INTRODUCTION

This is the nineteenth *Consolidated Community Benefit Plan* prepared by Kaiser Foundation Hospitals (KFH), a California nonprofit public benefit corporation, and submitted to the Office of Statewide Health Planning and Development (OSHPD) in compliance with Senate Bill (SB) 697, Chapter 812, Statutes of 1994, Health and Safety Code Section 127340 et seq. The *Consolidated Community Benefit Plan 2015* includes a hospital-specific Community Benefit Plan for each of the 35 hospitals owned and operated by KFH in California.

DEVELOPMENT OF A CONSOLIDATED COMMUNITY BENEFIT PLAN

Throughout 2014, the 35 hospitals undertook activities and projects to address selected priority needs identified in 2013 in their respective communities. This report documents the results of these efforts. The process of producing the KFH *Consolidated Community Benefit Plan 2015* includes the following activities:

- Development and distribution of internal guidelines for preparation of KFH Community Benefit year-end reports and updates that incorporate SB 697 requirements and OSHPD guidelines
- Preparation of individual KFH Community Benefit plans and year-end reports by local staff responsible for planning, implementing, and evaluating Community Benefit activities, programs, and services
- Review of 2014 year-end results by Northern and Southern California Regional Community Benefit Departments, and National Community Benefit, which included verification of total benefits, such as cash contributions, and donated equipment and supplies
- Update of hospital facts, metrics, and service area maps based on data obtained from various Kaiser Permanente departments such as Planning and Analysis, Human Resources, Management Information and Analysis, and others
- Allocation and reporting of the economic value of Community Benefit provided by each hospital, based on the SB 697 reporting categories (Table 2 in each hospital chapter)
- Preparation of consolidated information and description of key Community Benefit programs, services, and activities for Kaiser Foundation Hospitals in California, based on the SB 697 reporting categories

The *Consolidated Community Benefit Plan 2015* was produced by Northern California Region Community Benefit and Southern California Region Community Benefit. However, preparation of this report would not have been possible without the valuable assistance of local Community Benefit and Public Affairs staff throughout California.

CONTENTS OF THE COMMUNITY BENEFIT PLAN

CHAPTER I: HISTORY AND ORGANIZATIONAL STRUCTURE OF KAISER PERMANENTE

- History of Kaiser Permanente and a description of its organizational structure at the regional and national level

CHAPTER II: MISSION STATEMENT AND COMMITMENT TO THE COMMUNITY

- Mission statement of KFH and Kaiser Foundation Health Plan, Inc. (KFHP), and information on Kaiser Permanente's commitment to the communities it serves

CHAPTER III: COMMUNITY BENEFIT PROVIDED IN 2014

- Statewide and individual hospital Community Benefit provided by KFH in 2014, including descriptions of related activities and programs, as well as financial information based on the SB 697 reporting categories (Tables A and B).

CHAPTER IV: 2014–2016 COMMUNITY BENEFIT PLANS AND 2014 YEAR-END RESULTS

- The introduction includes a brief overview of what is contained in the year-end reports and plan updates.
- There is a section for each of the 35 hospitals, in alphabetical order.
- Each hospital section includes a list of selected demographic and socioeconomic statistics about the area served, a few key hospital facts, a list of the hospital's leaders, a service area map, a list of cities and communities served, a link to the 2013 Community Health Needs Assessment (CHNA) on the [Kaiser Permanente Share Site](#) website and a description of the 2014–2016 Community Benefit Plan, along with 2014 year-end results.
- Each hospital section contains two tables. One provides metrics for some programs in the Community Benefit portfolio (Table 1) and the other enumerates the total Community Benefit provided in 2014 (Table 2).

CHAPTER I: HISTORY AND ORGANIZATIONAL STRUCTURE OF KAISER PERMANENTE

HISTORY AND ORGANIZATIONAL STRUCTURE OF KAISER PERMANENTE

Kaiser Permanente is an integrated health care delivery system. For nearly 70 years, Kaiser Permanente has been dedicated to providing high-quality, affordable health care services and to improving the health of our members and the communities we serve. Today we serve approximately 9.6 million members in eight states and the District of Columbia. Kaiser Permanente is dedicated to improving the health of our communities through broad coverage, high-quality care and continuous quality improvement and innovation in the care we deliver, clinical research, workforce development, health education, and the support of community health interventions.

Kaiser Permanente started in 1933 as a prepaid program to finance and provide health care services to workers on a remote construction project in the Southern California desert. It later expanded to include coverage for workers and their families during construction of the Grand Coulee Dam in Washington State. During World War II, Kaiser Permanente provided health care services to employees at Kaiser shipyards and steelmaking facilities, who were union members primarily, and to their families.

An innovative Labor Management Partnership (LMP) among Kaiser Permanente workers, managers, and physicians honors the early cooperative spirit between the company and its union employees. The LMP is the largest and most comprehensive partnership of its kind, covering more than 100,000 union-represented employees and their managers and yielding superior health care results in a high-performance workplace.

Kaiser Permanente has been actively involved in the community for decades. Since its beginning, Kaiser Permanente's philosophy has reflected the belief that effective preventive health care does not begin and end with an individual's well-being, but includes promoting and supporting healthy, stable communities.

Kaiser Permanente is organized in each operating region by three separate but closely cooperating entities: comprised of KFH and KFHP (nonprofit public benefit corporations and exempt organizations under Section 501(c)(3) of the Internal Revenue Code), and a separate Permanente Medical Group (PMG) in each region in which Kaiser Permanente operates. These entities share responsibility for organizing, financing, and delivering quality, prepaid health care to members and the community at large.

NATIONAL STRUCTURE

KFHP and KFH (collectively KFHP/H) are governed by a 14-member Board of Directors; individuals from academia and private industry who are representative of the community. Bernard J. Tyson is Chief Executive Officer and Chairman for both organizations. Corporate headquarters for Kaiser Permanente is in Oakland, California.

KFH accepts responsibility to provide or arrange necessary hospital services and facilities for members. Staff privileges are available on a nondiscriminatory basis to physicians in the communities served. KFH also contracts with other community hospitals to provide hospital services to members for specialized care and other services.

REGIONAL STRUCTURE IN CALIFORNIA

In California, KFHP and KFH divide their operations into two separate regions, Northern California Region (NCR), headquartered in Oakland and Southern California Region (SCR) in Pasadena, each with its own president.

Four separate legal entities are responsible for managing the integrated health care system in California: KFHP; KFH; The Permanente Medical Group, Inc. (TPMG), which contracts with KFHP in Northern California; and Southern California Permanente Medical Group (SCPMG), which contracts with KFHP in Southern California. Kaiser Permanente also provides

medical services to members in one non-hospital service area, Kern County, where SCPMG physicians provide primary and specialty care for members, and KFH contracts for hospital services.

The 2014 KFHP/H leadership team in Northern California includes Gregory Adams, President; Janet Liang, Chief Operating Officer; Wade Overgaard, Senior Vice President, California Health Plan Operations; Debby Cunningham, Senior Vice President, Strategy and Business Development; Michael Rowe, Senior Vice President and Chief Financial Officer; Mark Billings, Senior Vice President, Hospital and Health Plan Area Operations; Gay Westfall, Senior Vice President, Human Resources; Yvette Radford, Vice President, External and Community Affairs; Nancy Cartwright, Vice President, Communications; Sandra Golze, Vice President and Regional Counsel; Barbara Crawford, Vice President, Quality and Regulatory Services; Kevin Hart, Vice President, Business Information Officer and KP HealthConnect; Jason Hall, Vice President, Compliance and Privacy; and Ann Orders, Executive Director, Continuing Care and Health Care Reform.

The 2014 KFHP/H leadership team in Southern California includes Benjamin Chu, MD, Executive Vice President and President, Southern California and Georgia; William Caswell, Senior Vice President, Operations; Gerald McCall, Senior Vice President, Operations; George Di Salvo, Senior Vice President and Chief Financial Officer; Jodie Lesh, Senior Vice President, Strategic Planning and New Ventures; Nirav Shah, MD, Senior Vice President, Chief Operating Officer, Clinical Operations; Arlene Peasnell, Senior Vice President, Human Resources; James Crawford, Vice President, Business Information Officer; Diana Halper, Vice President Integrated Brand Communications; John Yamamoto, Vice President and Regional Counsel; Wade Overgaard, Senior Vice President, California Health Plan Operations; and, Dennis Scott, Vice President, Compliance and Privacy.

TPMG and SCPMG are responsible for the care of KFHP members and for physician recruitment, selection, and staffing. Robert Pearl, MD, is medical director and executive director of the board for TPMG. Edward Ellison, MD, is executive medical director and chairman of the board for SCPMG.

KAISER FOUNDATION HOSPITALS IN CALIFORNIA

KFH owns and operates 35 hospitals (including six licensed hospitals with multiple campuses) in California: 21 community hospitals in Northern California and 14 in Southern California, all accredited by the Joint Commission on Accreditation of Healthcare Organizations (JCAHO).

KFH hospitals are located in Anaheim, Antioch, Baldwin Park, Downey, Fontana, Fremont, Fresno, Irvine, Los Angeles, Manteca, Modesto, Moreno Valley, Oakland, Ontario, Panorama City, Redwood City, Richmond, Riverside, Roseville, Sacramento, San Diego, San Francisco, San Jose, San Leandro (replaced Hayward hospital), San Rafael, Santa Clara, Santa Rosa, South Bay, South Sacramento, South San Francisco, Vacaville, Vallejo, Walnut Creek, West Los Angeles, and Woodland Hills.

MEDICAL OFFICE BUILDINGS

In California, KFHP/H owns and leases 452 medical offices where members receive outpatient health care. Each Kaiser Permanente medical office building is affiliated with a KFH medical center.

CHAPTER II: MISSION STATEMENT AND COMMITMENT TO THE COMMUNITY

MISSION STATEMENT

Kaiser Permanente's mission statement reflects both business objectives and a longstanding philosophy of social responsibility.

*Kaiser Permanente exists to provide high-quality, affordable health care services
and to improve the health of our members and the communities we serve.*

In compliance with SB 697 legislation passed in 1994, the KFHP/H Board of Directors met on March 7, 1995, and reaffirmed that:

KFH is a nonprofit public benefit corporation not organized for the private gain of any person and that, as set forth in its Articles of Incorporation and Bylaws, its principal purpose is to provide hospital, medical and surgical care, including emergency services, extended care and home health care, for members of the public, without regard to age, sex, race, religion or national origin or for the individual's ability to pay. The corporation's related purposes are to educate and train medical students, physicians and other health care professionals, and students in the healing arts; to conduct, promote and encourage educational and scientific research in medicine and related sciences, and medical and nursing education; and to support such other charitable, scientific, educational and hospital endeavors as the corporation may deem advisable and as are consistent with this corporation's tax-exempt nonprofit status. The corporation also makes available professional staff privileges to practitioners in the community.

NATIONAL COMMITMENT TO COMMUNITY BENEFIT

Community Benefit is central to Kaiser Permanente's mission. We believe good health is a fundamental aspiration of all people. We recognize that promotion of good health extends beyond the doctor's office and the hospital. Like our approach to medicine, our work in the community takes a prevention-focused, evidence-based approach. To be healthy, people need access to healthy and nutritious food in their neighborhood stores, clean air, successful schools, and safe parks and playgrounds. Good health for the entire community also requires a focus on equity as well as social and economic well-being.

We focus our work on three broad areas:

- Providing access to high-quality care for low-income, underserved people
- Creating safe, healthy communities and environments where people live, work, and play
- Developing important new medical knowledge and sharing it widely with others and training a culturally competent health care workforce of the future

Across these areas, we work to inspire and support people to be healthier in all aspects of their lives, and build stronger, healthier communities.

In pursuit of our mission we go beyond traditional corporate philanthropy and grant-making to leverage our financial resources with medical research, physician expertise, and clinical practices. In addition to dedicating resources through Community Benefit, we also leverage substantial additional assets that improve community health, including our purchasing practices, our environmental stewardship efforts and workforce volunteerism.

For many years, we have worked collaboratively with other organizations to address serious public health issues such as obesity, access to care, and violence. We have conducted CHNAs to better understand each community's unique needs and resources. The CHNA process informs our community investments and helps us develop strategies aimed at making long-term,

sustainable change—and it allows us to deepen the strong relationships we have with other organizations that are working to improve community health.

The KFHP/H Board of Directors has a standing Community Benefit Committee that oversees the program wide Community Benefit program. This includes the review and approval of certain community benefit plans and regulatory reports. Kaiser Permanente also has a national executive of KFHP and KFH to lead Kaiser Permanente's Community Benefit Program as a full-time assignment. Raymond J. Baxter, PhD, is the Senior Vice President for Community Benefit, Research, and Health Care Policy. He reports to the CEO and Chairman of the Board.

KAISER PERMANENTE'S COMMITMENT TO COMMUNITY BENEFIT IN CALIFORNIA

The Community Benefit commitment is reflected in all levels of the organization:

- Regional Community Benefit Governance Teams include senior-level executives representing KFHP/H and SCPMG or TPMG. Each team is responsible for setting strategic direction for Community Benefit activities, approving new initiatives, setting annual spending targets, and monitoring Community Benefit outcomes and results in the region.
- Regional Community Benefit leaders and staff coordinate and implement Community Benefit programs and initiatives with program managers, staff the Community Benefit governance team, and frame policy directives in Northern and Southern California.
- Local staff at the hospital and/or Area level are responsible for implementing and reporting on Community Benefit programs and services that address local needs.

