INTRODUCTION

This is the nineteenth *Consolidated Community Benefit Plan* prepared by Kaiser Foundation Hospitals (KFH), a California nonprofit public benefit corporation, and submitted to the Office of Statewide Health Planning and Development (OSHPD) in compliance with Senate Bill (SB) 697, Chapter 812, Statutes of 1994, Health and Safety Code Section 127340 et seq. The *Consolidated Community Benefit Plan 2015* includes a hospital-specific Community Benefit Plan for each of the 35 hospitals owned and operated by KFH in California.

DEVELOPMENT OF A CONSOLIDATED COMMUNITY BENEFIT PLAN

Throughout 2014, the 35 hospitals undertook activities and projects to address selected priority needs identified in 2013 in their respective communities. This report documents the results of these efforts. The process of producing the KFH *Consolidated Community Benefit Plan 2015* includes the following activities:

- Development and distribution of internal guidelines for preparation of KFH Community Benefit year-end reports and updates that incorporate SB 697 requirements and OSHPD guidelines
- Preparation of individual KFH Community Benefit plans and year-end reports by local staff responsible for planning, implementing, and evaluating Community Benefit activities, programs, and services
- Review of 2014 year-end results by Northern and Southern California Regional Community Benefit Departments, and National Community Benefit, which included verification of total benefits, such as cash contributions, and donated equipment and supplies
- Update of hospital facts, metrics, and service area maps based on data obtained from various Kaiser Permanente departments such as Planning and Analysis, Human Resources, Management Information and Analysis, and others
- Allocation and reporting of the economic value of Community Benefit provided by each hospital, based on the SB 697 reporting categories (Table 2 in each hospital chapter)
- Preparation of consolidated information and description of key Community Benefit programs, services, and activities for Kaiser Foundation Hospitals in California, based on the SB 697 reporting categories

The *Consolidated Community Benefit Plan 2015* was produced by Northern California Region Community Benefit and Southern California Region Community Benefit. However, preparation of this report would not have been possible without the valuable assistance of local Community Benefit and Public Affairs staff throughout California.

CONTENTS OF THE COMMUNITY BENEFIT PLAN

CHAPTER I: HISTORY AND ORGANIZATIONAL STRUCTURE OF KAISER PERMANENTE

- History of Kaiser Permanente and a description of its organizational structure at the regional and national level

CHAPTER II: MISSION STATEMENT AND COMMITMENT TO THE COMMUNITY

- Mission statement of KFH and Kaiser Foundation Health Plan, Inc. (KFHP), and information on Kaiser Permanente's commitment to the communities it serves

CHAPTER III: COMMUNITY BENEFIT PROVIDED IN 2014

- Statewide and individual hospital Community Benefit provided by KFH in 2014, including descriptions of related activities and programs, as well as financial information based on the SB 697 reporting categories (Tables A and B).

CHAPTER IV: 2014–2016 COMMUNITY BENEFIT PLANS AND 2014 YEAR-END RESULTS

- The introduction includes a brief overview of what is contained in the year-end reports and plan updates.
- There is a section for each of the 35 hospitals, in alphabetical order.
- Each hospital section includes a list of selected demographic and socioeconomic statistics about the area served, a few key hospital facts, a list of the hospital's leaders, a service area map, a list of cities and communities served, a link to the 2013 Community Health Needs Assessment (CHNA) on the [Kaiser Permanente Share Site](#) website and a description of the 2014–2016 Community Benefit Plan, along with 2014 year-end results.
- Each hospital section contains two tables. One provides metrics for some programs in the Community Benefit portfolio (Table 1) and the other enumerates the total Community Benefit provided in 2014 (Table 2).

CHAPTER I: HISTORY AND ORGANIZATIONAL STRUCTURE OF KAISER PERMANENTE

HISTORY AND ORGANIZATIONAL STRUCTURE OF KAISER PERMANENTE

Kaiser Permanente is an integrated health care delivery system. For nearly 70 years, Kaiser Permanente has been dedicated to providing high-quality, affordable health care services and to improving the health of our members and the communities we serve. Today we serve approximately 9.6 million members in eight states and the District of Columbia. Kaiser Permanente is dedicated to improving the health of our communities through broad coverage, high-quality care and continuous quality improvement and innovation in the care we deliver, clinical research, workforce development, health education, and the support of community health interventions.

Kaiser Permanente started in 1933 as a prepaid program to finance and provide health care services to workers on a remote construction project in the Southern California desert. It later expanded to include coverage for workers and their families during construction of the Grand Coulee Dam in Washington State. During World War II, Kaiser Permanente provided health care services to employees at Kaiser shipyards and steelmaking facilities, who were union members primarily, and to their families.

An innovative Labor Management Partnership (LMP) among Kaiser Permanente workers, managers, and physicians honors the early cooperative spirit between the company and its union employees. The LMP is the largest and most comprehensive partnership of its kind, covering more than 100,000 union-represented employees and their managers and yielding superior health care results in a high-performance workplace.

Kaiser Permanente has been actively involved in the community for decades. Since its beginning, Kaiser Permanente's philosophy has reflected the belief that effective preventive health care does not begin and end with an individual's well-being, but includes promoting and supporting healthy, stable communities.

Kaiser Permanente is organized in each operating region by three separate but closely cooperating entities: comprised of KFH and KFHP (nonprofit public benefit corporations and exempt organizations under Section 501(c)(3) of the Internal Revenue Code), and a separate Permanente Medical Group (PMG) in each region in which Kaiser Permanente operates. These entities share responsibility for organizing, financing, and delivering quality, prepaid health care to members and the community at large.

NATIONAL STRUCTURE

KFHP and KFH (collectively KFHP/H) are governed by a 14-member Board of Directors; individuals from academia and private industry who are representative of the community. Bernard J. Tyson is Chief Executive Officer and Chairman for both organizations. Corporate headquarters for Kaiser Permanente is in Oakland, California.

KFH accepts responsibility to provide or arrange necessary hospital services and facilities for members. Staff privileges are available on a nondiscriminatory basis to physicians in the communities served. KFH also contracts with other community hospitals to provide hospital services to members for specialized care and other services.

REGIONAL STRUCTURE IN CALIFORNIA

In California, KFHP and KFH divide their operations into two separate regions, Northern California Region (NCR), headquartered in Oakland and Southern California Region (SCR) in Pasadena, each with its own president.

Four separate legal entities are responsible for managing the integrated health care system in California: KFHP; KFH; The Permanente Medical Group, Inc. (TPMG), which contracts with KFHP in Northern California; and Southern California Permanente Medical Group (SCPMG), which contracts with KFHP in Southern California. Kaiser Permanente also provides

medical services to members in one non-hospital service area, Kern County, where SCPMG physicians provide primary and specialty care for members, and KFH contracts for hospital services.

The 2014 KFHP/H leadership team in Northern California includes Gregory Adams, President; Janet Liang, Chief Operating Officer; Wade Overgaard, Senior Vice President, California Health Plan Operations; Debby Cunningham, Senior Vice President, Strategy and Business Development; Michael Rowe, Senior Vice President and Chief Financial Officer; Mark Billings, Senior Vice President, Hospital and Health Plan Area Operations; Gay Westfall, Senior Vice President, Human Resources; Yvette Radford, Vice President, External and Community Affairs; Nancy Cartwright, Vice President, Communications; Sandra Golze, Vice President and Regional Counsel; Barbara Crawford, Vice President, Quality and Regulatory Services; Kevin Hart, Vice President, Business Information Officer and KP HealthConnect; Jason Hall, Vice President, Compliance and Privacy; and Ann Orders, Executive Director, Continuing Care and Health Care Reform.

The 2014 KFHP/H leadership team in Southern California includes Benjamin Chu, MD, Executive Vice President and President, Southern California and Georgia; William Caswell, Senior Vice President, Operations; Gerald McCall, Senior Vice President, Operations; George Di Salvo, Senior Vice President and Chief Financial Officer; Jodie Lesh, Senior Vice President, Strategic Planning and New Ventures; Nirav Shah, MD, Senior Vice President, Chief Operating Officer, Clinical Operations; Arlene Peasnell, Senior Vice President, Human Resources; James Crawford, Vice President, Business Information Officer; Diana Halper, Vice President Integrated Brand Communications; John Yamamoto, Vice President and Regional Counsel; Wade Overgaard, Senior Vice President, California Health Plan Operations; and, Dennis Scott, Vice President, Compliance and Privacy.

TPMG and SCPMG are responsible for the care of KFHP members and for physician recruitment, selection, and staffing. Robert Pearl, MD, is medical director and executive director of the board for TPMG. Edward Ellison, MD, is executive medical director and chairman of the board for SCPMG.

KAISER FOUNDATION HOSPITALS IN CALIFORNIA

KFH owns and operates 35 hospitals (including six licensed hospitals with multiple campuses) in California: 21 community hospitals in Northern California and 14 in Southern California, all accredited by the Joint Commission on Accreditation of Healthcare Organizations (JCAHO).

