Project # _____ Increment # _____

Application for Incremental Project Master

Facility

Facility # _____ Facility Name _____
OSHPD Building # BLD - _____ Building Name _____
Type of Facility Acute Psychiatric Hospital General Acute Care Hospital Skilled Nursing or Intermediate Care Facility
 Correctional Treatment Center Licensed Clinic

Record Detail

Record/Project Name _____
Detailed Description _____

Application Specific Information – Plan Review

Submittal Type Collaborative Phased Review Requested Final
 Collaborative Review Requested Phased Review Requested
 Preliminary
Kind of Project Addition Maintenance New Building Remodel/Alteration
Total Beds Before Construction _____ Total Beds After Construction _____ Square Footage of Project _____
Project includes Primary Gravity and/or Lateral Load Elements/Systems Yes No
Seismic Compliance Construction Project Yes No (If yes, complete Application for Seismic Compliance Construction Project)
Managed Project Requested Yes No

Costs

Cost Type Estimated Contract

Construction Costs
(excluding fixed equipment, imaging equipment, design fees, inspection fees, and off-site improvements)
Note: For SB 1838 projects, this amount must not exceed \$50,000 \$ _____

Fixed Equipment Costs
(sterilizers, chillers, boilers, etc., excluding installation) \$ _____

Total Costs
(Combined total of Construction Costs and Fixed Equipment Costs, excluding Imaging Equipment) \$ _____

Cost of Imaging Equipment
(X-ray, MRI, CT Scan, etc., excluding installation cost) \$ _____

Note: See Instructions for Fee Information

OFFICE OF STATEWIDE HEALTH PLANNING AND DEVELOPMENT FACILITIES DEVELOPMENT DIVISION

INSTRUCTIONS FOR APPLICATION FOR INCREMENTAL PROJECT MASTER (OSH-FD-127)

This form must be accompanied by a Project Information form [OSH-FD-100](#).

Note: If licensure by the California Department of Public Health is not required by your facility, review by OSHPD is not required; therefore this application is not required. Contact the local jurisdiction for submittal requirements.

Facility

- Enter the Office of Statewide Health Planning and Development (OSHPD) facility identification number. If this application is for construction of a new facility and an OSHPD facility identification number has not yet been assigned, contact the office for this number.
- Enter the name of the facility as it appears on the facility license.
- Enter the OSHPD building number and building name where the work is to be performed.
- Indicate the type of facility as it is licensed.

Record Detail

- Enter the record/project name.
- Enter a detailed description of the work to be performed.

Application Specific Information – Plan Review

- Indicate the type of submittal for this project by placing a check in the appropriate box. If selecting a collaborative review, phased review or collaborative phased review, complete the Phase Master Plan form ([OSH-FD-120](#)).
- Indicate if a managed project review is requested. A managed project consists of negotiation of plan review and construction schedules and deadlines between OSHPD and the governing board or authority of the facility. If a managed project is requested, an OSHPD project manager will be in contact with the applicant to set up a meeting.
- If preliminary or final is checked as the type of submittal, enter the date of the presubmittal meeting (for projects with an estimated construction cost greater of \$20 million and above).
- Check the box for the kind of project. Refer to Title 24, California Administrative Code, Section 7-111, Definitions.
- Enter the total bed count before construction and after construction. If the bed count is not being affected by this project, this information is not required.
- Enter the square footage of the project. For new building construction and additions, the square footage shall be the total building area as defined in the California Building Code, Section 502.1 for AREA, BUILDING for all floors, including basements, penthouses, canopies, etc. For remodels, the square footage shall be the total building area included within the scope of the work. For example, if a unit is being converted from Acute Care to Skilled Nursing, the square footage will include the total building area of the unit, not just the area of the rooms or spaces in which actual construction work occurs. Equipment replacements shall be considered remodels and the square footage shall be the building area within the room, space, or equipment pad, as applicable to accommodate the replacement. For example, if you are replacing a CT Scanner, the square footage is the area of the CT Scan Room. If a chiller is being added or replaced, the square footage would be the area of the chiller pad and not of the entire central plant. If additional related work is included in the scope of work, include the building area within the scope boundaries. The square footage for maintenance work shall be zero.
- Indicate if the project includes primary gravity and/or lateral load elements/systems.
- Indicate if the project is a Seismic Compliance Construction Project. If yes, an Application for Seismic Compliance Construction Project form ([OSH-FD-110](#)) must be completed.
- Indicate if the project is billed to an Annual Permit.