CHAPTER III: COMMUNITY BENEFIT PROVIDED IN 2014

This chapter includes descriptions of all Community Benefit programs and services provided by Kaiser Permanente in 2014. In addition, financial information is listed in two tables located at the end of this chapter. Table A itemizes total Community Benefit provided by KFH for California in accordance with the SB 697 framework. Table B shows total Community Benefit provided by each hospital.

METHODOLOGY

DEFINITION OF COMMUNITY

Kaiser Permanente defines the community served by a hospital as those individuals residing within its hospital service area. A hospital service area includes all residents in a defined geographic area surrounding the hospital and does not exclude low-income or underserved populations.

CATEGORIZATION OF SERVICES

Each KFH Community Benefit program and service included in this plan was aligned with and reported under the most appropriate SB 697 category, which are as follows:

- Medical Care Services for Vulnerable Populations
- Other Benefits for Vulnerable Populations
- Benefits for the Broader Community
- Health Research, Education, and Training Programs

DOCUMENTATION AND ALLOCATION OF EXPENDITURES

Total Community Benefit expenditures are reported for the 35 NCR and SCR hospitals as follows:

- Quantifiable Community Benefit such as facility use and in-kind donations are included if funded by KFH, provided in a KFH facility, or are part of a KFH Community Benefit Plan.
- Medical care services for vulnerable populations include unreimbursed inpatient costs for participation in Kaiser Permanente-subsidized and government-sponsored health care insurance programs.
- The unreimbursed portion of medical, nursing, and other health care profession education and training costs are included.

Resource allocations are reported, as follows:

- Financial expenditures are reported in exact amounts, if available, by hospital service area.
- If exact financial expenditure amounts were not available by hospital service area, then regional expenses were allocated proportionally on the basis of KFHP membership or other quantifiable data, such as the number of Kaiser Permanente Educational Theatre performances presented or Summer Youth students employed within each hospital area's community at large.

SUMMARY OF KAISER FOUNDATION HOSPITALS COMMUNITY BENEFIT

STATEWIDE BENEFITS

In 2014, KFH provided a total of \$730,254,093 in Community Benefit for Californians, supporting a wide range of community projects, medical care services, and research and training for health and medical professionals. As shown in Table A (page

19), most Community Benefit funds were used to subsidize inpatient medical care services for vulnerable populations (\$553,820,294) and for health research, education, and training programs (\$113,438,221). KFHP also expended \$49,460,777 on other benefits for vulnerable populations and \$13,534,802 on projects benefiting the broader community.

BENEFITS BY HOSPITAL SERVICE AREA

Table B shows total Community Benefit contributions made in 2014 by the 35 hospitals. Totals reflect differences among hospitals, including geographic location, size, Health Plan membership, Community Benefit programs and services provided, and diversity of population. More detailed information, including individual hospital reports, is included in Chapter IV.

DESCRIPTION OF COMMUNITY BENEFIT PROGRAMS AND SERVICES

The Kaiser Permanente Community Benefit programs and related services described in this section are aligned with the SB 697 framework. Most correspond directly to the line items listed in Table A in Chapter III and Table 2 in the individual hospital sections, which include financial information for 2014.

MEDICAL CARE SERVICES FOR VULNERABLE POPULATIONS

Providing charitable care for the underinsured and uninsured, as well as services to beneficiaries of publicly financed health care programs, is an important element of the KFHP/H social mission. In 2014, KFHP spent a total of \$503,577,573 on unreimbursed medical care for vulnerable populations.

For the purpose of this plan, KFHP has quantified the unreimbursed costs of medical services provided in its hospitals to the underinsured and uninsured through government programs funded at the federal and state levels as well as Kaiser Permanente's own charity care programs. Government-funded programs include Medi-Cal Managed Care, Medi-Cal Fee-For-Service, and Healthy Families Program. KFHP provides charity care through its Charitable Health Coverage and Medical Financial Assistance programs. Services provided to prepaid Medicare, Major Risk Medical Insurance Program (MRMIP), and Access for Infants and Mothers (AIM) beneficiaries are not reported.

MEDI-CAL

KFHP serves Medi-Cal beneficiaries in two ways. Some recipients are enrolled as KFHP members through Medi-Cal managed care contracts; other Medi-Cal beneficiaries receive health care services on a fee-for-service basis. In both cases, the cost of inpatient services provided exceeds the capitation or revenue received.

- **Medi-Cal Managed Care:** KFHP provides comprehensive inpatient and outpatient care to Medi-Cal managed care members in California through various local and state government entities. In Northern California, the local initiatives and county-organized systems are Alameda Alliance, Contra Costa Health Plan, SF Health Plan, Santa Clara Family Health Plan, Partnership Health Plan of CA, Health Plan of San Mateo, Health Plan of San Joaquin, and CalViva Health. In Southern California, KFHP subcontracts with local initiatives in Los Angeles, Riverside, San Bernardino, Ventura, and Orange counties, and contracts directly with the state of California through the Geographic Managed Care Plan in San Diego County. In 2014, KFHP/H provided comprehensive inpatient and outpatient care to approximately 471,569 Medi-Cal managed care members.
- **Medi-Cal Fee-For-Service:** KFHP provides subsidized health care on a fee-for-service basis for Medi-Cal beneficiaries not enrolled as KFHP members. Reimbursement for some services usually is significantly below the cost of care and is considered subsidized care to non-member Medi-Cal fee-for-service patients.

CHARITABLE HEALTH COVERAGE PROGRAMS

Through Kaiser Permanente's Charitable Health Coverage Programs, approximately 73,927 low-income adults and children, who are ineligible for other public or private health insurance, receive subsidized coverage from Kaiser Permanente each year.

In addition, Kaiser Permanente Northern California Region also provided health coverage to 2,667 Healthy San Francisco members. Healthy San Francisco, operated by the San Francisco Department of Public Health (SFDPH), provides health care services to uninsured San Francisco residents regardless of immigration status, employment status, or pre-existing medical conditions. The 2014 Healthy San Francisco Medical Home Network consisted of SFDPH and San Francisco Community Clinic Consortium clinics, private physician groups, and other providers, including Kaiser Permanente.

MEDICAL FINANCIAL ASSISTANCE

Improving health care access for those with limited incomes and resources is fundamental to Kaiser Permanente. The Medical Financial Assistance program (MFA) helps low-income, uninsured, and underserved patients receive access to care. MFA provides temporary financial assistance or free care to patients who receive health care services from our providers, regardless of whether they have health coverage or are uninsured. MFA is open to eligible patients (members and nonmembers) who meet financial guidelines based on household size and income and have exhausted all means of private or public health care coverage. Patients apply for MFA in one or more ways, including accessing a hard copy of an application form, through Web access or an online application, or through financial counseling services. The program also includes support for community MFA programs and support for charity care programs at community hospitals. Community MFA programs are designed to enable access to health care through coordination with community-based organizations that address the health needs of the community's low income populations. In some instances, the program also provides financial resources to local community hospitals to support their charity care programs. In 2014, KFH contributed \$188,556,192 to help patients with limited or no resources pay for care provided in KFH facilities.

GRANTS AND DONATIONS FOR MEDICAL CARE SERVICES

KFH donated \$50,242,721 to nonprofit and community-based agencies in California to support the delivery of medical care by community providers. This effort is designed to provide support for community clinics and other safety net provider to build capacity for improving access and quality care infrastructure. It also extends partnerships to health departments and public hospitals. Funding areas include, but are not limited to, chronic disease management, access to specialty care, homeless services, quality improvement, access to primary care, HIV/AIDS, and general operating support.

OTHER BENEFITS FOR VULNERABLE POPULATIONS

In 2014, KFH donated \$49,460,777 to benefit vulnerable populations through a number of programs, including Educational Outreach Program, INROADS, Summer Youth, Watts Counseling and Learning Center, and grants and donations for community-based programs.

KAISER PERMANENTE EDUCATIONAL OUTREACH PROGRAM

Educational Outreach Program (EOP) provides education and support services, primarily for Latino families, in the San Gabriel Valley section of Los Angeles County. The focus of EOP is to provide programs and activities that improve school performance, promote family communication, teach skills that are needed to meet various life tasks and alleviate stress, create opportunities for the development of leadership skills for both youth and their parents so they can address issues that impact their community, and increase awareness of professional opportunities in the health field for young people. Programs offered include homework assistance and study skills classes, reading improvement classes, mother-daughter workshops, assessment of mental health needs in the community, and summer enrichment sessions. EOP provided services to a total of 1,243 clients.

KAISER PERMANENTE WATTS COUNSELING AND LEARNING CENTER

Since 1967, Watts Counseling and Learning Center (WCLC) has been a valuable community resource for low-income, inner-city families in South Los Angeles. WCLC provides mental health and counseling services, educational assistance for children with learning disabilities, and a state-licensed and nationally accredited preschool program. In addition, WCLC operates several outreach programs, including Kids Can Cope support groups (for children whose siblings or parents have cancer), pre-employment training for high school youth, scholarships for high school students, and training for graduate social work interns from local universities. In 2014, WCLC provided services to a total of 1,234 individuals.

YOUTH EMPLOYMENT PROGRAMS

KFH participates in two programs that benefit disadvantaged youth—L.A.U.N.C.H (Learn About Unlimited New Careers in Healthcare) Summer Youth Employment Program (SYEP) and L.A.U.N.C.H. College Internship Program. These programs offer employment, mentoring, and training opportunities, as well as potential full-time employment upon completion. In 2014, 583 young people were employed through them.

- ***Kaiser Permanente L.A.U.N.C.H. SYEP:*** Kaiser Permanente L.A.U.N.C.H. SYEP offers paid summer work to underrepresented youth at Kaiser Permanente facilities throughout California. Interns participate in a variety of administrative and operational support positions. In addition to their work assignments, SYEP Interns participate in educational sessions and motivational workshops to enhance job skills and work performance, and to learn about careers in health care.
- ***Kaiser Permanente L.A.U.N.C.H. College Internship Program:*** This unique program is designed to provide students with practical experience in the health care field and to offer successful participants exciting career opportunities following graduation. Kaiser Permanente is dedicated to helping underrepresented college students of color develop into a powerful, multicultural workforce that delivers quality, cost-effective, and culturally responsive care to the diverse communities we serve. Through the Kaiser Permanente L.A.U.N.C.H. College Internship Program, we are making a solid investment in developing health care leaders capable of guiding us into the future. Kaiser Permanente College Internship Program interns discover a chance to develop their skills in a supportive environment. We offer a variety of health care internships that are designed to provide the practical background, support network, and knowledge that interns will need to succeed in their chosen field.

GRANTS AND DONATIONS FOR COMMUNITY-BASED PROGRAMS

KFH donated \$27,237,587 to community organizations to support a variety of programs and services for vulnerable populations in California. Through this funding category, KFH supports Community Health Initiatives (CHI). Kaiser Permanente has a longstanding focus on healthy eating, active living (HEAL) programs and other interventions designed to combat increased obesity rates. CHI supports efforts by community providers and coalitions to implement community-wide medical, environmental, and social changes that can help decrease obesity. CHI also supports efforts that address and promote community safety.

BENEFITS FOR THE BROADER COMMUNITY

In 2014, KFH spent \$13,534,802 on programs and services to benefit the broader community, including health education and community wellness programs, Educational Theatre, donations of surplus equipment and supplies, facility use, and grants and donations that support the broader community.

COMMUNITY HEALTH EDUCATION AND HEALTH PROMOTION PROGRAMS

This program provides health education programs, materials, and services and conducts training sessions for California's diverse communities. The goal is to improve health and prevent disease in families and individuals of all ages by conducting appropriate health education interventions and by sharing Kaiser Permanente's health education resources. These programs widely disseminate quality health education materials, resources, and services to the community, including online resources such as the health encyclopedia and Healthwise Self-Care Tip Sheets. Programs offered include asthma management in children, breastfeeding, HIV prevention, better nutrition and lifestyle, coping with chronic diseases, and seniors' movement programs. Continuing Education courses and skill training sessions are also provided to community health care providers. Many of the programs and resources are provided in partnership with community groups, community clinics, libraries, nonprofit organizations, cable television channels, and schools. In 2014, Regional Health Education provided more than 300 activities—responding to requests for materials, trainings, presentations, event staffing, technical assistance, and publication development—that reached more than 224,000 community members.

KAISER PERMANENTE EDUCATIONAL THEATRE (KPET)

KPET uses live theatre, music, comedy, and drama to inspire children, teens, and adults to make healthier choices and better decisions about their well-being. Its award-winning programs are as entertaining as they are educational and were developed with the advice of teachers, parents, students, health educators, medical professionals, and skilled theatre artists. Professional actors who are also trained health educators deliver all performances and workshops. KPET programs share health information and develop individual and community knowledge about leading healthier lives. Now in its 28th year, it continues to provide programs free of charge to schools and the general community. In addition to performances and classroom workshops, KPET supplies schools and organizations with supplementary educational materials, including workbooks, parent and teacher guides, and student wallet cards. All materials are designed to reinforce the messages presented in the programs.