KFH hospitals are located in Anaheim, Antioch, Baldwin Park, Downey, Fontana, Fremont, Fresno, Irvine, Los Angeles, Manteca, Modesto, Moreno Valley, Oakland, Ontario, Panorama City, Redwood City, Richmond, Riverside, Roseville, Sacramento, San Diego, San Francisco, San Jose, San Leandro (replaced Hayward hospital), San Rafael, Santa Clara, Santa Rosa, South Bay, South Sacramento, South San Francisco, Vacaville, Vallejo, Walnut Creek, West Los Angeles, and Woodland Hills.

MEDICAL OFFICE BUILDINGS

In California, KFHP/H owns and leases 452 medical offices where members receive outpatient health care. Each Kaiser Permanente medical office building is affiliated with a KFH medical center.

CHAPTER II: MISSION STATEMENT AND COMMITMENT TO THE COMMUNITY

MISSION STATEMENT

Kaiser Permanente's mission statement reflects both business objectives and a longstanding philosophy of social responsibility.

*Kaiser Permanente exists to provide high-quality, affordable health care services
and to improve the health of our members and the communities we serve.*

In compliance with SB 697 legislation passed in 1994, the KFHP/H Board of Directors met on March 7, 1995, and reaffirmed that:

KFH is a nonprofit public benefit corporation not organized for the private gain of any person and that, as set forth in its Articles of Incorporation and Bylaws, its principal purpose is to provide hospital, medical and surgical care, including emergency services, extended care and home health care, for members of the public, without regard to age, sex, race, religion or national origin or for the individual's ability to pay. The corporation's related purposes are to educate and train medical students, physicians and other health care professionals, and students in the healing arts; to conduct, promote and encourage educational and scientific research in medicine and related sciences, and medical and nursing education; and to support such other charitable, scientific, educational and hospital endeavors as the corporation may deem advisable and as are consistent with this corporation's tax-exempt nonprofit status. The corporation also makes available professional staff privileges to practitioners in the community.

NATIONAL COMMITMENT TO COMMUNITY BENEFIT

Community Benefit is central to Kaiser Permanente's mission. We believe good health is a fundamental aspiration of all people. We recognize that promotion of good health extends beyond the doctor's office and the hospital. Like our approach to medicine, our work in the community takes a prevention-focused, evidence-based approach. To be healthy, people need access to healthy and nutritious food in their neighborhood stores, clean air, successful schools, and safe parks and playgrounds. Good health for the entire community also requires a focus on equity as well as social and economic well-being.

We focus our work on three broad areas:

- Providing access to high-quality care for low-income, underserved people
- Creating safe, healthy communities and environments where people live, work, and play
- Developing important new medical knowledge and sharing it widely with others and training a culturally competent health care workforce of the future

Across these areas, we work to inspire and support people to be healthier in all aspects of their lives, and build stronger, healthier communities.

In pursuit of our mission we go beyond traditional corporate philanthropy and grant-making to leverage our financial resources with medical research, physician expertise, and clinical practices. In addition to dedicating resources through Community Benefit, we also leverage substantial additional assets that improve community health, including our purchasing practices, our environmental stewardship efforts and workforce volunteerism.

For many years, we have worked collaboratively with other organizations to address serious public health issues such as obesity, access to care, and violence. We have conducted CHNAs to better understand each community's unique needs and resources. The CHNA process informs our community investments and helps us develop strategies aimed at making long-term,

sustainable change—and it allows us to deepen the strong relationships we have with other organizations that are working to improve community health.

The KFHP/H Board of Directors has a standing Community Benefit Committee that oversees the program wide Community Benefit program. This includes the review and approval of certain community benefit plans and regulatory reports. Kaiser Permanente also has a national executive of KFHP and KFH to lead Kaiser Permanente's Community Benefit Program as a full-time assignment. Raymond J. Baxter, PhD, is the Senior Vice President for Community Benefit, Research, and Health Care Policy. He reports to the CEO and Chairman of the Board.

KAISER PERMANENTE'S COMMITMENT TO COMMUNITY BENEFIT IN CALIFORNIA

The Community Benefit commitment is reflected in all levels of the organization:

- Regional Community Benefit Governance Teams include senior-level executives representing KFHP/H and SCPMG or TPMG. Each team is responsible for setting strategic direction for Community Benefit activities, approving new initiatives, setting annual spending targets, and monitoring Community Benefit outcomes and results in the region.
- Regional Community Benefit leaders and staff coordinate and implement Community Benefit programs and initiatives with program managers, staff the Community Benefit governance team, and frame policy directives in Northern and Southern California.
- Local staff at the hospital and/or Area level are responsible for implementing and reporting on Community Benefit programs and services that address local needs.

CHAPTER III: COMMUNITY BENEFIT PROVIDED IN 2014

This chapter includes descriptions of all Community Benefit programs and services provided by Kaiser Permanente in 2014. In addition, financial information is listed in two tables located at the end of this chapter. Table A itemizes total Community Benefit provided by KFH for California in accordance with the SB 697 framework. Table B shows total Community Benefit provided by each hospital.

METHODOLOGY

DEFINITION OF COMMUNITY

Kaiser Permanente defines the community served by a hospital as those individuals residing within its hospital service area. A hospital service area includes all residents in a defined geographic area surrounding the hospital and does not exclude low-income or underserved populations.

CATEGORIZATION OF SERVICES

Each KFH Community Benefit program and service included in this plan was aligned with and reported under the most appropriate SB 697 category, which are as follows:

- Medical Care Services for Vulnerable Populations
- Other Benefits for Vulnerable Populations
- Benefits for the Broader Community
- Health Research, Education, and Training Programs

DOCUMENTATION AND ALLOCATION OF EXPENDITURES

Total Community Benefit expenditures are reported for the 35 NCR and SCR hospitals as follows:

- Quantifiable Community Benefit such as facility use and in-kind donations are included if funded by KFH, provided in a KFH facility, or are part of a KFH Community Benefit Plan.
- Medical care services for vulnerable populations include unreimbursed inpatient costs for participation in Kaiser Permanente-subsidized and government-sponsored health care insurance programs.
- The unreimbursed portion of medical, nursing, and other health care profession education and training costs are included.

Resource allocations are reported, as follows:

- Financial expenditures are reported in exact amounts, if available, by hospital service area.
- If exact financial expenditure amounts were not available by hospital service area, then regional expenses were allocated proportionally on the basis of KFHP membership or other quantifiable data, such as the number of Kaiser Permanente Educational Theatre performances presented or Summer Youth students employed within each hospital area's community at large.

SUMMARY OF KAISER FOUNDATION HOSPITALS COMMUNITY BENEFIT

STATEWIDE BENEFITS

In 2014, KFH provided a total of \$730,254,093 in Community Benefit for Californians, supporting a wide range of community projects, medical care services, and research and training for health and medical professionals. As shown in Table A (page

19), most Community Benefit funds were used to subsidize inpatient medical care services for vulnerable populations (\$553,820,294) and for health research, education, and training programs (\$113,438,221). KFHP also expended \$49,460,777 on other benefits for vulnerable populations and \$13,534,802 on projects benefiting the broader community.

BENEFITS BY HOSPITAL SERVICE AREA

Table B shows total Community Benefit contributions made in 2014 by the 35 hospitals. Totals reflect differences among hospitals, including geographic location, size, Health Plan membership, Community Benefit programs and services provided, and diversity of population. More detailed information, including individual hospital reports, is included in Chapter IV.

DESCRIPTION OF COMMUNITY BENEFIT PROGRAMS AND SERVICES

The Kaiser Permanente Community Benefit programs and related services described in this section are aligned with the SB 697 framework. Most correspond directly to the line items listed in Table A in Chapter III and Table 2 in the individual hospital sections, which include financial information for 2014.

MEDICAL CARE SERVICES FOR VULNERABLE POPULATIONS

Providing charitable care for the underinsured and uninsured, as well as services to beneficiaries of publicly financed health care programs, is an important element of the KFHP/H social mission. In 2014, KFHP spent a total of \$503,577,573 on unreimbursed medical care for vulnerable populations.

For the purpose of this plan, KFHP has quantified the unreimbursed costs of medical services provided in its hospitals to the underinsured and uninsured through government programs funded at the federal and state levels as well as Kaiser Permanente's own charity care programs. Government-funded programs include Medi-Cal Managed Care, Medi-Cal Fee-For-Service, and Healthy Families Program. KFHP provides charity care through its Charitable Health Coverage and Medical Financial Assistance programs. Services provided to prepaid Medicare, Major Risk Medical Insurance Program (MRMIP), and Access for Infants and Mothers (AIM) beneficiaries are not reported.

MEDI-CAL

KFHP serves Medi-Cal beneficiaries in two ways. Some recipients are enrolled as KFHP members through Medi-Cal managed care contracts; other Medi-Cal beneficiaries receive health care services on a fee-for-service basis. In both cases, the cost of inpatient services provided exceeds the capitation or revenue received.