OFFICE OF STATEWIDE HEALTH PLANNING AND DEVELOPMENT FACILITIES DEVELOPMENT DIVISION

INSTRUCTIONS FOR APPLICATION FOR INCREMENTAL PROJECT MASTER (continued) (OSH-FD-127)

Costs

- Select whether the costs indicated are estimated or contract.
- Enter the construction cost of the project excluding fixed equipment to be permanently attached (electrically, mechanically or structurally) to the building, imaging equipment, design fees, inspection fees, and off-site improvements. For SB 1838 projects, this amount must not exceed \$50,000.
- Enter the cost or value of fixed equipment (items that are permanently affixed to the building or permanently connected to a service distribution system that is designed and installed for the specific use of the equipment), excluding installation costs.
- Enter the total costs (the combined total of construction costs and fixed equipment costs, excluding imaging equipment).
- Enter the cost or value of imaging equipment (X-ray, MRI, CT Scan, etc.), excluding installation cost.

Fee Information:

General Acute Care Hospital fees shall be 1.64% of the contract/estimated construction cost, including fixed equipment. Imaging equipment shall be 0.164% of the contract/estimated cost or value.

Skilled Nursing Facility fees shall be 1.5% of the contract/estimated construction cost, including fixed equipment.

Project Schedule

- Enter the schedule of Increments for this project.
- Provide a brief description of the Increment scope.
- Enter the anticipated date the plans for the Increment will be submitted for review.
- Enter the estimated construction cost for each Increment excluding fixed equipment to be permanently attached (electrically, mechanically or structurally) to the building, imaging equipment, design fees, inspection fees, and off-site improvements.
- Enter the cost or value of fixed equipment (items that are permanently affixed to the building or permanently connected to a service distribution system that is designed and installed for the specific use of the equipment) for each Increment, excluding installation costs.
- Enter the cost or value of imaging equipment (X-ray, MRI, CT Scan, etc.) for each Increment, excluding installation cost.
- Enter the total costs (the combined total of construction costs, fixed equipment costs and imaging equipment costs) for all of the Increments. The total costs must match the project Costs entered on Page 1.

Enclosures

- Indicate the number of copies enclosed in the space provided, next to the applicable enclosure type.

Note: Submit two (2) sets of plans, specifications, structural calculations, and equipment anchorage calculations.

Submit three (3) sets of geotechnical reports for projects involving new facilities and additions to existing facilities.

Submit two (2) copies of the Testing, Inspection, and Observation Program (TIO).

Submit one (1) copy of the design program (optional).

Submit one (1) copy of the required verification of conformance to local code.

Deferred Items

Note: Where a portion of the design cannot be fully detailed on the approved construction documents because of variations in product design and manufacture, the approval of the construction documents for such portion may be deferred until the material suppliers are selected. OSHPD has sole discretion as to the portions of the design that may be deferred. All deferred items allowed by OSHPD must be clearly described on the construction documents. Deferred submittals must comply with Title 24, California Administrative Code, Section 7-126.

OFFICE OF STATEWIDE HEALTH PLANNING AND DEVELOPMENT FACILITIES DEVELOPMENT DIVISION

Structural Analysis Software

- Indicate the type/s of structural design software used in the preparation of the design.

Note: If your designs were not prepared using software listed in this area, please be advised that plan review may be delayed while OSHPD develops a work-around, or purchases the software indicated.

***For construction in Northern California,
Seismic Review and Clinics, submit to:***

Office of Statewide Health Planning and Development
Facilities Development Division
400 R Street, Suite 200
Sacramento, CA 95811
(916) 440-8300 phone
(916) 324-9188 fax

For construction in Southern California, submit to:

Office of Statewide Health Planning and Development
Facilities Development Division
700 North Alameda Street, Suite 2-500
Los Angeles, CA 90012
(213) 897-0166 phone
(213) 897-0168 fax