In 2014, KPET provided programs throughout Kaiser Permanente Northern California that align with our Community Health Initiatives. In fact, 80% of KPET's total services in 2014 were in support of CHI or other area and regional strategies. KPET staff also communicated with CB managers and area staff to discuss potential school and community partnerships. In 2014, KPET developed twelve new partnerships and served more than 297,037 children and adults through 1,144 events, which ranged from school performances and workshops to community presentations and trainings.

In NCR, KPET offered the following services in 2014 for elementary schools: *The Best Me Assembly*, a performance for grades K to 6 with a targeted focus on healthy eating and active living; *The Best Me Program*, a weeklong program encouraging healthy eating and an active lifestyle through an educator orientation, grade-specific assemblies, workshops, Family Night, and educator guides; and *Peace Signs*, a conflict resolution and violence prevention program providing multiple interventions with schools, upper elementary school students, and their families.

For middle school students, KPET offered *Nightmare on Puberty St.*, a humorous yet serious presentation about the joys and angst of adolescence. For high school students, KPET offered *Secrets*, an HIV/STIs education drama. KPET also continued to offer its highly requested Community Troupe programs – All-Star Mascot Show, Kids' Course, Mascot Ambassadors of Health and Wellness, and Lotería – as well as customized workshops and activities.

In SCR in 2014, 217,035 children and adults attended one of 1,397 KPET performances. For the past several years, KPET has provided MPOWR (empower), a summer enrichment program that challenges students to explore health via self-expression through art, music, theatre, and movement. Ongoing partnerships include WCLC, Madison Middle School in North Hollywood, and the Boys and Girls Club of Redlands. MPOWR is facilitated by KPET actor-educators and culminates with a showcase of student work at each location. The repertoire for KPET in SCR also includes the following multifaceted programs:

- The **Healthy Eating Active Living Program** (grades 4-5) is a multifaceted offering that includes the play, *Game On* and two supporting student workshops. Key topics include eating a balanced meal, choosing water over sugary beverages, the importance of active play and the power of media advertising.
- The **Adolescent Bullying Prevention Program** (grades 6-8) consists of the play, *Someone Like Me*. The program is a springboard for discussions between students and teachers, parents and trusted adults. Key topics include; rumors and gossip are a form of bullying, the prevalence of bullying using social media, and, in middle school, the developmentally appropriate choice is abstinence. At the end of each performance, the actor-educators are available to the students for one-on-one sessions and are trained to bridge students to school personnel if necessary.
- The **STD Prevention Program** (grades 9-12), *What Goes Around*, provides information about HIV, AIDS and sexually transmitted diseases (STDs). The play gives insight into the lasting impact one person's choice can make on the lives and health of many. Key topics include the option of abstinence and the importance of testing and prevention. At the end of each performance, the actor-educators facilitate a question and answer session.

GRANTS AND DONATIONS FOR THE BROADER COMMUNITY

KFH donated \$2,181,323 to nonprofit organizations to help educate health care consumers about managing their own health and making informed decisions when obtaining services; to develop, produce, and communicate health care-related public policy; and to support a variety of other programs and services aimed at the general well-being of the community.

FACILITY USAGE, SURPLUS EQUIPMENT, SUPPLIES, AND OTHER IN-KIND DONATIONS

Many community organizations use meeting rooms at KFH facilities free of charge. KFH also donates surplus hospital and office equipment, furniture, health education materials, linens, and other items and materials to nonprofit organizations throughout California.

HEALTH RESEARCH, EDUCATION, AND TRAINING PROGRAMS

KFH is committed to improving the health and well-being of community members by educating and training physicians and other health care professionals, conducting medical and health services research, and disseminating information. In 2014, KFH spent \$113,438,221 on education and training for nurses, physicians, other health care professionals, and health and nursing research.

PROVIDER EDUCATION AND TRAINING

KFH provides education and training for medical interns and residents, as well as for nurses and other health care professionals, and offers continuing medical education for SCPMG, TPMG, and general community physicians.

GRADUATE MEDICAL EDUCATION (GME)

In 2014, KFH contributed \$68,280,310 to educate more than 2,845 interns and residents in California. GME programs develop a pool of highly skilled physicians for Kaiser Permanente and the broader community. Most medical residents study within the primary care medicine areas of Family Medicine, Internal Medicine, Obstetrics and Gynecology, Pediatrics, Preventive Medicine, and Psychiatry. As part of their training, residents participate in rotations at school-based health centers, community clinics, and homeless shelters.

COMMUNITY MEDICINE FELLOWSHIP

The Community Medicine Fellowship is implemented by the SCR Residency Program to provide care for underserved populations. Fellows provide direct patient care and mentor residents and medical students in the provision of care in a variety of settings, including community health clinics, homeless shelters, and local schools. Program participants collaborate with local health department physician leaders to develop programs that address community health concerns and provide lectures for local medical students with the focus on inspiring interest in the provision of primary care.

OLIVER GOLDSMITH SCHOLARSHIP PROGRAM

The Oliver Goldsmith Scholarship Program in SCR is dedicated to the promotion and advancement of culturally responsive care. Fourteen scholarships are awarded annually to medical students entering their third or fourth year of study who have demonstrated commitment to diversity through community service, clinical volunteerism, leadership, or research. Scholarship recipients participate in clinical rotations at Kaiser Permanente facilities to observe SCPMG how physicians deliver culturally responsive care.

NURSING EDUCATION AND TRAINING

KFH offers several programs, many in partnership with colleges and universities, to increase the number of registered nurses and those with advanced nursing degrees.

KAISER PERMANENTE SCHOOL OF ANESTHESIA FOR NURSES

Founded in 1972, the school provides graduate-level education for nurse anesthetists. In partnership with California State University, Fullerton, the school offers a two-year sequential academic and clinical graduate program for nurses with a

baccalaureate degree. Students earn a master of science in nursing with a clinical specialty in anesthesia. In 2014, there were 69 student participants. In SCR, the school has partnerships with a number of public and community hospitals to provide additional clinical rotation opportunities for students. Scholarships for students are available through National Black Nurses Association and American Association of Nurse Anesthetists Foundation. In addition, the school partnered with Pasadena City College to develop the first anesthesia technician associate degree program in the nation. The anesthesia technician program prepares students for eligibility to take and pass the American Society of Anesthesia Technologists and Technicians (ASATT) National Certification Examination to become certified as an anesthesia technologist. A certificate of achievement and an associate of science degree are awarded upon successful completion of the curriculum. Eleven students participated in the program in 2014.

CALIFORNIA NURSING ANESTHESIA COLLABORATIVE PROGRAM – (CNACP)

CNACP provides education and financial assistance to students pursuing a master's degree in nurse anesthesia. CNACP faculty (clinical and academic) are graduates of the Samuel Merritt University (SMU) program and serve as resources for lifelong learning within perioperative medicine departments throughout NCR. In 2014, 391 students participated in the program.

KAISER PERMANENTE DELORAS JONES NURSING SCHOLARSHIP PROGRAM

Kaiser Permanente provides financial assistance to students enrolled in California nursing programs. The scholarships encourage and support recipients to become registered nurses or to pursue advanced nursing degrees. Scholarships are based primarily on financial need and are awarded in several categories: underrepresented minorities, academic excellence, nursing as a second career, and graduate nursing degrees. In 2014, 202 scholarships totaling \$361,000 were awarded.

NARROWING THE STUDENT NURSE PREPARATION PRACTICE GAP PROGRAM

In Southern California, this work-study program partners with university and college nursing programs to improve clinical outcomes and assist with professional growth. Senior students incorporated curriculum study with clinical experiences with nursing professional partners and regional education residents to narrow the student nurse preparation to practice gap. In 2014, a total of 83 students were assigned to KFH-Downey and KFH-San Diego facilities. Academic partners included but were not limited to Grossmont Community College, Mira Costa Community College, Point Loma Nazarene University, San Diego State University, San Diego City College, and Santa Monica Community College. In 2014, a total of 83 students were assigned to KFH-Downey and KFH-San Diego facilities. Academic partners included but were not limited to Grossmont Community College, Mira Costa Community College, Point Loma Nazarene University, San Diego State University, San Diego City College, and Santa Monica Community College.

TECHNICAL PROVIDER EDUCATION AND TRAINING

KFH provides postgraduate education and training, including internships, to non-physician health care professionals in medical technology, pharmacy, physical therapy, psychology, and radiology. The programs are administered regionally. Some programs offer students a small monthly stipend.

KAISER PERMANENTE SCHOOL OF ALLIED HEALTH SCIENCES – (KPSAHS)

KPSAHS is located in Richmond, California and was established in 1989 as a radiology program in response to the severe shortage of radiologic technologists. KPSAHS eventually expanded the school to include 18-month programs in sonography, nuclear medicine, and radiation therapy. In addition, the school provides courses in anatomy and physiology and advanced/basic phlebotomy. KPSAHS offers educational programs and promotes learning to develop a skilled allied health workforce and to improve the quality of and access to health care services in the communities we serve.

KAISER PERMANENTE MENTAL HEALTH TRAINING PROGRAM

In Northern California, Kaiser Permanente's Mental Health Training Programs train mental health professionals and provide internships and residencies in a variety of postgraduate specialty areas. Internships in pre and post-master's level mental health services include Clinical Social Work and Marriage & Family Therapy (MFT). Participating interns are enrolled in or have completed either a master degree program in Social Work (MSW), or a master's degree program in Counseling Psychology, leading to an MFT license. Internships in Psychology require enrollment in American Psychological Association

(APA)-accredited Ph.D., Psy.D. or Ed.D. programs in Counseling or Clinical Psychology. Postdoctoral residencies in Psychology require completion of Ph.D., Psy.D., or Ed.D. degrees in APA-accredited programs. Interns and residents receive individual and group supervision, participate in didactic seminars, and receive training in the delivery of outpatient mental health and chemical dependency services.

KAISER PERMANENTE PHARMACIST RESIDENCY PROGRAMS

Pharmacy residency programs provide one- and two-year postgraduate education and training programs to licensed pharmacists to gain additional experience and training in pharmaceutical care and administrative pharmacy services. Kaiser Permanente annually accepts students into its American Society of Health System Pharmacist or Academy of Managed Care Pharmacy accredited pharmacy residency programs, including standard post-graduate year-one programs to specialized programs in managed care, drug information, and drug distribution. The programs enable residents to meet the legal requirements in California for collaborative practice for initiating and adjusting prescription medication therapy under physician approved protocols and patient referrals. In 2014, Kaiser Permanente trained 118 students.

KAISER PERMANENTE PHYSICAL THERAPY FELLOWSHIP IN ADVANCED ORTHOPEDIC MANUAL THERAPY PROGRAM

Established in 1979 at KFH-Hayward in Northern California, this is the oldest program of its kind in the country and attracts therapists from across the nation to participate in advanced specialty training in orthopedic physical therapy. Graduates serve as clinical specialists, academic faculty, instructors for community courses, and consultants to industry.

KAISER PERMANENTE PHYSICAL THERAPY NEUROLOGY RESIDENCY

The Neurology Physical Therapy (PT) program trains neurologic residents to acquire the advanced clinical skills required to treat and manage patients with complex neurological diagnoses across the continuum of care. Neurologic PT residents participate in rotations at acute hospital inpatient, rehabilitation centers, and outpatient departments, and community clinics.

KAISER PERMANENTE PHYSICAL THERAPY CLINICAL INTERNSHIPS

This program delivers training and education to students by providing space in Kaiser Permanente-sponsored clinical training seminars and by partnering with established university training programs. Students receive education on pediatrics, sports medicine, women's health, chronic pain, autism, speech disorders, neurological physical therapy, geriatrics and orthopedics. In 2014, 361 physical therapy, occupational therapy, and speech therapy students received clinical training.

KAISER PERMANENTE PHYSICAL THERAPY ORTHOPEDIC FELLOWSHIP PROGRAM

This residency program provides education in the specialty area of orthopedic physical therapy. In 2014, the program offered 25 physical therapy residency slots at KFH hospitals in Southern California. Residents, fellows, and clinical faculty provide physical therapy services for patients. Graduates are eligible to sit for their board certification examination in orthopedic physical therapy, and apply to participate in a physical therapy fellowship program.

KAISER PERMANENTE ORTHOPEDIC FELLOWSHIP IN SPORTS REHABILITATION

This fellowship program provides education in the specialty area of sports physical therapy and rehabilitation, with a focus on advanced training in examination techniques and treatment procedures for extremity injuries in an active and post-surgical patient population with musculoskeletal conditions. There are six Orthopedic/Sports Rehabilitation Fellow slots at KFH hospitals in Southern California.

KAISER PERMANENTE SPINE REHABILITATION FELLOWSHIP PROGRAM

This fellowship program provides education in the specialty area of spine physical therapy and rehabilitation, with a focus on advanced training in examination and treatment techniques procedures and management of acute through chronic spine injuries in a patient population with musculoskeletal conditions. There are six Spine Rehabilitation fellow slots at KFH hospitals in Southern California.

KAISER PERMANENTE CLINICAL PSYCHOLOGY INTERNSHIP TRAINING PROGRAMS

This program is conducted through the Department of Psychiatry and Addiction Medicine in SCR. Pre-doctoral students enroll in the internship training programs to augment their educational experience by working in a high-quality educational environment, by having direct responsibility (under the supervision of licensed staff) for patients selected from a large and varied patient base, and by working with a multidisciplinary staff. The goal is to transition the intern from student to professional by providing training in the roles and functions of clinical psychologists. Accredited by the American Psychiatric Association's Committee on Accreditation, the program employs a multi-supervisor training process that gives interns training, supervisory, and mentoring experiences with licensed staff members of varying theoretical backgrounds and areas of expertise. KFH-Los Angeles and KFH-San Diego participate in the program with four interns in Los Angeles and eight in San Diego.