- **Medi-Cal Managed Care:** KFHP provides comprehensive inpatient and outpatient care to Medi-Cal managed care members in California through various local and state government entities. In Northern California, the local initiatives and county-organized systems are Alameda Alliance, Contra Costa Health Plan, SF Health Plan, Santa Clara Family Health Plan, Partnership Health Plan of CA, Health Plan of San Mateo, Health Plan of San Joaquin, and CalViva Health. In Southern California, KFHP subcontracts with local initiatives in Los Angeles, Riverside, San Bernardino, Ventura, and Orange counties, and contracts directly with the state of California through the Geographic Managed Care Plan in San Diego County. In 2014, KFHP/H provided comprehensive inpatient and outpatient care to approximately 471,569 Medi-Cal managed care members.
- **Medi-Cal Fee-For-Service:** KFHP provides subsidized health care on a fee-for-service basis for Medi-Cal beneficiaries not enrolled as KFHP members. Reimbursement for some services usually is significantly below the cost of care and is considered subsidized care to non-member Medi-Cal fee-for-service patients.

CHARITABLE HEALTH COVERAGE PROGRAMS

Through Kaiser Permanente's Charitable Health Coverage Programs, approximately 73,927 low-income adults and children, who are ineligible for other public or private health insurance, receive subsidized coverage from Kaiser Permanente each year.

In addition, Kaiser Permanente Northern California Region also provided health coverage to 2,667 Healthy San Francisco members. Healthy San Francisco, operated by the San Francisco Department of Public Health (SFDPH), provides health care services to uninsured San Francisco residents regardless of immigration status, employment status, or pre-existing medical conditions. The 2014 Healthy San Francisco Medical Home Network consisted of SFDPH and San Francisco Community Clinic Consortium clinics, private physician groups, and other providers, including Kaiser Permanente.

MEDICAL FINANCIAL ASSISTANCE

Improving health care access for those with limited incomes and resources is fundamental to Kaiser Permanente. The Medical Financial Assistance program (MFA) helps low-income, uninsured, and underserved patients receive access to care. MFA provides temporary financial assistance or free care to patients who receive health care services from our providers, regardless of whether they have health coverage or are uninsured. MFA is open to eligible patients (members and nonmembers) who meet financial guidelines based on household size and income and have exhausted all means of private or public health care coverage. Patients apply for MFA in one or more ways, including accessing a hard copy of an application form, through Web access or an online application, or through financial counseling services. The program also includes support for community MFA programs and support for charity care programs at community hospitals. Community MFA programs are designed to enable access to health care through coordination with community-based organizations that address the health needs of the community's low income populations. In some instances, the program also provides financial resources to local community hospitals to support their charity care programs. In 2014, KFH contributed \$188,556,192 to help patients with limited or no resources pay for care provided in KFH facilities.

GRANTS AND DONATIONS FOR MEDICAL CARE SERVICES

KFH donated \$50,242,721 to nonprofit and community-based agencies in California to support the delivery of medical care by community providers. This effort is designed to provide support for community clinics and other safety net provider to build capacity for improving access and quality care infrastructure. It also extends partnerships to health departments and public hospitals. Funding areas include, but are not limited to, chronic disease management, access to specialty care, homeless services, quality improvement, access to primary care, HIV/AIDS, and general operating support.

OTHER BENEFITS FOR VULNERABLE POPULATIONS

In 2014, KFH donated \$49,460,777 to benefit vulnerable populations through a number of programs, including Educational Outreach Program, INROADS, Summer Youth, Watts Counseling and Learning Center, and grants and donations for community-based programs.

KAISER PERMANENTE EDUCATIONAL OUTREACH PROGRAM

Educational Outreach Program (EOP) provides education and support services, primarily for Latino families, in the San Gabriel Valley section of Los Angeles County. The focus of EOP is to provide programs and activities that improve school performance, promote family communication, teach skills that are needed to meet various life tasks and alleviate stress, create opportunities for the development of leadership skills for both youth and their parents so they can address issues that impact their community, and increase awareness of professional opportunities in the health field for young people. Programs offered include homework assistance and study skills classes, reading improvement classes, mother-daughter workshops, assessment of mental health needs in the community, and summer enrichment sessions. EOP provided services to a total of 1,243 clients.

KAISER PERMANENTE WATTS COUNSELING AND LEARNING CENTER

Since 1967, Watts Counseling and Learning Center (WCLC) has been a valuable community resource for low-income, inner-city families in South Los Angeles. WCLC provides mental health and counseling services, educational assistance for children with learning disabilities, and a state-licensed and nationally accredited preschool program. In addition, WCLC operates several outreach programs, including Kids Can Cope support groups (for children whose siblings or parents have cancer), pre-employment training for high school youth, scholarships for high school students, and training for graduate social work interns from local universities. In 2014, WCLC provided services to a total of 1,234 individuals.

YOUTH EMPLOYMENT PROGRAMS

KFH participates in two programs that benefit disadvantaged youth—L.A.U.N.C.H (Learn About Unlimited New Careers in Healthcare) Summer Youth Employment Program (SYEP) and L.A.U.N.C.H. College Internship Program. These programs offer employment, mentoring, and training opportunities, as well as potential full-time employment upon completion. In 2014, 583 young people were employed through them.

- ***Kaiser Permanente L.A.U.N.C.H. SYEP:*** Kaiser Permanente L.A.U.N.C.H. SYEP offers paid summer work to underrepresented youth at Kaiser Permanente facilities throughout California. Interns participate in a variety of administrative and operational support positions. In addition to their work assignments, SYEP Interns participate in educational sessions and motivational workshops to enhance job skills and work performance, and to learn about careers in health care.
- ***Kaiser Permanente L.A.U.N.C.H. College Internship Program:*** This unique program is designed to provide students with practical experience in the health care field and to offer successful participants exciting career opportunities following graduation. Kaiser Permanente is dedicated to helping underrepresented college students of color develop into a powerful, multicultural workforce that delivers quality, cost-effective, and culturally responsive care to the diverse communities we serve. Through the Kaiser Permanente L.A.U.N.C.H. College Internship Program, we are making a solid investment in developing health care leaders capable of guiding us into the future. Kaiser Permanente College Internship Program interns discover a chance to develop their skills in a supportive environment. We offer a variety of health care internships that are designed to provide the practical background, support network, and knowledge that interns will need to succeed in their chosen field.

GRANTS AND DONATIONS FOR COMMUNITY-BASED PROGRAMS

KFH donated \$27,237,587 to community organizations to support a variety of programs and services for vulnerable populations in California. Through this funding category, KFH supports Community Health Initiatives (CHI). Kaiser Permanente has a longstanding focus on healthy eating, active living (HEAL) programs and other interventions designed to combat increased obesity rates. CHI supports efforts by community providers and coalitions to implement community-wide medical, environmental, and social changes that can help decrease obesity. CHI also supports efforts that address and promote community safety.

BENEFITS FOR THE BROADER COMMUNITY

In 2014, KFH spent \$13,534,802 on programs and services to benefit the broader community, including health education and community wellness programs, Educational Theatre, donations of surplus equipment and supplies, facility use, and grants and donations that support the broader community.

COMMUNITY HEALTH EDUCATION AND HEALTH PROMOTION PROGRAMS

This program provides health education programs, materials, and services and conducts training sessions for California's diverse communities. The goal is to improve health and prevent disease in families and individuals of all ages by conducting appropriate health education interventions and by sharing Kaiser Permanente's health education resources. These programs widely disseminate quality health education materials, resources, and services to the community, including online resources such as the health encyclopedia and Healthwise Self-Care Tip Sheets. Programs offered include asthma management in children, breastfeeding, HIV prevention, better nutrition and lifestyle, coping with chronic diseases, and seniors' movement programs. Continuing Education courses and skill training sessions are also provided to community health care providers. Many of the programs and resources are provided in partnership with community groups, community clinics, libraries, nonprofit organizations, cable television channels, and schools. In 2014, Regional Health Education provided more than 300 activities—responding to requests for materials, trainings, presentations, event staffing, technical assistance, and publication development—that reached more than 224,000 community members.

KAISER PERMANENTE EDUCATIONAL THEATRE (KPET)

KPET uses live theatre, music, comedy, and drama to inspire children, teens, and adults to make healthier choices and better decisions about their well-being. Its award-winning programs are as entertaining as they are educational and were developed with the advice of teachers, parents, students, health educators, medical professionals, and skilled theatre artists. Professional actors who are also trained health educators deliver all performances and workshops. KPET programs share health information and develop individual and community knowledge about leading healthier lives. Now in its 28th year, it continues to provide programs free of charge to schools and the general community. In addition to performances and classroom workshops, KPET supplies schools and organizations with supplementary educational materials, including workbooks, parent and teacher guides, and student wallet cards. All materials are designed to reinforce the messages presented in the programs.

In 2014, KPET provided programs throughout Kaiser Permanente Northern California that align with our Community Health Initiatives. In fact, 80% of KPET's total services in 2014 were in support of CHI or other area and regional strategies. KPET staff also communicated with CB managers and area staff to discuss potential school and community partnerships. In 2014, KPET developed twelve new partnerships and served more than 297,037 children and adults through 1,144 events, which ranged from school performances and workshops to community presentations and trainings.

