers into the outside pockets and pinch it together so it looks like the photo above.
7. Commence play! Move the pockets back and forth to see all that OSHPD has to offer students! Open it back up to hang the center poster on your wall!