KAISER PERMANENTE RADIOLOGY TRAINING PROGRAM

Students enrolled in local community college radiology technology programs can complete their one-year clinical rotation, a requirement for certification, at KFH facilities in Southern California. The program served 170 students in 2014.

ADVANCED PRACTICE AND ALLIED HEALTH CARE EDUCATIONAL PROGRAMS

The Southern California Department of Professional Education offers educational programs designed to meet many of the primary and continuing educational needs of certified nurse anesthetists, nurse practitioners, physician assistants, certified nurse-midwives, physical therapists, occupational therapists, clinical laboratory specialists, radiology technologists, registered nurses, speech pathologists, social workers, and marriage and family counselors. In 2014, approximately 545 community participants attended one of 11 Continuing Education programs and/or symposia.

HIPPOCRATES CIRCLE

This program was designed to increase the number of minority physicians in the medical field, especially in underserved communities, by building awareness in young men and women who are members of underrepresented minority groups that a career in medicine, especially as a physician, is possible. Through the collaborative efforts of school districts, medical schools, and Kaiser Permanente physicians and staff, Hippocrates Circle strengthens the self-esteem of young people and empowers them to pursue their goals through mentorship, education, and facilitated experience. In 2014, 885 students participated in the program at various KFH locations in Southern California.

GRANTS AND DONATIONS FOR THE EDUCATION OF HEALTH CARE PROFESSIONALS

KFH spent \$2,998,373 to support the training and education of health care professionals in California. Contributions were made to a variety of nonprofit agencies and academic institutions.

HEALTH RESEARCH

Kaiser Permanente has a long history of conducting health services and medical research that address issues regarding health care policy, quality of care, and quality of life. The results have yielded findings that affect the practice of medicine within the broader health care community. In California, KFH operates three large research departments: NCR's Division of Research, established in 1961; SCR's Department of Research and Evaluation, founded in the early 1980s; and Kaiser Foundation Research Institute. In addition, KFH funds other research-related projects and programs such as nursing research.

DIVISION OF RESEARCH (DOR)

The Division of Research (DOR), Kaiser Permanente Northern California's highly regarded research center, conducts, publishes, and disseminates high-quality epidemiological and health services research to improve the health and medical care of Kaiser Permanente members and society at large. DOR conducts research among the 3+ million Kaiser Permanente members of Northern California using interviews, automated data, medical records, and clinical examinations. DOR researchers have contributed more than 3,000 papers to the medical and public health literature. Research projects encompass epidemiologic and health services studies as well as clinical trials and program evaluations. They cover a wide range of topics including cardiovascular disease, cancer, diabetes, substance abuse, mental health, maternal and child health,

women's health, health disparities, pharmaco-epidemiology, and studies of the impact of changing health care policy and practice. DOR has more than 50 research scientists, who work closely with local research institutions and organizations, including the California State Department of Health Services, University of California at Berkeley, San Francisco and Davis, and Stanford University. DOR works with Kaiser Permanente Community Benefit Programs (KPCBP) to enhance communication and collaboration between DOR and Kaiser Permanente members, community residents and other key stakeholders. Financial and other support provided by KPCBP have enabled DOR to sponsor research studies on topics which directly align with KPCBP priorities, to attract additional private funding and improve community engagement and participation in DOR activities, and to develop unique and significant resources in the Comprehensive Clinical Research Unit (CCRU) and Research Program on Genes, Environment and Health (RPGEH).

DEPARTMENT OF RESEARCH AND EVALUATION

The Department of Research and Evaluation supports Kaiser Permanente physicians and employees in conducting research through the provision of consultative, educational, and administrative services. Research and Evaluation conducts research projects initiated by team members working within the unit and in collaboration with scientists affiliated with other institutions. In 2014, there were 988 active projects and 360 published studies of regional and/or national significance.

KAISER FOUNDATION RESEARCH INSTITUTE (KFRI)

KFRI provides administrative services for medical research conducted in all Kaiser Permanente regions and is responsible for compliance with federal regulations that govern the administration and implementation of research.

NURSING RESEARCH PROGRAM

NCR's program was established to improve the health and well-being of Kaiser Permanente members and the community at-large. The nurse scientist-director supports these goals by developing and maintaining the structure and function of the Nursing Research Program to:

- Advance clinical research and evidence-based nursing practice
- Expand partnerships and program visibility
- Promote projects that are aligned with Community Benefit work stream priorities
- Maintain compliance with Protection of Human Subjects Federal Regulations and HIPPA

The Nursing Research Program provides outreach to the community at large through a website, bimonthly WebEx meeting programs, bimonthly newsletters, and the Northern California Nursing Research blog. In addition, nurses receive consultation, administrative, and technical support to conduct, publish, and disseminate research findings that improve patient care and nursing practices and contribute to the knowledge of nursing science.

In Southern California, there were 121 new, continuing, and/or completed Nursing Research Program projects and 27 studies published in 2014. Current areas of research include nursing workforce and leadership, instrument development and validation, and quality of life issues.

ENDNOTES

- ¹ Amount includes hospital-specific, unreimbursed expenditures for Medi-Cal Managed Care members and Medi-Cal Fee-for-Service beneficiaries on a cost basis.
- ² Amount includes hospital-specific, unreimbursed expenditures for Other Plan members and unreimbursed inpatient expenditures for the Kaiser Permanente Child Health Program subsidy on a cost basis.
- ³ Amount includes unreimbursed care provided at this facility to patients who qualify for the Medical Financial Assistance and Indigent Care programs on a cost basis.
- ⁴ Figures reported in this section for grants and donations for medical services consist of charitable contributions to community clinics and other safety-net providers; community health partnerships and collaboratives; and special Request for Proposals to support specific health issues such as childhood obesity, asthma, etc. The amount reported reflects hospital-specific, unreimbursed expenditures. When hospital-specific expenditures were not available, dollars were allocated to each hospital based on the percentage of Health Plan members.
- ⁵ Watts Counseling and Learning Center's service expenses are divided among three hospitals: KFH-Los Angeles, KFH-West Los Angeles, and KFH-Downey.
- ⁶ Figures reported in this section are hospital-specific, unreimbursed expenditures. When hospital-specific expenditures were not available, dollars were allocated to each hospital based on the percentage of Health Plan members, or a related denominator such as the number of Summer Youth students hired.
- ⁷ Figures reported in this section for grants and donations for community-based programs consist of charitable contributions made to external nonprofit organizations for a variety of programs and services that address the nonmedical needs of vulnerable populations. The amount reflects hospital-specific, unreimbursed expenditures. When hospital-specific expenditures were not available, dollars were allocated to each hospital based on the percentage of Health Plan members.
- ⁸ The amount reflects the costs related to providing a dedicated community benefit department and related operational expenses.
- ⁹ Figures reported in this section are hospital-specific, unreimbursed expenditures. When hospital-specific expenditures were not available, dollars were allocated to each hospital based on the percentage of Health Plan members, or a number of related denominators such as the number of Educational Theatre performances or health education programs.
- ¹⁰ Amount represents the estimated value of, but is not limited to, donated surplus office and medical supplies, equipment and furniture, promotional giveaways, in-kind services, and conference meeting room usage, as recorded in the MicroEdge GIFTS database.
- ¹¹ Figures reported in this section for grants and donations for the broader community consist of charitable contributions made to external nonprofit organizations to educate health care consumers in managing their own health and making informed decisions when obtaining services; and to develop, produce, or communicate health care-related public policy information for a variety of programs and services aimed at general well-being of the community. The amount reflects hospital-specific, unreimbursed expenditures. When hospital-specific expenditures were not available, dollars were allocated to each hospital based on the percentage of Health Plan members.
- ¹² Amount reflects the net expenditures after tuition reimbursement for health professional education and training programs.
- ¹³ Figures reported in this section for grants and donations for the education of health care professionals consist of charitable contributions made to external nonprofit organizations, colleges, and universities to support the training and education of students seeking to become health care professionals such as physicians, nurses, physical therapists, social workers, pharmacists, etc. The amount reflects hospital-specific, unreimbursed expenditures. When hospital-specific expenditures were not available, dollars were allocated to each hospital based on the percentage of Health Plan members.

CHAPTER IV: 2014 YEAR-END RESULTS AND 2014–2016 COMMUNITY BENEFIT PLANS

INTRODUCTION

During 2013, local staff at the 35 KFH hospitals in California conducted a CHNA and developed a community benefit plan. For the first time, these CHNAs and community benefit plans were developed in compliance with new federal tax law requirements set forth in Internal Revenue Code section 501(r), which requires hospital facilities owned and operated by an organization described in Code section 501(c)(3) to conduct a CHNA at least once every three years and to develop and adopt an implementation strategy (in the parlance of SB697, aka community benefit plan) to meet the community health needs identified through the CHNA. What follows is a brief description of the development of the triennial CHNA and the resulting community benefit plan as required by SB697.

COMMUNITY HEALTH NEEDS ASSESSMENT

The Patient Protection and Affordable Care Act (ACA), enacted on March 23, 2010, added new requirements, which nonprofit hospital organizations must satisfy to maintain their tax-exempt status under section 501(c)3 of the Internal Revenue Code. One such requirement added by ACA, Section 501(r) of the Code, requires nonprofit hospitals to conduct a CHNA at least once every three years. As part of the CHNA, each hospital is required to collect input from designated individuals in the community, including public health experts as well as members, representatives or leaders of low-income, minority, and medically underserved populations and individuals with chronic conditions.

While Kaiser Permanente has conducted CHNAs for many years to identify needs and resources in our communities and to guide our Community Benefit plans, the new legislation provided an opportunity to revisit our needs assessment and strategic planning processes with an eye toward enhanced compliance and transparency and leveraging emerging technologies. The CHNA process undertaken in 2013 complies with both federal requirements and SB 697 legislation.

Many KFH hospitals collaborate with community partners and/or engage a consultant to help design and implement the CHNA. Those that work collaboratively partner with a variety of entities, including community-based and faith-based organizations, hospitals, clinics, schools, churches, social service agencies, government agencies, elected officials, and other community stakeholders. KFH entities provide financial support, donate in-kind services, and/or deliver technical expertise to support the CHNA collaboration. Collaborative members participate in the overall planning and implementation of the CHNA, which includes developing quantitative and qualitative data collection strategies.

To ensure that the CHNA yields results that are as meaningful, usable, accurate, and locally specific as possible, many KFH entities use at least one of the following mechanisms to collect primary data about the communities they serve:

- *Focus groups:* This is a form of qualitative research in which a select group of people (providers, community members, community stakeholders, etc.) are asked about their perceptions, opinions, beliefs, and attitudes regarding a specific issue, service, concept, idea, etc. In the CHNA process, focus groups are typically designed to solicit information about health care issues, needs, concerns, and services in the community and are sometimes conducted in more than one language.
- *Telephone surveys or one-on-one interviews:* Whether conducted by telephone, electronically, or in person, these interviews—often with community health providers, county health officers, or other key stakeholders—are designed to gather input from those with the requisite experience and/or expertise about health care issues, needs, concerns, and services in the community. In some cases, participants receive a questionnaire in advance of the interview.
- *Site visits with grantees:* Community Benefit grantees can provide valuable input and insight about the vulnerable populations they serve, including high-risk teens, refugees and immigrants, seniors, and HIV-positive individuals. As such, grant makers often schedule onsite visits with grantees to get a first-hand look at how grant funds are making an impact. They meet with the grantee's administrators, staff, volunteers, and/or clients/patients.

In addition to primary data collection and analysis, the CHNA collaborative and/or the consultant researches existing data sources for relevant demographic and health-related statistics. Kaiser Permanente created a free, web-based data platform (www.chna.org/kp) to facilitate access to and analysis of relevant secondary data. The platform provided local data on demographics, social and economic factors, the physical environment, clinical care, health behaviors, and health outcomes. Sources for data available on the platform include, but are not limited to:

- U.S. Census Bureau
- Centers for Disease Control and Prevention (e.g., Behavioral Risk Factor Surveillance System)
- U.S. and California Departments of Education
- U.S. Department of Agriculture
- Walkscore.com 2012
- California Health Interview Survey (CHIS)
- U.S. Health Resources and Services Administration
- California Office of Statewide Health Planning and Development (OSHPD), Patient Discharge Data, 2010
- California Department of Public Health

Once the community's health problems and assets are identified through the CHNA data collection and analysis process, relevant stakeholders in each collaborative convene to discuss and analyze the information and to prioritize community health needs based on a set of criteria that included:

- Severity of issue/degree of poor performance against the benchmark
- Clear disparities/inequities
- Issue is getting worse over time/not improving
- Community prioritizes the issue over other issues
- Existing attention/resources dedicated to the issue
- Effective and feasible interventions exist
- A successful solution has the potential to solve multiple problems
- Opportunity to intervene at the prevention level

The CHNA report for each KFH hospital is posted on the [Kaiser Permanente Share Site](#).