In NCR, KPET offered the following services in 2014 for elementary schools: *The Best Me Assembly*, a performance for grades K to 6 with a targeted focus on healthy eating and active living; *The Best Me Program*, a weeklong program encouraging healthy eating and an active lifestyle through an educator orientation, grade-specific assemblies, workshops, Family Night, and educator guides; and *Peace Signs*, a conflict resolution and violence prevention program providing multiple interventions with schools, upper elementary school students, and their families.

For middle school students, KPET offered *Nightmare on Puberty St.*, a humorous yet serious presentation about the joys and angst of adolescence. For high school students, KPET offered *Secrets*, an HIV/STIs education drama. KPET also continued to offer its highly requested Community Troupe programs – All-Star Mascot Show, Kids' Course, Mascot Ambassadors of Health and Wellness, and Lotería – as well as customized workshops and activities.

In SCR in 2014, 217,035 children and adults attended one of 1,397 KPET performances. For the past several years, KPET has provided MPOWR (empower), a summer enrichment program that challenges students to explore health via self-expression through art, music, theatre, and movement. Ongoing partnerships include WCLC, Madison Middle School in North Hollywood, and the Boys and Girls Club of Redlands. MPOWR is facilitated by KPET actor-educators and culminates with a showcase of student work at each location. The repertoire for KPET in SCR also includes the following multifaceted programs:

- The **Healthy Eating Active Living Program** (grades 4-5) is a multifaceted offering that includes the play, *Game On* and two supporting student workshops. Key topics include eating a balanced meal, choosing water over sugary beverages, the importance of active play and the power of media advertising.
- The **Adolescent Bullying Prevention Program** (grades 6-8) consists of the play, *Someone Like Me*. The program is a springboard for discussions between students and teachers, parents and trusted adults. Key topics include; rumors and gossip are a form of bullying, the prevalence of bullying using social media, and, in middle school, the developmentally appropriate choice is abstinence. At the end of each performance, the actor-educators are available to the students for one-on-one sessions and are trained to bridge students to school personnel if necessary.
- The **STD Prevention Program** (grades 9-12), *What Goes Around*, provides information about HIV, AIDS and sexually transmitted diseases (STDs). The play gives insight into the lasting impact one person's choice can make on the lives and health of many. Key topics include the option of abstinence and the importance of testing and prevention. At the end of each performance, the actor-educators facilitate a question and answer session.

GRANTS AND DONATIONS FOR THE BROADER COMMUNITY

KFH donated \$2,181,323 to nonprofit organizations to help educate health care consumers about managing their own health and making informed decisions when obtaining services; to develop, produce, and communicate health care-related public policy; and to support a variety of other programs and services aimed at the general well-being of the community.

FACILITY USAGE, SURPLUS EQUIPMENT, SUPPLIES, AND OTHER IN-KIND DONATIONS

Many community organizations use meeting rooms at KFH facilities free of charge. KFH also donates surplus hospital and office equipment, furniture, health education materials, linens, and other items and materials to nonprofit organizations throughout California.

HEALTH RESEARCH, EDUCATION, AND TRAINING PROGRAMS

KFH is committed to improving the health and well-being of community members by educating and training physicians and other health care professionals, conducting medical and health services research, and disseminating information. In 2014, KFH spent \$113,438,221 on education and training for nurses, physicians, other health care professionals, and health and nursing research.

PROVIDER EDUCATION AND TRAINING

KFH provides education and training for medical interns and residents, as well as for nurses and other health care professionals, and offers continuing medical education for SCPMG, TPMG, and general community physicians.

GRADUATE MEDICAL EDUCATION (GME)

In 2014, KFH contributed \$68,280,310 to educate more than 2,845 interns and residents in California. GME programs develop a pool of highly skilled physicians for Kaiser Permanente and the broader community. Most medical residents study within the primary care medicine areas of Family Medicine, Internal Medicine, Obstetrics and Gynecology, Pediatrics, Preventive Medicine, and Psychiatry. As part of their training, residents participate in rotations at school-based health centers, community clinics, and homeless shelters.

COMMUNITY MEDICINE FELLOWSHIP

The Community Medicine Fellowship is implemented by the SCR Residency Program to provide care for underserved populations. Fellows provide direct patient care and mentor residents and medical students in the provision of care in a variety of settings, including community health clinics, homeless shelters, and local schools. Program participants collaborate with local health department physician leaders to develop programs that address community health concerns and provide lectures for local medical students with the focus on inspiring interest in the provision of primary care.

OLIVER GOLDSMITH SCHOLARSHIP PROGRAM

The Oliver Goldsmith Scholarship Program in SCR is dedicated to the promotion and advancement of culturally responsive care. Fourteen scholarships are awarded annually to medical students entering their third or fourth year of study who have demonstrated commitment to diversity through community service, clinical volunteerism, leadership, or research. Scholarship recipients participate in clinical rotations at Kaiser Permanente facilities to observe SCPMG how physicians deliver culturally responsive care.

NURSING EDUCATION AND TRAINING

KFH offers several programs, many in partnership with colleges and universities, to increase the number of registered nurses and those with advanced nursing degrees.

KAISER PERMANENTE SCHOOL OF ANESTHESIA FOR NURSES

Founded in 1972, the school provides graduate-level education for nurse anesthetists. In partnership with California State University, Fullerton, the school offers a two-year sequential academic and clinical graduate program for nurses with a

baccalaureate degree. Students earn a master of science in nursing with a clinical specialty in anesthesia. In 2014, there were 69 student participants. In SCR, the school has partnerships with a number of public and community hospitals to provide additional clinical rotation opportunities for students. Scholarships for students are available through National Black Nurses Association and American Association of Nurse Anesthetists Foundation. In addition, the school partnered with Pasadena City College to develop the first anesthesia technician associate degree program in the nation. The anesthesia technician program prepares students for eligibility to take and pass the American Society of Anesthesia Technologists and Technicians (ASATT) National Certification Examination to become certified as an anesthesia technologist. A certificate of achievement and an associate of science degree are awarded upon successful completion of the curriculum. Eleven students participated in the program in 2014.

CALIFORNIA NURSING ANESTHESIA COLLABORATIVE PROGRAM – (CNACP)

CNACP provides education and financial assistance to students pursuing a master's degree in nurse anesthesia. CNACP faculty (clinical and academic) are graduates of the Samuel Merritt University (SMU) program and serve as resources for lifelong learning within perioperative medicine departments throughout NCR. In 2014, 391 students participated in the program.

KAISER PERMANENTE DELORAS JONES NURSING SCHOLARSHIP PROGRAM

Kaiser Permanente provides financial assistance to students enrolled in California nursing programs. The scholarships encourage and support recipients to become registered nurses or to pursue advanced nursing degrees. Scholarships are based primarily on financial need and are awarded in several categories: underrepresented minorities, academic excellence, nursing as a second career, and graduate nursing degrees. In 2014, 202 scholarships totaling \$361,000 were awarded.

NARROWING THE STUDENT NURSE PREPARATION PRACTICE GAP PROGRAM

In Southern California, this work-study program partners with university and college nursing programs to improve clinical outcomes and assist with professional growth. Senior students incorporated curriculum study with clinical experiences with nursing professional partners and regional education residents to narrow the student nurse preparation to practice gap. In 2014, a total of 83 students were assigned to KFH-Downey and KFH-San Diego facilities. Academic partners included but were not limited to Grossmont Community College, Mira Costa Community College, Point Loma Nazarene University, San Diego State University, San Diego City College, and Santa Monica Community College. In 2014, a total of 83 students were assigned to KFH-Downey and KFH-San Diego facilities. Academic partners included but were not limited to Grossmont Community College, Mira Costa Community College, Point Loma Nazarene University, San Diego State University, San Diego City College, and Santa Monica Community College.

TECHNICAL PROVIDER EDUCATION AND TRAINING

KFH provides postgraduate education and training, including internships, to non-physician health care professionals in medical technology, pharmacy, physical therapy, psychology, and radiology. The programs are administered regionally. Some programs offer students a small monthly stipend.

KAISER PERMANENTE SCHOOL OF ALLIED HEALTH SCIENCES – (KPSAHS)

KPSAHS is located in Richmond, California and was established in 1989 as a radiology program in response to the severe shortage of radiologic technologists. KPSAHS eventually expanded the school to include 18-month programs in sonography, nuclear medicine, and radiation therapy. In addition, the school provides courses in anatomy and physiology and advanced/basic phlebotomy. KPSAHS offers educational programs and promotes learning to develop a skilled allied health workforce and to improve the quality of and access to health care services in the communities we serve.

KAISER PERMANENTE MENTAL HEALTH TRAINING PROGRAM

In Northern California, Kaiser Permanente's Mental Health Training Programs train mental health professionals and provide internships and residencies in a variety of postgraduate specialty areas. Internships in pre and post-master's level mental health services include Clinical Social Work and Marriage & Family Therapy (MFT). Participating interns are enrolled in or have completed either a master degree program in Social Work (MSW), or a master's degree program in Counseling Psychology, leading to an MFT license. Internships in Psychology require enrollment in American Psychological Association

(APA)-accredited Ph.D., Psy.D. or Ed.D. programs in Counseling or Clinical Psychology. Postdoctoral residencies in Psychology require completion of Ph.D., Psy.D., or Ed.D. degrees in APA-accredited programs. Interns and residents receive individual and group supervision, participate in didactic seminars, and receive training in the delivery of outpatient mental health and chemical dependency services.

KAISER PERMANENTE PHARMACIST RESIDENCY PROGRAMS

Pharmacy residency programs provide one- and two-year postgraduate education and training programs to licensed pharmacists to gain additional experience and training in pharmaceutical care and administrative pharmacy services. Kaiser Permanente annually accepts students into its American Society of Health System Pharmacist or Academy of Managed Care Pharmacy accredited pharmacy residency programs, including standard post-graduate year-one programs to specialized programs in managed care, drug information, and drug distribution. The programs enable residents to meet the legal requirements in California for collaborative practice for initiating and adjusting prescription medication therapy under physician approved protocols and patient referrals. In 2014, Kaiser Permanente trained 118 students.

KAISER PERMANENTE PHYSICAL THERAPY FELLOWSHIP IN ADVANCED ORTHOPEDIC MANUAL THERAPY PROGRAM

Established in 1979 at KFH-Hayward in Northern California, this is the oldest program of its kind in the country and attracts therapists from across the nation to participate in advanced specialty training in orthopedic physical therapy. Graduates serve as clinical specialists, academic faculty, instructors for community courses, and consultants to industry.

KAISER PERMANENTE PHYSICAL THERAPY NEUROLOGY RESIDENCY

The Neurology Physical Therapy (PT) program trains neurologic residents to acquire the advanced clinical skills required to treat and manage patients with complex neurological diagnoses across the continuum of care. Neurologic PT residents participate in rotations at acute hospital inpatient, rehabilitation centers, and outpatient departments, and community clinics.

KAISER PERMANENTE PHYSICAL THERAPY CLINICAL INTERNSHIPS

This program delivers training and education to students by providing space in Kaiser Permanente-sponsored clinical training seminars and by partnering with established university training programs. Students receive education on pediatrics, sports medicine, women's health, chronic pain, autism, speech disorders, neurological physical therapy, geriatrics and orthopedics. In 2014, 361 physical therapy, occupational therapy, and speech therapy students received clinical training.

KAISER PERMANENTE PHYSICAL THERAPY ORTHOPEDIC FELLOWSHIP PROGRAM

This residency program provides education in the specialty area of orthopedic physical therapy. In 2014, the program offered 25 physical therapy residency slots at KFH hospitals in Southern California. Residents, fellows, and clinical faculty provide physical therapy services for patients. Graduates are eligible to sit for their board certification examination in orthopedic physical therapy, and apply to participate in a physical therapy fellowship program.

KAISER PERMANENTE ORTHOPEDIC FELLOWSHIP IN SPORTS REHABILITATION

This fellowship program provides education in the specialty area of sports physical therapy and rehabilitation, with a focus on advanced training in examination techniques and treatment procedures for extremity injuries in an active and post-surgical patient population with musculoskeletal conditions. There are six Orthopedic/Sports Rehabilitation Fellow slots at KFH hospitals in Southern California.

KAISER PERMANENTE SPINE REHABILITATION FELLOWSHIP PROGRAM

This fellowship program provides education in the specialty area of spine physical therapy and rehabilitation, with a focus on advanced training in examination and treatment techniques procedures and management of acute through chronic spine injuries in a patient population with musculoskeletal conditions. There are six Spine Rehabilitation fellow slots at KFH hospitals in Southern California.

KAISER PERMANENTE CLINICAL PSYCHOLOGY INTERNSHIP TRAINING PROGRAMS

This program is conducted through the Department of Psychiatry and Addiction Medicine in SCR. Pre-doctoral students enroll in the internship training programs to augment their educational experience by working in a high-quality educational environment, by having direct responsibility (under the supervision of licensed staff) for patients selected from a large and varied patient base, and by working with a multidisciplinary staff. The goal is to transition the intern from student to professional by providing training in the roles and functions of clinical psychologists. Accredited by the American Psychiatric Association's Committee on Accreditation, the program employs a multi-supervisor training process that gives interns training, supervisory, and mentoring experiences with licensed staff members of varying theoretical backgrounds and areas of expertise. KFH-Los Angeles and KFH-San Diego participate in the program with four interns in Los Angeles and eight in San Diego.

KAISER PERMANENTE RADIOLOGY TRAINING PROGRAM

Students enrolled in local community college radiology technology programs can complete their one-year clinical rotation, a requirement for certification, at KFH facilities in Southern California. The program served 170 students in 2014.

ADVANCED PRACTICE AND ALLIED HEALTH CARE EDUCATIONAL PROGRAMS

The Southern California Department of Professional Education offers educational programs designed to meet many of the primary and continuing educational needs of certified nurse anesthetists, nurse practitioners, physician assistants, certified nurse-midwives, physical therapists, occupational therapists, clinical laboratory specialists, radiology technologists, registered nurses, speech pathologists, social workers, and marriage and family counselors. In 2014, approximately 545 community participants attended one of 11 Continuing Education programs and/or symposia.

HIPPOCRATES CIRCLE

This program was designed to increase the number of minority physicians in the medical field, especially in underserved communities, by building awareness in young men and women who are members of underrepresented minority groups that a career in medicine, especially as a physician, is possible. Through the collaborative efforts of school districts, medical schools, and Kaiser Permanente physicians and staff, Hippocrates Circle strengthens the self-esteem of young people and empowers them to pursue their goals through mentorship, education, and facilitated experience. In 2014, 885 students participated in the program at various KFH locations in Southern California.

GRANTS AND DONATIONS FOR THE EDUCATION OF HEALTH CARE PROFESSIONALS

KFH spent \$2,998,373 to support the training and education of health care professionals in California. Contributions were made to a variety of nonprofit agencies and academic institutions.

HEALTH RESEARCH

Kaiser Permanente has a long history of conducting health services and medical research that address issues regarding health care policy, quality of care, and quality of life. The results have yielded findings that affect the practice of medicine within the broader health care community. In California, KFH operates three large research departments: NCR's Division of Research, established in 1961; SCR's Department of Research and Evaluation, founded in the early 1980s; and Kaiser Foundation Research Institute. In addition, KFH funds other research-related projects and programs such as nursing research.

DIVISION OF RESEARCH (DOR)

The Division of Research (DOR), Kaiser Permanente Northern California's highly regarded research center, conducts, publishes, and disseminates high-quality epidemiological and health services research to improve the health and medical care of Kaiser Permanente members and society at large. DOR conducts research among the 3+ million Kaiser Permanente members of Northern California using interviews, automated data, medical records, and clinical examinations. DOR researchers have contributed more than 3,000 papers to the medical and public health literature. Research projects encompass epidemiologic and health services studies as well as clinical trials and program evaluations. They cover a wide range of topics including cardiovascular disease, cancer, diabetes, substance abuse, mental health, maternal and child health,

women's health, health disparities, pharmaco-epidemiology, and studies of the impact of changing health care policy and practice. DOR has more than 50 research scientists, who work closely with local research institutions and organizations, including the California State Department of Health Services, University of California at Berkeley, San Francisco and Davis, and Stanford University. DOR works with Kaiser Permanente Community Benefit Programs (KPCBP) to enhance communication and collaboration between DOR and Kaiser Permanente members, community residents and other key stakeholders. Financial and other support provided by KPCBP have enabled DOR to sponsor research studies on topics which directly align with KPCBP priorities, to attract additional private funding and improve community engagement and participation in DOR activities, and to develop unique and significant resources in the Comprehensive Clinical Research Unit (CCRU) and Research Program on Genes, Environment and Health (RPGEH).

DEPARTMENT OF RESEARCH AND EVALUATION

The Department of Research and Evaluation supports Kaiser Permanente physicians and employees in conducting research through the provision of consultative, educational, and administrative services. Research and Evaluation conducts research projects initiated by team members working within the unit and in collaboration with scientists affiliated with other institutions. In 2014, there were 988 active projects and 360 published studies of regional and/or national significance.

KAISER FOUNDATION RESEARCH INSTITUTE (KFRI)

KFRI provides administrative services for medical research conducted in all Kaiser Permanente regions and is responsible for compliance with federal regulations that govern the administration and implementation of research.

NURSING RESEARCH PROGRAM

NCR's program was established to improve the health and well-being of Kaiser Permanente members and the community at-large. The nurse scientist-director supports these goals by developing and maintaining the structure and function of the Nursing Research Program to:

- Advance clinical research and evidence-based nursing practice
- Expand partnerships and program visibility
- Promote projects that are aligned with Community Benefit work stream priorities
- Maintain compliance with Protection of Human Subjects Federal Regulations and HIPPA

The Nursing Research Program provides outreach to the community at large through a website, bimonthly WebEx meeting programs, bimonthly newsletters, and the Northern California Nursing Research blog. In addition, nurses receive consultation, administrative, and technical support to conduct, publish, and disseminate research findings that improve patient care and nursing practices and contribute to the knowledge of nursing science.