COMMUNITY BENEFIT PLAN DEVELOPMENT

Information from the CHNA provides the foundation for how each local KFH hospital will work to improve the health status of the community through a strategic, three-year community benefit plan. Following the CHNA process, each KFH hospital convenes a committee of stakeholders to further discuss and analyze the CHNA findings with a particular focus on selecting the health needs the hospital will focus on. Planning committees include hospital administrative staff from various disciplines (e.g. medical, nursing, administrative, finance, labor, and marketing). These stakeholders help select the health needs that the KFH hospital will address using an established set of criteria, which, at a minimum, included the following:

- Magnitude/scale of the problem
- Severity of the problem
- Degree of racial/ethnic disparity
- Kaiser Permanente assets and expertise available
- Existing or promising approaches exist to address the need

Once health needs are selected, local CB staff and committees develop a community benefit plan. As part Kaiser Permanente's integrated health system, KFH hospitals have a long history of working with KFHP, TPMG, SCPMG, and

other KFH hospitals, as well as external stakeholders to identify, develop, and implement strategies to address community health needs. These strategies are developed so that they:

- Are available broadly to the public and serve low-income consumers.
- Reduce geographic, financial, and/or cultural barriers to accessing health services, and if they were no longer in place would result in access problems.
- Address federal, state, or local public health priorities
- Leverage or enhance public health department activities
- Advance increased general knowledge through education or research that benefits the public
- Address needs that would otherwise become the responsibility of the government or another tax-exempt organization

KFH hospitals are committed to enhancing their understanding of how best to develop and implement effective strategies to address community health needs and recognize that good health outcomes cannot be achieved without joint planning and partnerships with community stakeholders and leaders. As such, KFH hospitals continue to work in partnership to refine their goals and strategies over time so that they can most effectively address the identified needs.

Each KFH hospital will monitor and evaluate its proposed strategies to track implementation of those strategies and to document the anticipated impact. Monitoring plans will be tailored to each strategy and will include the collection and documentation of tracking measures, such as the number of grants made, amount of dollars spent, number of people reached/served, number and role of volunteers, and volunteer hours. In addition, KFH hospitals will require grantees to propose, track, and report outcomes, including behavior and health outcomes as appropriate. For example, outcome measures for a strategy that addresses obesity/overweight by increasing access to physical activity and healthy eating options might include number of students walking or biking to school, access to fresh locally grown fruits and vegetables at schools, or number of weekly physical activity minutes.

OUTLINE OF HOSPITAL SECTION

The rest of this chapter contains, in alphabetical order, a narrative section for each of the 35 hospitals. Each hospital section contains the following information:

- A community snapshot, a few facts about the facility, and a list of key local leaders.
- A map of the service area.
- 2014 metrics for select programs in the CB portfolio, presented at the hospital level (Table 1).
- Quantified Community Benefit provided in 2014, presented at the hospital level (Table 2).
- A list of the prioritized needs identified during the 2013 CHNA and a link to the 2013 CHNA report.
- Year-end results for Community Benefit activities and programs provided in 2014, including highlights of key local and regional grants, partnerships, and other efforts to address the prioritized needs outlined in the 2014-2016 Community Benefit Plan

Additional information about each hospital may be obtained by contacting the local Kaiser Permanente Public Affairs Department or Regional Community Benefit staff in either Northern California (510-625-6188) or Southern California (626-405-6271).

Sources: Kaiser Foundation Hospital/Health Plan. U.S. Census Bureau, Census 2010 TIGER/Line.
 Maps Produced by: the Institute for People, Place & Possibility (IP3) and the Center for Applied Research and Environmental Systems (CARES). March 2013.

The KFH-South Sacramento service area comprises a large part of Sacramento County, including the cities of Sacramento, Elk Grove, and Galt, and a portion of Amador County.

TABLE 1

KAISER FOUNDATION HOSPITAL-SOUTH SACRAMENTO

2014 KEY COMMUNITY BENEFIT PROGRAM METRICS

(For more information about these and other Community Benefit programs and services, please see pages 8 through 16 in Chapter III.)

Charity Care: Charitable Health Coverage (Kaiser Permanente Child Health Program)	2,865
Medi-Cal Managed Care members	28,890
Kaiser Permanente Educational Theatre - number of performances/workshops	28
Kaiser Permanente Educational Theatre - number of attendees	10,454
Graduate Medical Education - number of affiliated and independent residents	161
Nurse practitioner and other nursing training and education beneficiaries	36
Other health professional (non-MD) training and education beneficiaries	22
High school and college internship participants (Summer Youth, INROADS, etc.)	11
Number of 2014 grants and donations made at the local and regional levels*	165

*The vast majority of regional grants impact three or more local hospitals. As such, a single regional grant may be included in the "Number of 2014 grants and donations" count for multiple hospitals.

TABLE 2

KAISER FOUNDATION HOSPITAL-SOUTH SACRAMENTO

COMMUNITY BENEFIT RESOURCES PROVIDED IN 2014

	2014 Totals
Medical Care Services for Vulnerable Populations	
Medi-Cal shortfall ^a	\$25,407,471
Charity care: Charitable Health Coverage programs ^b	2,222,772
Charity care: Medical Financial Assistance Program ^c	2,415,627
Grants and donations for medical services ^d	608,128
<i>Subtotal</i>	<i>\$30,653,998</i>
Other Benefits for Vulnerable Populations

TABLE 2 ENDNOTES

- a Amount includes unreimbursed inpatient expenditures for Medi-Cal Managed Care members and Medi-Cal Fee-for-Service beneficiaries.
- b Amount includes unreimbursed inpatient expenditures for the Kaiser Permanente Child Health Program subsidy.
- c Amount includes unreimbursed care provided at this facility to patients who qualify for the Medical Financial Assistance and Indigent Care programs.
- d Figures reported in this section for grants and donations for medical services consist of charitable contributions to community clinics and other safety-net providers; community health partnerships and collaboratives; community health care coverage enrollment efforts; and special Request for Proposals to support specific health issues such as HIV/AIDS, childhood obesity, asthma, etc. The amount reported reflects hospital-specific, unreimbursed expenditures. When hospital-specific expenditures were not available, dollars were allocated to each hospital based on the percentage of Health Plan members.
- e Figures reported in this section are hospital-specific, unreimbursed expenditures. When hospital-specific expenditures were not available, dollars were allocated to each hospital based on the percentage of Health Plan members, or a related denominator such as the number of Summer Youth students hired.
- f Figures reported in this section for grants and donations for community-based programs consist of charitable contributions made to external nonprofit organizations for a variety of programs and services that address the non-health needs of vulnerable populations. The amount reflects hospital-specific, unreimbursed expenditures. When hospital-specific expenditures were not available, dollars were allocated to each hospital based on the percentage of Health Plan members.
- g The amount reflects the costs related to providing a dedicated community benefit department and related operational expenses.
- h Figures reported in this section are hospital-specific, unreimbursed expenditures. When hospital-specific expenditures were not available, dollars were allocated to each hospital based on the percentage of Health Plan members, or a number of related denominators such as the number of Kaiser Permanente Educational Theatre performances or health education programs.
- i Amount represents the estimated value of donated surplus office and medical supplies, equipment and furniture, promotional items and giveaways, in-kind services such as printing, mailings, multimedia production, etc., and conference and meeting room usage, as recorded in the MicroEdge GIFTS database.
- j Figures reported in this section for grants and donations for the broader community consist of charitable contributions made to external nonprofit organizations to educate health care consumers in managing their own health and making informed decisions when obtaining services; and to develop, produce, or communicate health care-related public policy information for a variety of programs and services aimed at general well-being of the community. The amount reflects hospital-specific, unreimbursed expenditures. When hospital-specific expenditures were not available, dollars were allocated to each hospital based on the percentage of Health Plan members.
- k Amount reflects the net expenditures after tuition reimbursement for health professional education and training programs.
- l Figures reported in this section for grants and donations for the education of health care professionals consist of charitable contributions made to external nonprofit organizations, colleges, and universities to support the training and education of students seeking to become health care professionals such as physicians, nurses, physical therapists, social workers, pharmacists, etc. The amount reflects hospital-specific, unreimbursed expenditures. When hospital-specific expenditures were not available, dollars were allocated to each hospital based on the percentage of Health Plan members.

THE 2013 COMMUNITY HEALTH NEEDS ASSESSMENT SUMMARY AND FINDINGS

2013 COMMUNITY HEALTH NEEDS ASSESSMENT SUMMARY

The KFH-South Sacramento 2013 Community Health Needs Assessment (CHNA) is posted on the internet at www.kp.org/chna (the [Kaiser Permanente Share Site](#)). A detailed explanation of the CHNA process is included in the introductory section (Chapter IV) of the full SB 697 report.

LIST OF COMMUNITY HEALTH NEEDS IDENTIFIED IN THE CHNA REPORT FOR THE KFH-SOUTH SACRAMENTO SERVICE AREA

The list below summarizes the health needs identified for the KFH-South Sacramento service area through the 2013 CHNA process:

- Safety as a health issue
- Lack of access to primary health care services
- Lack of access to mental health and prevention services
- Unhealthy food environment
- Limited access to health prevention programs and screening
- Stress of living in poverty
- Lack of access to healthy food
- Lack of alcohol/drug abuse treatment and prevention programs
- Limited opportunities for physical activity engagement
- Lack of access to dental screenings and dental care services

HEALTH NEEDS THAT KFH-SOUTH SACRAMENTO PLANS TO ADDRESS

1. LACK OF ACCESS TO PRIMARY HEALTH CARE SERVICES

Increasing access to appropriate and effective health care services addresses a wide range of specific health needs. Access to comprehensive quality, culturally competent health care services is also important for the achievement of health equity and for its impact on obtaining timely and effective treatment and prevention of poor health outcomes. Delays in diagnosis/treatment contribute to the presence or worsening of multiple health outcomes, including chronic diseases, obesity, and mental health. Achieving the goal of increased access to care requires reducing barriers to preventive screening, primary care, and specialty care by deploying a wide range of strategies encompassing programs, outreach, training, and policies. Access to comprehensive quality, culturally competent health care services is important for the achievement of health equity and for its impact on obtaining timely and effective treatment and prevention of poor health outcomes. Delays in diagnosis/treatment contribute to the presence or worsening of multiple health outcomes, including chronic diseases, obesity, and mental health.

2. HEALTHY EATING/ACTIVE LIVING

Lack of access to healthy food/unhealthy food environment/limited opportunities for physical activity engagement were combined as one health need and shortened to healthy eating and active living, which is a health need because of its potential positive impact on health outcomes. The importance of addressing the environment that surrounds individual decision-making and promotes healthful behaviors is recognized as an important obesity prevention strategy. Limited access to healthy food, an unhealthy food environment, and limited opportunities for physical activity engagement make it difficult for area residents to eat healthy, be active, and avoid obesity and related health outcomes.

3. SAFETY AS A HEALTH ISSUE

Safety and the perception of safety are fundamental to the health of a community and impact residents' well-being and their ability to make healthy choices and resolve conflicts without violence. Communities in the KFH-South Sacramento

service area need to feel safe, and all children and their families deserve the support needed to grow into healthy, educated, and productive members of society.

4. BROADER HEALTH CARE SYSTEM NEEDS IN OUR COMMUNITIES

Kaiser Foundation Hospitals, which includes 37 licensed hospital facilities as of 2013, has identified a number of significant needs in addition to those identified above through the CHNA process that we are committed to addressing as part of an integrated health care delivery system. These needs, which are manifest in each of the communities we serve, include 1) health care workforce shortages and the need to increase linguistic and cultural diversity in the health care workforce and 2) access to and availability of robust public health and clinical care data and research.

Supporting a well-trained, culturally competent, and diverse health care workforce helps ensure access to high-quality care. This activity is also essential to making progress in the reduction of health care disparities that persist in most of our communities. Individuals trained through these workforce training programs are able to seek employment with Kaiser Permanente entities or other health care providers in our communities.

Deploying a wide range of research methods contributes to building general knowledge for improving health and health care services, including clinical research, health care services research, and epidemiological and translational studies on health care that are generalizable and broadly shared. Conducting high-quality health research and disseminating findings from it increases awareness of the changing health needs of diverse communities, addresses health disparities, and improves effective health care delivery and health outcomes.

2014-2016 COMMUNITY BENEFIT PLAN AND 2014 YEAR-END RESULTS

The goals, strategies, and outcomes listed below address health needs identified during the 2013 CHNA. All KFH hospitals carefully considered the evidence-base when determining which goals and strategies would be most effective in addressing each need. For more information on how these goals, strategies, and outcomes were identified, see the “Community Benefit Plan Development” section in Chapter IV.

KFH-South Sacramento anticipates that successful implementation of the identified strategies will result in or contribute toward a set of expected outcomes that can help support overall improvement of the priority health need in the community. To track strategy implementation and to document anticipated impact, KFH-South Sacramento annually monitors and evaluates the strategies outlined in its community benefit plan. Mechanisms for monitoring progress are tailored to each strategy and may include the collection and documentation of tracking measures such as number of grants made, number of dollars spent, number of people reached/served, number and role of volunteers, and number of volunteer hours. In addition, KFH South Sacramento requires grantees to propose, track, and report outcomes, including behavior and health outcomes as appropriate.

NOTE: A year-end results table is included for each priority health need identified in KFH-South Sacramento’s community benefit plan. These tables were included to provide *highlights* of some of the strategies KFH-South Sacramento implemented in 2014 to address its identified health needs and, as such, are *not* exhaustive lists.