In Southern California, there were 121 new, continuing, and/or completed Nursing Research Program projects and 27 studies published in 2014. Current areas of research include nursing workforce and leadership, instrument development and validation, and quality of life issues.

ENDNOTES

- ¹ Amount includes hospital-specific, unreimbursed expenditures for Medi-Cal Managed Care members and Medi-Cal Fee-for-Service beneficiaries on a cost basis.
- ² Amount includes hospital-specific, unreimbursed expenditures for Other Plan members and unreimbursed inpatient expenditures for the Kaiser Permanente Child Health Program subsidy on a cost basis.
- ³ Amount includes unreimbursed care provided at this facility to patients who qualify for the Medical Financial Assistance and Indigent Care programs on a cost basis.
- ⁴ Figures reported in this section for grants and donations for medical services consist of charitable contributions to community clinics and other safety-net providers; community health partnerships and collaboratives; and special Request for Proposals to support specific health issues such as childhood obesity, asthma, etc. The amount reported reflects hospital-specific, unreimbursed expenditures. When hospital-specific expenditures were not available, dollars were allocated to each hospital based on the percentage of Health Plan members.
- ⁵ Watts Counseling and Learning Center's service expenses are divided among three hospitals: KFH-Los Angeles, KFH-West Los Angeles, and KFH-Downey.
- ⁶ Figures reported in this section are hospital-specific, unreimbursed expenditures. When hospital-specific expenditures were not available, dollars were allocated to each hospital based on the percentage of Health Plan members, or a related denominator such as the number of Summer Youth students hired.
- ⁷ Figures reported in this section for grants and donations for community-based programs consist of charitable contributions made to external nonprofit organizations for a variety of programs and services that address the nonmedical needs of vulnerable populations. The amount reflects hospital-specific, unreimbursed expenditures. When hospital-specific expenditures were not available, dollars were allocated to each hospital based on the percentage of Health Plan members.
- ⁸ The amount reflects the costs related to providing a dedicated community benefit department and related operational expenses.
- ⁹ Figures reported in this section are hospital-specific, unreimbursed expenditures. When hospital-specific expenditures were not available, dollars were allocated to each hospital based on the percentage of Health Plan members, or a number of related denominators such as the number of Educational Theatre performances or health education programs.
- ¹⁰ Amount represents the estimated value of, but is not limited to, donated surplus office and medical supplies, equipment and furniture, promotional giveaways, in-kind services, and conference meeting room usage, as recorded in the MicroEdge GIFTS database.
- ¹¹ Figures reported in this section for grants and donations for the broader community consist of charitable contributions made to external nonprofit organizations to educate health care consumers in managing their own health and making informed decisions when obtaining services; and to develop, produce, or communicate health care-related public policy information for a variety of programs and services aimed at general well-being of the community. The amount reflects hospital-specific, unreimbursed expenditures. When hospital-specific expenditures were not available, dollars were allocated to each hospital based on the percentage of Health Plan members.
- ¹² Amount reflects the net expenditures after tuition reimbursement for health professional education and training programs.
- ¹³ Figures reported in this section for grants and donations for the education of health care professionals consist of charitable contributions made to external nonprofit organizations, colleges, and universities to support the training and education of students seeking to become health care professionals such as physicians, nurses, physical therapists, social workers, pharmacists, etc. The amount reflects hospital-specific, unreimbursed expenditures. When hospital-specific expenditures were not available, dollars were allocated to each hospital based on the percentage of Health Plan members.

CHAPTER IV: 2014 YEAR-END RESULTS AND 2014–2016 COMMUNITY BENEFIT PLANS

INTRODUCTION

During 2013, local staff at the 35 KFH hospitals in California conducted a CHNA and developed a community benefit plan. For the first time, these CHNAs and community benefit plans were developed in compliance with new federal tax law requirements set forth in Internal Revenue Code section 501(r), which requires hospital facilities owned and operated by an organization described in Code section 501(c)(3) to conduct a CHNA at least once every three years and to develop and adopt an implementation strategy (in the parlance of SB697, aka community benefit plan) to meet the community health needs identified through the CHNA. What follows is a brief description of the development of the triennial CHNA and the resulting community benefit plan as required by SB697.

COMMUNITY HEALTH NEEDS ASSESSMENT

The Patient Protection and Affordable Care Act (ACA), enacted on March 23, 2010, added new requirements, which nonprofit hospital organizations must satisfy to maintain their tax-exempt status under section 501(c)3 of the Internal Revenue Code. One such requirement added by ACA, Section 501(r) of the Code, requires nonprofit hospitals to conduct a CHNA at least once every three years. As part of the CHNA, each hospital is required to collect input from designated individuals in the community, including public health experts as well as members, representatives or leaders of low-income, minority, and medically underserved populations and individuals with chronic conditions.

While Kaiser Permanente has conducted CHNAs for many years to identify needs and resources in our communities and to guide our Community Benefit plans, the new legislation provided an opportunity to revisit our needs assessment and strategic planning processes with an eye toward enhanced compliance and transparency and leveraging emerging technologies. The CHNA process undertaken in 2013 complies with both federal requirements and SB 697 legislation.

Many KFH hospitals collaborate with community partners and/or engage a consultant to help design and implement the CHNA. Those that work collaboratively partner with a variety of entities, including community-based and faith-based organizations, hospitals, clinics, schools, churches, social service agencies, government agencies, elected officials, and other community stakeholders. KFH entities provide financial support, donate in-kind services, and/or deliver technical expertise to support the CHNA collaboration. Collaborative members participate in the overall planning and implementation of the CHNA, which includes developing quantitative and qualitative data collection strategies.

To ensure that the CHNA yields results that are as meaningful, usable, accurate, and locally specific as possible, many KFH entities use at least one of the following mechanisms to collect primary data about the communities they serve:

- *Focus groups:* This is a form of qualitative research in which a select group of people (providers, community members, community stakeholders, etc.) are asked about their perceptions, opinions, beliefs, and attitudes regarding a specific issue, service, concept, idea, etc. In the CHNA process, focus groups are typically designed to solicit information about health care issues, needs, concerns, and services in the community and are sometimes conducted in more than one language.
- *Telephone surveys or one-on-one interviews:* Whether conducted by telephone, electronically, or in person, these interviews—often with community health providers, county health officers, or other key stakeholders—are designed to gather input from those with the requisite experience and/or expertise about health care issues, needs, concerns, and services in the community. In some cases, participants receive a questionnaire in advance of the interview.
- *Site visits with grantees:* Community Benefit grantees can provide valuable input and insight about the vulnerable populations they serve, including high-risk teens, refugees and immigrants, seniors, and HIV-positive individuals. As such, grant makers often schedule onsite visits with grantees to get a first-hand look at how grant funds are making an impact. They meet with the grantee's administrators, staff, volunteers, and/or clients/patients.

In addition to primary data collection and analysis, the CHNA collaborative and/or the consultant researches existing data sources for relevant demographic and health-related statistics. Kaiser Permanente created a free, web-based data platform (www.chna.org/kp) to facilitate access to and analysis of relevant secondary data. The platform provided local data on demographics, social and economic factors, the physical environment, clinical care, health behaviors, and health outcomes. Sources for data available on the platform include, but are not limited to:

- U.S. Census Bureau
- Centers for Disease Control and Prevention (e.g., Behavioral Risk Factor Surveillance System)
- U.S. and California Departments of Education
- U.S. Department of Agriculture
- Walkscore.com 2012
- California Health Interview Survey (CHIS)
- U.S. Health Resources and Services Administration
- California Office of Statewide Health Planning and Development (OSHPD), Patient Discharge Data, 2010
- California Department of Public Health

Once the community's health problems and assets are identified through the CHNA data collection and analysis process, relevant stakeholders in each collaborative convene to discuss and analyze the information and to prioritize community health needs based on a set of criteria that included:

- Severity of issue/degree of poor performance against the benchmark
- Clear disparities/inequities
- Issue is getting worse over time/not improving
- Community prioritizes the issue over other issues
- Existing attention/resources dedicated to the issue
- Effective and feasible interventions exist
- A successful solution has the potential to solve multiple problems
- Opportunity to intervene at the prevention level

The CHNA report for each KFH hospital is posted on the [Kaiser Permanente Share Site](#).

COMMUNITY BENEFIT PLAN DEVELOPMENT

Information from the CHNA provides the foundation for how each local KFH hospital will work to improve the health status of the community through a strategic, three-year community benefit plan. Following the CHNA process, each KFH hospital convenes a committee of stakeholders to further discuss and analyze the CHNA findings with a particular focus on selecting the health needs the hospital will focus on. Planning committees include hospital administrative staff from various disciplines (e.g. medical, nursing, administrative, finance, labor, and marketing). These stakeholders help select the health needs that the KFH hospital will address using an established set of criteria, which, at a minimum, included the following:

- Magnitude/scale of the problem
- Severity of the problem
- Degree of racial/ethnic disparity
- Kaiser Permanente assets and expertise available
- Existing or promising approaches exist to address the need

Once health needs are selected, local CB staff and committees develop a community benefit plan. As part Kaiser Permanente's integrated health system, KFH hospitals have a long history of working with KFHP, TPMG, SCPMG, and

other KFH hospitals, as well as external stakeholders to identify, develop, and implement strategies to address community health needs. These strategies are developed so that they:

- Are available broadly to the public and serve low-income consumers.
- Reduce geographic, financial, and/or cultural barriers to accessing health services, and if they were no longer in place would result in access problems.
- Address federal, state, or local public health priorities
- Leverage or enhance public health department activities
- Advance increased general knowledge through education or research that benefits the public
- Address needs that would otherwise become the responsibility of the government or another tax-exempt organization

KFH hospitals are committed to enhancing their understanding of how best to develop and implement effective strategies to address community health needs and recognize that good health outcomes cannot be achieved without joint planning and partnerships with community stakeholders and leaders. As such, KFH hospitals continue to work in partnership to refine their goals and strategies over time so that they can most effectively address the identified needs.

Each KFH hospital will monitor and evaluate its proposed strategies to track implementation of those strategies and to document the anticipated impact. Monitoring plans will be tailored to each strategy and will include the collection and documentation of tracking measures, such as the number of grants made, amount of dollars spent, number of people reached/served, number and role of volunteers, and volunteer hours. In addition, KFH hospitals will require grantees to propose, track, and report outcomes, including behavior and health outcomes as appropriate. For example, outcome measures for a strategy that addresses obesity/overweight by increasing access to physical activity and healthy eating options might include number of students walking or biking to school, access to fresh locally grown fruits and vegetables at schools, or number of weekly physical activity minutes.

OUTLINE OF HOSPITAL SECTION

The rest of this chapter contains, in alphabetical order, a narrative section for each of the 35 hospitals. Each hospital section contains the following information:

- A community snapshot, a few facts about the facility, and a list of key local leaders.
- A map of the service area.
- 2014 metrics for select programs in the CB portfolio, presented at the hospital level (Table 1).
- Quantified Community Benefit provided in 2014, presented at the hospital level (Table 2).
- A list of the prioritized needs identified during the 2013 CHNA and a link to the 2013 CHNA report.
- Year-end results for Community Benefit activities and programs provided in 2014, including highlights of key local and regional grants, partnerships, and other efforts to address the prioritized needs outlined in the 2014-2016 Community Benefit Plan

Additional information about each hospital may be obtained by contacting the local Kaiser Permanente Public Affairs Department or Regional Community Benefit staff in either Northern California (510-625-6188) or Southern California (626-405-6271).

KAISER FOUNDATION HOSPITAL-WEST LOS ANGELES

2014 Key Community Benefit Program Metrics

(For more information about these and other Community Benefit programs and services, please see pages 8 through 16 in Chapter III.)

Charity Care: Medical Financial Assistance Program recipients	8,462
Charity Care: Charitable Health Coverage Program – Kaiser Permanente Other Plan members	1,290
Medi-Cal managed care members	15,126
Community Surgery Day patients	22
Health Research projects (new, continuing, and completed)	22
Nursing Research projects (new, continuing, and completed)	6
Educational Theatre – number of performances and workshops	95
Educational Theatre – number of attendees (students and adults)	12,649
Graduate Medical Education – number of programs	2
Graduate Medical Education – number of affiliated and independent residents	28
Deloras Jones nursing scholarship recipients	13
Other health professional training and education (non-MD) beneficiaries	31
Hippocrates Circle students	31
Summer Youth and INROADS programs participants	34
Community Learning Program – Watts Counseling and Learning Center beneficiaries	411
Number of 2014 grants and donations made at the local and regional levels ¹	164

¹The vast majority of regional grants impact three or more hospitals. As such, a single regional grant may be included in the “Number of 2014 grants and donations” count for multiple hospitals.

Table 2

KAISER FOUNDATION HOSPITAL-WEST LOS ANGELES

COMMUNITY BENEFIT RESOURCES PROVIDED IN 2014

	2014 Totals
Medical Care Services for Vulnerable Populations	
Medi-Cal shortfall ¹	\$12,603,197
Charity care: Charitable Health Coverage programs ²	713,585
Charity care: Medical Financial Assistance Program ³	9,481,076
Grants and donations for medical services ⁴	563,214
Subtotal	\$23,361,072
Other Benefits for Vulnerable Populations	
Watts Counseling and Learning Center ⁵	\$1,038,574
Educational Outreach Program	0

TABLE 2 ENDNOTES

- 1 Amount includes hospital-specific, unreimbursed expenditures for Medi-Cal Managed Care members and Medi-Cal Fee-for-Service beneficiaries on a cost basis.
- 2 Amount includes hospital-specific, unreimbursed expenditures for Other Plan members and unreimbursed inpatient expenditures for Kaiser Permanente Child Health Plan subsidy on a cost basis.
- 3 Amount includes unreimbursed care provided at this facility to patients who qualify for the Medical Financial Assistance and Indigent Care programs on a cost basis.
- 4 Figures reported in this section for grants and donations for medical services consist of charitable contributions to community clinics and other safety-net providers; community health partnerships and collaboratives; and special Request for Proposals to support specific health issues such as childhood obesity, asthma, etc. The amount reported reflects hospital-specific, unreimbursed expenditures. When hospital-specific expenditures were not available, dollars were allocated to each hospital based on the percentage of Health Plan members.
- 5 Watts Counseling and Learning Center’s service expenses are divided among three hospitals: KFH-Los Angeles, KFH-West Los Angeles, and KFH-Downey.
- 6 Figures reported in this section are hospital-specific, unreimbursed expenditures. When hospital-specific expenditures were not available, dollars were allocated to each hospital based on the percentage of Health Plan members, or a related denominator such as the number of Summer Youth students hired.
- 7 Figures reported in this section for grants and donations for community-based programs consist of charitable contributions made to external nonprofit organizations for a variety of programs and services that address the nonmedical needs of vulnerable populations. The amount reflects hospital-specific, unreimbursed expenditures. When hospital-specific expenditures were not available, dollars were allocated to each hospital based on the percentage of Health Plan members.
- 8 The amount reflects the costs related to providing a dedicated community benefit department and related operational expenses.
- 9 Figures reported in this section are hospital-specific, unreimbursed expenditures. When hospital-specific expenditures were not available, dollars were allocated to each hospital based on the percentage of Health Plan members, or a number of related denominators such as the number of Educational Theatre performances or health education programs.
- 10 Figures reported in this section for grants and donations for the broader community consist of charitable contributions made to external nonprofit organizations to educate health care consumers in managing their own health and making informed decisions when obtaining services; and to develop, produce, or communicate health care-related public policy information for a variety of programs and services aimed at general well-being of the community. The amount reflects hospital-specific, unreimbursed expenditures. When hospital-specific expenditures were not available, dollars were allocated to each hospital based on the percentage of Health Plan members.
- 11 Amount reflects the net expenditures after tuition reimbursement for health professional education and training programs.
- 12 Figures reported in this section for grants and donations for the education of health care professionals consist of charitable contributions made to external nonprofit organizations, colleges, and universities to support the training and education of students seeking to become health care professionals such as physicians, nurses, physical therapists, social workers, pharmacists, etc. The amount reflects hospital-specific, unreimbursed expenditures. When hospital-specific expenditures were not available, dollars were allocated to each hospital based on the percentage of Health Plan members.

THE 2013 COMMUNITY HEALTH NEEDS ASSESSMENT SUMMARY AND FINDINGS

2013 COMMUNITY HEALTH NEEDS ASSESSMENT SUMMARY

The KFH-West Los Angeles 2013 Community Health Needs Assessment (CHNA) is posted on the internet at www.kp.org/chna (the [Kaiser Permanente Share Site](#)). A detailed explanation of the CHNA process is included in the introductory section (Chapter IV) of the full SB 697 report.