PRIORITY HEALTH NEED I: LACK OF ACCESS TO PRIMARY HEALTH CARE SERVICES

LONG-TERM GOAL

- Increase the number of individuals who have access to and receive appropriate health care services in the KFH-South Sacramento service area.

INTERMEDIATE GOALS

- Increase the number of low-income people who enroll in or maintain health care coverage
- Increase access to culturally competent, high-quality health care services for low-income, uninsured individuals

STRATEGIES

- Participate in Medi-Cal Managed Care, the state’s Medicaid Program, to provide comprehensive inpatient and outpatient care to Medi-Cal Managed Care members in California
- Participate in Medi-Cal Fee for Service which provides subsidized health care on a fee-for-service basis for Medi-Cal beneficiaries not enrolled as KFHP members
- Provide Medical Financial Assistance (MFA), which assists eligible patients (based on prescribed levels of income, expenses, and assets) by subsidizing all or a portion of their Kaiser Permanente medical expenses for a period of time.
- Provide subsidized health care coverage that provides comprehensive benefits to children (birth through 18) in families with income up to 300% FPL who lack access to employer-subsidized coverage and do not qualify for public programs because of immigration status or family income.
- Provide financial support (via grants) to local organizations (federally qualified health centers [FQHCs] and local community health centers) to continue to provide clinical care for low-income area residents
- Provide grant funding to support patient navigators/community health workers who provide culturally sensitive assistance and care coordination to guide patients through available medical, insurance, and social support systems
- Participate in collaborative efforts with other area health systems and foundations that seek to address access to culturally competent, high-quality health care services

EXPECTED OUTCOMES

- Increased enrollment in Medi-Cal Managed Care
- Increased number of eligible individuals enrolled in Kaiser Permanente's subsidized care products
- MFA offered to area residents not eligible for other government health care programs
- Improvements are made to patient care, service delivery, care coordination, and/or clinic administration for FQHCs and community health centers that serve low-income area residents
- Increased access to care for community members often marginalized from medical, insurance, and social support systems due to cultural or social influences
- Increased coordinated efforts aimed at improving access to culturally competent, high quality health care

2014 YEAR-END RESULTS

Grant Highlights			
Grantee	Grant Amount	Brief Project Description	Results to Date
Capitol Health Network	\$20,000 (even split with KFH-Roseville and KFH-Sacramento)	Support implementation of the Behavioral Health Joint Operating Committee (BHJOC) to coordinate delivery of integrated primary and behavioral health services at member clinic sites.	Two BHJOC members created integrated behavioral health practices that rapidly ramped up access to those services. Three BHJOC members developed integrated services implementation plans, but have not been able to move forward. To increase primary behavioral health care, El Hogar was engaged as a subcontractor to create direct contractual relations with the three health plans, develop billing and credentialing protocols, and hire staff. It has seen approximately 170 patients to date.
Elk Grove Unified School District (EGUSD)	\$33,412	EGUSD's Teen Parent Program (TPP) provides resources, education, and information to pregnant/parenting teens. Goals are to grow the number of pregnant/parenting teens who regularly attend school; to reduce the number of second pregnancies among teen parents; and to increase access to ongoing health care and other supportive services for teen parents.	As of 12/01/14, TPP staff had coordinated outreach and health access referral services for 74 active cases within EGUSD. Case management is typically provided at school during the day with additional outreach staff conducting home visits as needed. Four parenting education and life skills training workshops were conducted. In addition, a resource fair that provides onsite resources by collaborative partners is planned for the spring.
Harm Reduction Services (HRS)	\$25,000 (even split with KFH-Sacramento)	HRS' RHINO program targets young substance users 18 to 30 and addresses risks associated with injection drug and other substance use; offers disease testing, safer supplies, and overdose prevention with Naloxone administration; and provides to AOD (alcohol and other drugs), medical, and	RHINO includes overdose prevention and response training for youth, their families, and communities. To date, 138 individuals received this training; 276 Naloxone doses were issued, and 18 overdose reversals were reported. HRS provides information through lectures at universities, community meetings, in-home trainings, and town hall meetings. Street outreach has increased program reach, and mobile STD testing at

		mental health services.	Luther Burbank High School resulted in referrals to STD treatment and follow-up care at local community clinics.
WellSpace Health	\$72,000	Support T3 (Triage, Treatment, and Transport) South Sacramento, a program designed to meet the complex medical, behavioral, and psychosocial needs of homeless high-utilizers of emergency health services.	In 2014, T3 South Sacramento served 44 clients who received referrals to primary care, mental health, and AOD providers; were connected to housing, food bank, and other services; and assisted with SSI, SDI and General Assistance benefits, as appropriate. T3 case managers provided approximately 700 referrals or appointment times. Grant also supports a five-bedroom house for homeless T3 clients. Case managers also work with transitional and permanent housing providers.
CARES Community Health	\$125,000 over 2 years This grant impacts two KFH hospital service areas in Northern California Region.	CARES will expand clinical capacity by focusing on improving health outcomes for specific patient groups and will develop processes to improve specific outcomes for all patients with a focus on African Americans with hypertension, diabetes in Latinos, and chlamydia screening among young people.	Expected reach is 3,700. Expected outcomes include: <ul style="list-style-type: none"> • Improve blood pressure control in hypertensive patients so that 65% will have a blood pressure less than 140/90 • Decrease the number of poorly-controlled diabetics so that less than 20% have an HbA1c greater than 9% • Improve chlamydia screening among patients under age 25 so that at least 60% are screened annually
Sacramento Native American Health Centers (SNAHC)	\$125,000 over 2 years This grant impacts two KFH hospital service areas in Northern California Region.	Proposed project focuses on increasing a QI culture and expanding process improvement skills through participation in a collaborative learning environment. SNAHC will focus on improving specialty service referrals through a high-level of care coordination and team-based approach.	Expected reach is 5,400. Specialty services will be streamlined and integrated into a team-based approach across departments. SNAHC will identify access issues, monitor error rate, and track patients' needs using data, and will expand primary care expertise through telemedicine and CME training. With the creation of a QI team, improved patient flow for high needs patients will improve access and services to care
Chapa-De Indian Health Program	\$125,000 over 2 years This grant impacts two KFH hospital service areas in Northern California Region.	Chapa-De plans to increase clinical capacity to care for patients with chronic illness by educating and training highly functioning teams and instituting team based care.	Expected reach is 22,953. Chapa-De will develop capacity to plan and implement a care team model and use patient data to plan and provide coordinated health care services for chronic care patients.
Elica Health Centers (EHC)	\$125,000 over 2 years This grant impacts two KFH hospital	EHC will advance its clinical capacity by sustainably integrating preventive and primary care, chronic disease management, and behavioral health services by increasing	Expected reach is 30,000. EHC anticipates that during the next two years, it will integrate primary and preventive care, chronic disease management, and behavioral health services to achieve better health outcomes with particular focus on

	service areas in Northern California Region.	process improvement skills and creating a quality improvement environment.	integrating EHR and team-based care.
Central Valley Health Network (CVHN)	\$250,000 over 2 years This grant impacts six KFH hospital service areas in Northern California Region.	Grant will provide funding for CVHN to support core operational functions and policy and advocacy activities that support CVHN member health centers in their goal of providing quality health care.	Expected reach is 600,000 CVHN expects to increase access to comprehensive health services for low-income Californians through local, regional, and statewide advocacy partnerships with key stakeholders. Health center staff will have tools, knowledge, and skills necessary to support growth and expand access to primary care and have an ongoing supply of skilled/trained individuals necessary to support care delivery.
Regional Associations of California (RAC)	\$60,000 This grant impacts all KFH hospital service areas in Northern California Region.	RAC strengthens the capacity of California's community clinics and health centers and advances local health delivery system transformation to ensure access to quality health care for all.	Expected reach is 5,146,489. Expected outcomes include enhanced understanding among health center members and local delivery system stakeholders of payment reform models and an increased capacity of consortia and clinics to test new models with an increased capacity of community clinics and health centers to succeed in a managed care environment.
California Consortium for Urban Indian Health (CCUIH)	\$80,000 This grant impacts all KFH hospital service areas in Northern California Region.	Core support to position Urban Indian Health Organization (UIHO) clinics for success in 2015 and beyond.	Likely reach is 37,000. Expected outcomes include: <ul style="list-style-type: none"> Enhanced collaboration between CCUIH and key agencies on implementation and American Indian policy issues Increased capacity of UIHO clinics to collaborate/strategize about the unique position of UIHO clinics and patients and to understand ACA policies and benchmarks Increased capacity of UIHO clinics to implement culturally specific solutions for enhanced care delivery and patient experience, care, benefits, and protections.

Collaboration/Partnership Highlights

Organization/Collaborative Name	Collaborative/Partnership Goal	Results to Date
Elk Grove Unified School District Coordinated School Health Program (CSHP) Advisory Council	The CSHP Advisory Council is an integrated, school-affiliated program designed to enhance the health of students and staff through health education; health services; physical education; nutrition services; counseling, psychological, and social services; staff health promotion; healthy school environments; and family and community involvement.	CB Specialist Stephanie Landrum represents Kaiser Permanente at the quarterly CSHP Advisory Council meetings.

Elk Grove Unified School District Student Support and Health Services Collaborative	The collaborative engages community members, school staff, parents, and students to get input on the development and implementation of these supportive programs: Positive Youth Development, Foster Youth Services, Health Start Centers, and Project ACT.	CB Specialist Stephanie Landrum represents Kaiser Permanente at the quarterly meetings.
Elk Grove Unified School District Teen Parent Program (TPP) Collaborative	The TPP Collaborative provides community resources and referrals to pregnant and parenting students within EGUSD.	CB Specialist Stephanie Landrum represents Kaiser Permanente at the quarterly meetings. She also monitors the Kaiser Permanente-funded TPP grant and relationship.
Sierra Health Foundation/Sacramento Region Health Care Partnership/Safety Net Learning Institute	The Safety Net Learning Institute is offered to all Sacramento Region community health centers. It works to build the skills and expertise of teams of key staff to help leverage internal system transformation.	All four of the Sacramento-area health systems participate in the Institute's planning activities and have committed to providing internal experts from their systems for technical assistance, as requested. CB Manager Ellen Brown represents KFH-South Sacramento at the Institute's quarterly meetings, which drew 30 to 45 attendees each time in 2014.

2015 GOALS UPDATE

The goals will remain unchanged for 2015.

2015 STRATEGIES UPDATE

The strategies will remain unchanged for 2015.

PRIORITY HEALTH NEED II: HEALTHY EATING, ACTIVE LIVING

LONG TERM GOAL

- Reduce obesity among at-risk populations in the KFH-South Sacramento service area

INTERMEDIATE GOAL

- Increase healthy eating and physical activity among vulnerable populations with a focus on communities of concern

STRATEGIES

- Implement Thriving Schools, a national initiative of Kaiser Permanente that targets resources to schools in low-income neighborhoods to improve the health and wellness of students and employees through improved nutrition, increased physical activity, and access to health care
- Provide Kaiser Permanente Educational Theatre (KPET), a free theater program designed with the advice of teachers, students, medical professionals, parents and actors, to disseminate health education and inspire children, teens, and adults to make healthier choices and better decisions about their well-being.
- Serve as a partner on Coordinated School Health Program (CSHP) committees for local schools to develop school nutrition and physical activity policies and serve as a resource to school sites for implementing those policies
- Grant funding to support facilitation and development of sustainable practices that provide education and increase access to healthy foods and physical activity in schools and community-based settings that reach a broad sector of the community

EXPECTED OUTCOMES

- Increased healthy eating in school-aged children
- Increased physical activity in school-aged children
- Increased awareness of healthy eating
- Increased awareness of physical activity
- Increased progress towards new/enhanced policies that promote health and wellness in K-12 school environment
- Increased access to healthy foods and physical activity in vulnerable communities

2014 YEAR-END RESULTS

Grant Highlights			
Grantee	Grant Amount	Brief Project Description	Results to Date
Elk Grove Food Bank Services (EGFBS)	\$26,421	EGFBS' Nutritionally Enhanced Food Closet Program provides healthy nutrition education and more fresh produce/nutritional supplements for seniors, people who are medically at-risk, and low income Elk Grove residents.	From June thru December 2014, the Food Closet programs served 19,955 individuals. Nutrition education was provided to 79 low-income people, and EGFBS expanded its services to include the typically underserved Florin area.
Food Literacy Center	\$10,000	Located in Oak Park, the Food Literacy Center provides hands-on nutrition and cooking education to low-income children; offers food literacy training to community members; and works to improve attitudes, knowledge, and behaviors related to healthy food through its lesson plans.	Each week, about 600 K to sixth graders receive food literacy education, including healthy food cooking lessons and increased access to and consumption of healthy food in the classroom. Students say the healthy food they prepare in their food literacy class tastes better than the school-provided food. They also have better attitudes toward new fruits and vegetables and increased classroom participation and engagement. In 2014, 10 community members graduated from the Food Literacy Academy. Five of them regularly assisted with food literacy classes and one assisted on a weekly basis.
Health Education Council	Total: \$1,060,000 \$60,000 continuation funding for HEAL Zones 2.0 \$1M split over 2 years (\$500,000 in 2014) for HEAL Zones 3.0	HEAL Zone grants to implement coordinated, high reach and impact strategies focused on policy, systems, built environment, and program changes to support healthy eating and active living in South Sacramento	Project expects to reach 13,394. Actual HEAL Zone 2.0 outcomes include: <ul style="list-style-type: none"> • Summer Night Lights, a physical activity program which served 10,510 residents and distributed 8,785 healthy meals • Implemented walk audit recommendations making it safer to walk in the community. • Increased physical activity programming at churches and apartments. • Established agreements with schools to allow for use of the playgrounds after hours. • Changed farm stand regulations, making it easier to bring produce to communities.

			<ul style="list-style-type: none"> • Collaboration has solidified partnership between non-traditional partners (i.e. business sectors, housing complexes, elected officials) leading to broader neighborhood revitalization
Sacramento County Office of Education (SCOE)	\$23,000	SCOE will implement the LINKS Group Mentoring Program to match adult volunteer mentors with at-risk high school students to promote student success and to build knowledge and skills for a successful life after high school. Program includes mentoring and a school-wide speaker and movie series to address healthy eating, increased physical activity, and related topics.	<p>Anticipated reach is 240 people. Expected outcomes include:</p> <ul style="list-style-type: none"> • Students learn about and mentor others on the benefits of healthier eating and increased physical activity • Students complete worksheets for each lesson and demonstrate understanding • Students report increased healthy eating and shopping choices and physical activity • Students share information with a friend or family member • Students report increased knowledge and implementation of healthier food choices, food literacy, and physical activity

Non-Financial Contributions Highlights

Beneficiary	Description of Non-Financial Contribution	Results to Date
Sacramento Food Film Fest	Physician speaker.	When the festival screened the “Cafeteria Man” documentary for 150 school food advocates, employees from Elk Grove and Sacramento City unified school districts, and community members, KFH-South Sacramento physician Rajiv Misquitta, MD spoke.

Collaboration/Partnership Highlights

Organization/Collaborative Name	Collaborative/Partnership Goal	Results to Date
Sierra Health Foundation/Healthy Sacramento Coalition	The coalition’s goal is to reduce health disparities, tobacco use, and obesity, death and disability due to chronic disease; build a safe and healthy physical environment; and improve the social and emotional well-being of Sacramento County residents. Priority areas are tobacco-free living, active living/healthy eating, evidence-based quality clinical and preventive services, social and emotional wellness, and healthy and safe physical environments.	In 2014, the coalition focused on identifying alternate funding sources and revising strategies due to cessation of the CDC’s Community Transformation Grant, which had funded the coalition’s activities since 2012. CB Specialist Stephanie Landrum represents Kaiser Permanente at monthly meetings and serves on the advising steering committee.

2015 GOALS UPDATE

The goals will remain unchanged for 2015.

2015 STRATEGIES UPDATE

The strategies will remain unchanged for 2015.

PRIORITY HEALTH NEED III: SAFETY AS A HEALTH ISSUE

LONG TERM GOAL

- Reduce violence in neighborhoods, schools, and homes, with a focus on communities of concern in the KFH-South Sacramento service area

INTERMEDIATE GOALS

- Empower the community to reduce area violence and foster a safe community environment
- Engage at-risk youth and support families to increase individual and family resilience and reduce unhealthy behaviors
- Strengthen and coordinate trauma-informed health care and community services with a focus on communities of concern

STRATEGIES

- Grant funding to community or faith-based organizations that work to build safe neighborhoods through the promotion of community engagement and activities that increase safety
- Participate in collaborative efforts (e.g., Mayor’s Gang Prevention Task Force) that seek to reduce violence in Sacramento
- Grant funding for youth engagement programs for low-income, at-risk youth and families
- Grant funding to support organizations that provide interpersonal violence (IPV) and/or family support services
- Provide KPET’s *PEACE Signs*, which teaches healthy lifestyles, conflict resolution, and violence prevention to youth and families in school and community settings
- Participate in collaborative efforts that seek to strengthen and coordinate the provision of services and resources for youth and families around violence prevention (e.g., Valley High Youth and Adult Coalition, Kaiser Permanente Violence Prevention Grantee Collaborative)
- Continue to utilize expertise of the trauma outreach coordinator (and Trauma Department) to provide education on trauma-informed health care to individual community members and the broader community at large, and to participate as a member in collaborative efforts to reduce community trauma

EXPECTED OUTCOMES

- Increased use of parks and increased participation in community events or activities
- Increased perception of safety among residents
- Increased coordinated efforts to reduce gang-related violence in Sacramento
- Increased social engagement and improved interpersonal skills among at-risk youth and families
- Increased resiliency against the effects of IPV at the individual and family level to prevent future violence
- Increased awareness among youth of how to resolve conflicts without violence
- Increased provision of coordinated services and resources to at-risk youth and families
- Increased awareness and utilization of trauma-informed care among community organizations and providers who serve residents who are at high risk of having been exposed to violence

2014 YEAR-END RESULTS

Grant Highlights			
Grantee	Grant Amount	Brief Project Description	Results to Date
Community Against Sexual Harm (CASH)	\$25,000	CASH’s Safety and Wellness Program improves the	Through the Wellness Program, hours at the drop in center have increased, making

		effectiveness of agency programming and outreach through a trauma-informed care (TIC) approach that increases safe practices for victims of commercial sexual exploitation.	services more accessible to women who need immediate care, and 65% of clients have documented harm reduction steps. CASH staff and volunteers were trained on TIC principles and provided services to 105 women during the grant period's first half.
ReIMAGINE Mack Road Foundation	\$50,000 Regional grant split between ReIMAGINE Day	Sacramento Summer Night Lights (SSNL) is an evidence-based violence prevention strategy that was started in Los Angeles and piloted in South Sacramento's Valley Hi neighborhood. It brings people out to socialize, eat, play sports, and enjoy entertainment on Thursday, Friday, and Saturday evenings. It also provides jobs for area youth during EGUSD's 14-week summer break.	Over the course of the summer, 12 youth were employed full-time; 10,510 residents came out for 41 nights (average attendance was 266 per night); more than 8,750 meals were served; calls to police and private security were reduced; and there were no homicides in the Mack Road area for the first time in 15 years. Key SSNL partners are EGUSD, Mack Road Partnership, St. Andrew Church, Sacramento Police Department, City of Sacramento, the Kaiser Permanente-funded HEAL Zone Collaborative, South Sacramento Christian Church, and local elected officials.
My Sister's House	\$25,000	The Asian/Pacific Islander (API) Violence Prevention Project is part of My Sister's House's continued efforts to educate college students about intimate partner violence and to work with local law enforcement to respond to victims in a culturally competent way.	My Sister's House identified and worked closely with 12 identified API victims of sexual assault and provided legal assistance to 122. Staff presence in the Sacramento Police Department has helped improve law enforcement response and connection to sexual assault supports and services available from My Sister's House. Funding has also contributed to outreach to 280 students on local college campuses.
Sacramento County Office of Education (SCOE)	\$20,000	LINKS's group mentoring program matches adult mentors with at-risk secondary students. One-hour weekly mentoring sessions (32 weeks each school year) are structured, facilitated, and designed to reduce risky behaviors and to promote student success.	Twenty-four students were identified and interviewed for the program, and 17 joined as mentees. SCOE staff recruited (using social media, professional networks and community presentations) and trained 55 adult mentors. From Sept 2014 and Nov 2014, 12 curriculum-based mentoring sessions that focused on providing mentees with tools to succeed in goal identification and in the job market were completed.
Another Choice, Another Chance	\$40,000	Project will provide eight hours of Child Trauma Training to teachers, school personnel, and other community service providers to increase number of children screened for trauma, referred to, and participating in supportive services.	Expectation is that 350 school personnel and other community services providers in South Sacramento and Elk Grove will be trained to identify and respond to trauma in youth. Outreach and onsite screening and support services will be expanded to serve 300 youth who have experienced trauma.

Non-Financial Contributions Highlights

Beneficiary	Description of Non-Financial Contribution	Results to Date
California Adverse Childhood Experiences (ACEs) Summit	Wendie Skala, RN, Trauma Outreach Coordinator, participated on a panel	Capitalizing on efforts in other states and in communities across California to address the

	discussion at the California ACEs Summit.	impacts of ACEs, the summit convened a diverse group of stakeholders from different sectors and industries—including government, non-profit, private business, medicine, and philanthropy—to collaboratively craft a shared agenda that address ACEs as the most important public health crisis of our time.
Greater Community	Wendie Skala, RN hosted Trauma Informed Care Course in May and June open to community.	EGUSD and SCUSD staff, nurses from KFH-South Sacramento's ED, and participants from non-profit organizations attended the 16-hour training provided by Another Choice Another Chance. All entities are working toward a trauma-informed community lens.
ReIMAGINE Mack Road Foundation	Mack Road Partnership, through ReImagine Mack Road, gave KFH-South Sacramento the opportunity to bring much-needed improvements to an area that is in the heart of the HEAL Zone and a half mile from the hospital. This is a unique opportunity to help transform a neighborhood that has a reputation for gang activity and violence, a struggling business corridor, large low-income and subsidized apartment complexes, and schools with very high free- and reduced-price lunch (FRPL) levels.	On April 26, more than 4,000 community volunteers volunteered at 16 project sites in the Valley Hi neighborhood. They rehabbed a community center, spruced up landscaping along Mack Road, painted fences, and installed a "Welcome to Mack Road" sign. Among the volunteers were more than 70 Kaiser Permanente employees and physicians who rehabbed 1 of 10 Valley Hi homes comprising Rebuilding Together's annual spring build day. ReImagine Day set the stage for SSNL and a farmers market that launched May 31.

Collaboration/Partnership Highlights

Organization/Collaborative Name	Collaborative/Partnership Goal	Results to Date
Galt Unified School District (GUSD)	Speaker Opportunity	In May, Wendie Skala, RN spoke to 500 GUSD students as part of a presentation for Every 15 Minutes, a nationally recognized, participatory learning experience that dramatizes the dangerous consequences of using alcohol and texting while driving students and families.
Health Education Council/Sacramento Minority Youth Violence Prevention Initiative (SMYVP)	SMYVP's goals are 1) to form a multisector collaborative to increase local coordination of services and resources to reduce crime and violence among minority youth; 2) to incorporate community policing practices and the hospital-based SVIP (Sacramento Violence Intervention Program) into the curriculum for Male Leadership Academy (MLA), a school-based youth leadership program that addresses the emotional, social, and physical needs of minority male youth; and 3) to integrate MLA into SSNL, thereby building community, creating safe opportunities for youth to be active and engaged during the summer, and reducing violence in South Sacramento.	Wendie Skala, RN, CB Manager Ellen Brown, and CB Specialist Stephanie Landrum are engaged with the coalition and have attended preliminary planning meetings. SMYVP is supported by a three-year joint grant from the Office of Minority Health and the Department of Justice Office of Community-Oriented Policing Services that began in October 2014.

Sacramento City Unified School District/School Climate Collaborative	Provide social, emotional and health coverage resources and support to SCUSD students, families, and district staff.	CB Specialist Stephanie Landrum attends quarterly meetings as a KP Representative.
Sacramento Violence Intervention Program (SVIP)	SVIP engages youth 15 to 24 admitted to KFH-South Sacramento Trauma Center with severe injuries related to violence (intentional injuries). SVIP aims to reduce re-injury, retaliation, and arrest by promoting positive life choices and alternatives to violence by linking youth with community-based resources for re-enrolling in school, employment assistance, and other services such as health coverage enrollment, and help attending follow-up medical appointments. Intervention specialists from WellSpace Health, a local FOHC, work with youth and their family, starting at the hospital bedside and continuing for up to six months post-recovery.	Since June 2010, KFH-South Sacramento has referred 215 youth to SVIP; 164 consented to be in the program. To date: <ul style="list-style-type: none"> • 99% no new hospitalization • 91% no new arrests • 37% employed • 40% enrolled in educational program KFH-South Sacramento staffs the program with a trauma nurse coordinator who identifies youth and connects them with WellSpace intervention specialists.

2015 GOALS UPDATE

The goals will remain unchanged for 2015.

2015 STRATEGIES UPDATE

The strategies will remain unchanged for 2015.

PRIORITY HEALTH NEED IV: BROADER HEALTH CARE SYSTEM NEEDS IN OUR COMMUNITIES – WORKFORCE

LONG-TERM GOAL

- Address health care workforce shortages and cultural and linguistic disparities in the health care workforce

INTERMEDIATE GOAL

- Increase the number of skilled, culturally competent, diverse professionals working in and entering the health care workforce to provide access to quality, culturally relevant care

STRATEGIES

- Implement health care workforce pipeline programs to introduce diverse, underrepresented school-age youth and college students to health careers
- Provide workforce training programs to equip current and future health care providers with the skills, linguistic, and cultural competence to meet the health care needs of diverse communities
- Disseminate knowledge to educational and community partners to inform curricula, training, and health career ladder/pipeline programs
- Leverage CB-funded programs to develop strategies to increase access to allied health, clinical training, and residency programs for linguistically and culturally diverse candidates
- Increase capacity in allied health, clinical training, and residency programs to address health care workforce shortages through the provision of clinical training and residency programs

- Leverage Kaiser Permanente resources to support organizations and research institutions to collect, standardize, and improve access to workforce data to enhance planning and coordination of workforce training and residency training programs

EXPECTED OUTCOMES

- Increased number of diverse youth entering health care workforce educational and training programs and health careers
- Increased number of culturally and linguistically competent and skilled providers
- Increased awareness among academia of what is required to adequately train current and future allied health, clinical, and physician residents on how to address the health care needs of our diverse communities
- Increased participation of diverse professionals in allied health, clinical training, and residency programs
- Improved access to relevant workforce data to inform health care workforce planning and academic curricula

2014 YEAR-END RESULTS

Grant Highlights			
Grantee	Grant Amount	Brief Project Description	Results to Date
Valley High School	\$19,000	Through the Cultural Awareness Community Healthy Education (CACHE) program, Health TECH Academy students meet with Kaiser Permanente physician mentors every three weeks and get tools that better prepare them for health careers. Students are grouped based on ethnicity. Each group surveys its own community to identify a top health concern. With guidance from the physician mentors, the students create and deliver a public health presentation that addresses a critical public health issue specific to their cultural community.	Health TECH Academy students have presented their research at health fairs and community events, and through a local Hmong radio program to roughly 5,000 people in the Sacramento Region. In 2014, Health TECH Academy launched a community health worker training and certification program to allow students who meet certain requirements to be certified as community health workers during the twelfth grade. The academy is also developing pre-academy curriculum for Samuel Jackman Middle School to prepare pre-academy students for the rigors of the CACHE program.
City Year	\$300,000	Grant will support a City Year Whole School Whole Child (WSWC) team of AmeriCorps members at Fern Bacon Middle School to address vulnerable students with at least three risk factors (dropping out, poor attendance, behavior issues, and/or poor coursework) for three years.	Goals are to retain 95% whole school attendance; reduce referrals and suspensions by 30%; provide English Language Arts (ELA) and math support to more than 700 Fern Bacon students throughout the year; and help at least 70% of focus-list students improve scores on end-of-year ELA and math assessment.
Stiles Hall	\$75,000 This grant impacts all KFH hospital	This program helps African American, Latino, and Native American students complete their UC Berkeley application and personal statements. It also	Stiles Hall staff recruit, inform, and encourage high achieving, low-income underrepresented students thereby doubling their chances of admissions to U.C. Berkeley and providing a home-base for first

	service areas in Northern California Region.	provides the students with tools, mentors, and other resources to help them stay in school and graduate.	generation college students. The program will also help 10 students meet with Kaiser Permanente professionals to discuss health career opportunities and experiences.
Inroads, Inc.	\$60,000 This grant impacts all KFH hospital service areas in Northern California Region.	Support intern training at Pacific Northwest Learning Summit and Inroads' initiative to increase the number of student internship opportunities in health care careers in Northern California.	The goal is to prepare 100 new and continuing interns for the workplace through the annual learning summit. Inroads will conduct outreach and recruit 20 new corporate sponsors in health care related fields and create new internship slots. It will also conduct outreach, recruit, screen, and prepare 60 potential internship participants who are interested in health care-related fields, place 20 of them into the new positions, and support them with a year-round personalized curriculum.
UC Davis Summer Institute for Emerging Managers and Leaders	\$50,000 This grant impacts all KFH hospital service areas in Northern California Region.	The Institute identifies and recruits talented underrepresented minority students and invites them to attend a two-week leadership development program that aims to a pipeline of diverse students who choose to pursue MBA degrees within the University of California system.	During the program, 54 participants from 27 institutions met with alumni, deans, faculty, and business executives from the six UC business schools. They attended pre-MBA workshops led by business school graduate advisors and deans to learn more about graduate education opportunities within the UC system. They learned about effective presentations, marketing analytics, leadership, accounting, and other topics, and left with a concrete plan to build their résumés and careers to be stronger candidates for business school.
UCSF School of Medicine Post Baccalaureate Program	\$124,164 This grant impacts all KFH hospital service areas in Northern California Region.	This graduate certificate program prepares individuals from disadvantaged and underserved communities for careers in medicine by providing academic enrichment, assistance with medical school applications, MCAT preparation, mentoring, and advising.	The program aims to prepare 16 to 24 participants for successful admission to medical school by strengthening their academic profiles and applications. And to ensure they successfully complete medical school, the program helps participants develop the necessary skills and tools, and provides needs-based scholarships to those who qualify.
Physicians Medical Forum	\$50,000 This grant impacts twelve KFH hospital service areas in Northern California Region.	The Doctors on Board Community Health Ambassador program will increase the number of African American and other underrepresented minority students who are interested in becoming physicians through workshops, education, and mentoring opportunities.	The goal is that at least 250 high school, post-baccalaureate and medical students will have increased awareness of and interest in applying for science courses, pre-med college/university, MCATs, and applications to medical school.

Non-Financial Contributions Highlights

Beneficiary	Description of Non-Financial Contribution	Results to Date
Health Professions High School (SCUSD)	Representatives from KFH-South Sacramento's radiology department hosted	Five staff representing multiple specialties in KFH-South Sacramento's Radiology

	a Radiology Day at Health Professions High School to inform students about educational paths and careers in the field.	Department participated and presented to 30 students.
University of Southern California	KFH-South Sacramento hosted 20 students enrolled in USC's Sacramento Summer Enrichment Program (SSEP), which focuses on promoting diversity in leadership.	Students toured Labor and Delivery, Occupational Medicine, ICU, and Health Education and listened to a panel of Kaiser Permanente leaders.

2015 GOALS UPDATE

The goals will remain unchanged for 2015.

2015 STRATEGIES UPDATE

The strategies will remain unchanged for 2015.

PRIORITY HEALTH NEED V: BROADER HEALTH CARE SYSTEM NEEDS IN OUR COMMUNITIES – RESEARCH

LONG-TERM GOAL

- Increase awareness of the changing health needs of diverse communities

INTERMEDIATE GOAL

- Increase access to and availability of relevant public health and clinical care data and research

STRATEGIES

- Disseminate knowledge and expertise to providers to increase awareness of the changing health needs of diverse communities to improve health outcomes and care delivery models
- Translate clinical data and practices to disseminate findings to safety net providers to increase quality in care delivery and to improve health outcomes
- Conduct, publish, and disseminate high-quality health services research to the broader community to address health disparities and to improve effective health care delivery and health outcomes
- Leverage Kaiser Permanente resources to support organizations and research institutions to collect, analyze, and publish data to inform public and clinical health policy, organizational practices, and community health interventions to improve health outcomes and to address health disparities

EXPECTED OUTCOMES

- Improved health care delivery in community clinics and public hospitals
- Improved health outcomes in diverse populations disproportionately impacted by health disparities
- Increased availability of research and publications to inform clinical practices and guidelines

2014 YEAR-END RESULTS

Grant Highlights			
Grantee	Grant Amount	Brief Project Description	Results to Date
UCLA Center for Health Policy Research	\$1,000,000 (\$500K in	To effectively and efficiently address the needs of any given	Grant funds will allow the Center to: <ul style="list-style-type: none"> • Collect data and develop files for 48,000

<p>Grant distributed from the Kaiser Permanente Fund for Community Benefit, a donor advised fund established in 2004 and administered by East Bay Community Foundation. The California Health Interview Survey (CHIS) collects data on access to health care, health coverage, health behaviors, chronic health problems, and other issues. The information is disseminated through data files, online query tools, and research products such as policy briefs, reports, fact sheets, and articles.</p>	<p>households.</p> <ul style="list-style-type: none"> • Develop 2013-2014 field ready survey questionnaires and include Tagalog. • Conduct at least 10 online AskCHIS workshops for at least 200 participants across the state; engage the new AskCHIS Neighborhood Edition (NE) query. • Analyze CHIS data and produce a policy brief on a topic chosen by Kaiser Permanente Community Benefit staff. • Increase capacity of nonprofit community organizations to understand, evaluate, and use health data
<p>UCLA Center for Health Policy Research</p> <p>Grant distributed from the Kaiser Permanente Fund for Community Benefit, a donor advised fund established in 2004 and administered by East Bay Community Foundation. As such, the grant amount is not included in 2014 Community Benefit totals (Tables A, B, and 2).</p>	<p>\$108,200 Grant impacts all KFH hospital service areas in Northern California Region.</p>	<p>Grant will allow CHIS to support enhancements needed for AskCHIS NE. New AskCHIS NE visualization and mapping tools will be used to demonstrate the geographic differences in health and health-related outcomes across multiple local geographic levels, allowing users to visualize the data at a sub-county level.</p>	<p>Grant funds will allow the Center to:</p> <ul style="list-style-type: none"> • Enhance in-house programming capacity for revising and using state-of-the-science small area estimate (SAE) methodology. • Develop and deploy AskCHIS NE. • Launch and market AskCHIS NE. • Monitor use, record user feedback, and make adjustments to AskCHIS NE as necessary.

In addition to the CHIS grants, two research programs – the Division of Research (DOR) and Northern California Nursing Research (NCNR) – in the Kaiser Permanente Northern California Region Community Benefit portfolio also conduct activities that benefit all Northern California KFH hospitals and the communities they serve.

DOR conducts, publishes, and disseminates high-quality research to improve the health and medical care of Kaiser Permanente members and the communities we serve. Through interviews, automated data, electronic health records (EHR), and clinical examinations, DOR conducts research among Kaiser Permanente’s 3+ million members in Northern California. Its research projects encompass epidemiologic and health services studies as well as clinical trials and program evaluations. Primary audiences for DOR’s research include clinicians, program leaders, practice and policy experts, other health plans, community clinics, public health departments, scientists and the public at large. Community Benefit supports the following DOR projects:

DOR Projects	Project Information
Central Research Committee (CRC)	Information on recent CRC studies can be found at: http://insidedorprod2.kp-dor.kaiser.org/sites/crc/Pages/projects.aspx
Clinical Research Unit (CCRU)	CCRU offers consultation, direction, support, and operational oversight to Kaiser Permanente Northern California clinician researchers on planning for and conducting clinical trials and other types of clinical research; and provides administrative leadership, training, and operational support to more than 40 regional clinical research coordinators. CCRU statistics include 420 clinical trials and 370 FDA-regulated clinical trials.
Research Program on Genes, Environment and Health (RPGEH)	RPGEH is working to develop a research resource linking the EHRs, collected biospecimens, and questionnaire data of participating KPNC members to enable large-scale research on genetic and environmental influences on health and disease; and to utilize the resource to conduct and publish research that contributes new knowledge with the potential to improve the health of our members and communities. By the end of 2014, RPGEH had enrolled and

	collected specimens from more than 200,000 adult KPNC members, had received completed health and behavior questionnaires from more than 430,000 members; and had genotyped DNA samples from more than 100,000 participants, linked the genetic data with EHRs and survey data, and made it available to more than 30 research projects
--	--

A complete list of DOR's 2014 projects is at <http://www.dor.kaiser.org/external/dorexternal/research/studies.aspx>. Here are a few highlights:

Research Project Title	Alignment with CB Priorities
Risk of Cancer among Asian Americans	Research and Scholarly Activity
Racial and Ethnic Disparities in Breastfeeding and Child Overweight and Obesity	Healthy Eating, Active Living
Transition from Healthy Families to Medi-Cal: The Behavioral Health Carve-Out and Implications for Disparities in Care	Access to Care Mental/Behavioral Health
Ethnic and Racial Disparities in Dementia Incidence	Access to Care
Health Impact of Matching Latino Patients with Spanish-Speaking Primary Care Providers	Access to Care
Sociodemographic and Other Factors Affecting Response to a 2012 Regional FIT (Fecal Immunochemical Test) Outreach Effort	Access to Care
Healthcare Using New Technologies: A comparison of access to, use of, and preferences for using digital information technology to communicate, transact, and obtain health-related information across five race/ethnic groups of seniors aged 65-79.	Access to Care
RPGEH Project Title	Alignment with CB Priorities
Prostate Cancer in African-American Men	Access to Care Research and Scholarly Activity
RPGEH high performance computing cluster. DOR has developed an analytic pipeline to facilitate genetic analyses of the GERA (Genetic Epidemiology Research in Adult Health and Aging) cohort data. Development of the genotypic database is ongoing; in 2014, additional imputed data were added for identification of HLA serotypes.	Research and Scholarly Activity

The NCNR program was established to improve the health and well-being of Kaiser Permanente members and the community-at-large. The nurse scientist-director supports these goals by providing research consultation, design, editing, abstract and manuscript development for internal and external publication and dissemination. Highlights of Community Benefit-funded NCNR projects in 2014 include:

Project Title	Alignment with CB Priorities
African American grandparents raising their grandchildren: A service gap analysis	Increase Access to Social Non-Medical Services for Vulnerable and Low-Income Populations
Intent of Hispanic/Latino adolescents toward tissue and organ donation: A study of an educational intervention.	Increase Access to Social Non-Medical Services for Vulnerable and Low-Income Populations
Quality improvement project aimed at preventing hospital readmissions of elderly patients with chronic conditions such as diabetes and diabetes-related diseases	Healthy Eating, Active Living
Caring, Filipino Population and Satisfaction Scores	Access to Care

The main audience for NCNR-supported research is KP and non-KP health care professionals (nurses, physicians, allied health professionals), community-based organizations, and the community-at-large. Findings are available at the Nursing Pathways NCNR website: <https://nursingpathways.kp.org/ncal/research/index.html> and bimonthly WebEx programs at <https://nursingpathways.kp.org/ncal/research/nursingresearchprogram/2014meetingsandpresentations.html>.

2015 GOALS UPDATE

The goals will remain unchanged for 2015.

2015 STRATEGIES UPDATE

The strategies will remain unchanged for 2015.