LIST OF COMMUNITY HEALTH NEEDS IDENTIFIED IN THE CHNA REPORT FOR THE KFH-WEST LOS ANGELES SERVICE AREA

The list below summarizes the health needs identified for the KFH-West Los Angeles service area through the 2013 CHNA process:

- Mental health
- Diabetes
- Oral health
- Cancer, in general
- Intentional injury
- Asthma
- HIV/AIDS
- Alcohol and substance abuse
- Chlamydia
- Unintentional injury
- Allergies
- Infant mortality
- Obesity/overweight
- Cardiovascular disease
- Hypertension
- Cholesterol
- Cervical cancer
- Breast cancer
- Vision
- Colorectal cancer
- Alzheimer's disease
- Podiatry
- Arthritis

HEALTH NEEDS THAT KFH-WEST LOS ANGELES PLANS TO ADDRESS

1. CHRONIC DISEASE PREVENTION

Chronic disease prevention and management, with an emphasis on obesity, diabetes, and cardiovascular disease (including hypertension and cholesterol), and asthma. The prevalence of chronic conditions and/or patient noncompliance to chronic health management programs was identified as a key need in the KFH-West Los Angeles service area, specifically related to obesity, diabetes, cardiovascular disease, and asthma. Nearly one-third (31.3%) of adults in the service area were overweight, compared to 29.7% in Los Angeles County. Service area obesity rates were also higher (22.5%) in comparison to the county (21.2%). Diabetes prevalence in the KFH-West Los Angeles service area (19.1%) was nearly twice the county rate (10.5%). In addition, the number of adults experiencing diabetes-related hospitalizations was significantly higher (200.2 per 100,000 persons) than the county rate (145.6). The heart disease hospitalization rate (1,129.9 per 100,000 persons) in the service area was more than three times the county rate (367.1). In addition, the cardiovascular disease mortality rate (19.6 per 10,000 adults) was higher compared to the county rate (15.6) and more than 28% of service area adults have been diagnosed with high blood pressure. Asthma hospitalization rates, which can indicate a lack of chronic disease management, are higher (129.3 per 100,000 adults) in the service area than in the county (94.3). While asthma was not identified as a priority need during the prioritization

process, initially receiving a ranking of limited need and feasibility, during the facilitated discussion, KFH-West Los Angeles identified it as a need to be incorporated within its priority of chronic disease management.

2. ACCESS TO MENTAL HEALTH

Access to mental health and intervention programs, with an emphasis on youth well-being and the prevention of alcohol and substance abuse, violence, and homelessness. Good mental health is essential to the overall health and well-being of individuals and their communities. Untreated disorders may leave individuals at-risk for substance abuse, self-destructive behavior, and suicide. In addition, mental health disorders can have a serious impact on physical health and are associated with the prevalence, progression, and outcome of chronic diseases. In the KFH-West Los Angeles service area, the percentage of people needing help for mental/emotional/alcohol-drug related issues who did not receive treatment (84.5%) was nearly double the county rate (47.3%). Mental health-related adult hospitalizations in the KFH-West Los Angeles service area (2,281.1 per 100,000 persons) were much higher than the statewide rate (551.7). The service area's suicide rate (8.7 per 100,000 persons) was also higher than the county rate (8.0).

Recognizing that they contribute significantly to poor mental health, KFH-West Los Angeles seeks to prioritize youth well-being and the prevention of alcohol and substance abuse, violence, and homelessness in addressing this health need. In the KFH-West Los Angeles service area, the hospitalization rate of youth for mental health issues (268.7 per 100,000 persons) was higher compared to the state average (256.4) and the alcohol/drug-induced mental disease hospitalization rate (480 per 100,000 persons) is notably higher than the state average (109.1). The KFH-West Los Angeles service area experiences high rates of violence (i.e., intentional injury). In addition to the above noted prevalence of suicide, the homicide rate for the service area was 12.4 per 100,000 persons, markedly higher than the Los Angeles County rate (7.0), the statewide rate (5.15), and the Healthy People 2020 target (≤ 5.5). Homelessness further contributes to poor mental health. More than half of the county's homeless population (30,606 or 67%) resides in the four SPAs (4, 5, 6 and 8) that comprise the KFH-West Los Angeles service area and its surrounding communities.

In the prioritization process, violence/intentional injury was not identified as a priority need through the need/feasibility process. Though intentional injury received a ranking of high need; feasibility was more limited. However, KFH-West Los Angeles recognizes that poor mental health is influenced by and contributes to the prevalence of intentional injury (i.e., suicide and homicide). Therefore KFH-West Los Angeles decided to adopt strategies to address violence/intentional injury as a need under the umbrella of mental health.

3. ACCESS TO HEALTH CARE

Access to health care, diagnostic and preventive services, with an emphasis on HIV-AIDS, chlamydia, and cancer. Lack of insurance is a key barrier to health care access. With implementation of the Affordable Care Act in January 2014, a significant number of individuals who are currently uninsured now have new options for coverage and access to health care. However, access barriers will persist for some low-income populations, particularly those for whom the cost of premiums is beyond their reach or they are ineligible due to immigration or documentation status. Even with insurance, access is not guaranteed for some populations, including those with Medicare, Medi-Cal, etc. and those with geographic or language barriers.

Within the KFH-West Los Angeles service area, access to specialty care related to the prevention and management of HIV-AIDS, chlamydia, and certain cancers was identified through the needs identification process as health outcomes the hospital will specifically target. In the KFH-West Los Angeles service area, the HIV prevalence rate (21.8 per 100,000 persons) was significantly higher than the county rate (14.0) and the rate of HIV-related hospitalizations (35.0 per 100,000 persons) in the service area was more than three times the statewide rate (11.0). Chlamydia rates in the service area are higher (538.7 per 100,000 persons) when compared to the county rate (455.1). The cervical cancer incidence rate (9.8 per 100,000 women) was higher than statewide (8.3) and national (8.0) rates and exceeded the Healthy People 2020 goal (≤ 7.1). In addition, the percentage of women who had a cervical cancer screening in the last three years is lower in the service area (67.6%) than the Healthy People 2020 goal ($\geq 93\%$). Colorectal cancer incidence rates per 100,000 persons are higher in the KFH-West Los Angeles service area (45.2) than the Healthy

People 2020 goal (≤ 38.6) and mortality rates (13.5 per 100,000 persons) are higher when compared to the county rate (11.2). Colorectal cancer screenings in the service area (66.5%) fall below the Healthy People 2020 goal ($\geq 70.5\%$).

In the prioritization process, cancer, including breast cancer, cervical cancer, and colorectal cancer, was not identified as a priority need through the need/feasibility ranking described above. Though all cancers initially received a ranking of high need and limited feasibility, through the facilitated discussion, KFH-West Los Angeles identified cancer as a need to be incorporated within its access to care priority.

4. BROADER HEALTH CARE SYSTEM NEEDS IN OUR COMMUNITIES

Kaiser Foundation Hospitals, which includes 37 licensed hospital facilities as of 2013, has identified a number of significant needs in addition to those identified above through the CHNA process that we are committed to addressing as part of an integrated health care delivery system. These needs, which are manifest in each of the communities we serve, include 1) health care workforce shortages and the need to increase linguistic and cultural diversity in the health care workforce and 2) access to and availability of robust public health and clinical care data and research.

Supporting a well-trained, culturally competent, and diverse health care workforce helps ensure access to high-quality care. This activity is also essential to making progress in the reduction of health care disparities that persist in most of our communities. Individuals trained through these workforce training programs are able to seek employment with Kaiser Permanente entities or other health care providers in our communities.

Deploying a wide range of research methods contributes to building general knowledge for improving health and health care services, including clinical research, health care services research, and epidemiological and translational studies on health care that are generalizable and broadly shared. Conducting high-quality health research and disseminating findings from it increases awareness of the changing health needs of diverse communities, addresses health disparities, and improves effective health care delivery and health outcomes.

2014 YEAR-END RESULTS

The goals, strategies, and outcomes listed below address health needs identified during the 2013 CHNA. All KFH hospitals carefully considered the evidence-base when determining which goals and strategies would be most effective in addressing each need. For more information on how these goals, strategies, and outcomes were identified, see the “Community Benefit Plan Development” section in Chapter IV.

KFH-West Los Angeles anticipates that successful implementation of the identified strategies will result in or contribute toward a set of expected outcomes that can help support overall improvement of the priority health need in the community. To track strategy implementation and to document anticipated impact, KFH-West Los Angeles annually monitors and evaluates the strategies outlined in its community benefit plan. Mechanisms for monitoring progress are tailored to each strategy and may include the collection and documentation of tracking measures such as number of grants made, number of dollars spent, number of people reached/served, number and role of volunteers, and number of volunteer hours. In addition, KFH-West Los Angeles requires grantees to propose, track, and report outcomes, including behavior and health outcomes as appropriate.

PRIORITY HEALTH NEED I: CHRONIC DISEASE PREVENTION AND MANAGEMENT WITH AN EMPHASIS ON OBESITY, DIABETES, CARDIOVASCULAR DISEASE (INCLUDING HYPERTENSION AND CHOLESTEROL), AND ASTHMA

GOALS

Kaiser Permanente aims to decrease the prevalence of obesity, diabetes, cardiovascular disease (including hypertension and cholesterol), and asthma, in targeted vulnerable populations and to reduce the health disparities associated with these conditions by aligning our strategies with the following goals:

- Increase healthy behaviors related to obesity, diabetes, cardiovascular disease (including hypertension and cholesterol), and asthma among at-risk and vulnerable populations.
- Improve chronic disease management among vulnerable populations diagnosed with obesity, diabetes, cardiovascular disease (including hypertension and cholesterol), and asthma

STRATEGIES

Programs and Services

- Partner with schools to provide Kaiser Permanente Educational Theatre (KPET) performances to educate students on healthy behaviors.

Community Investments

- Provide grants and in-kind donations to community organizations to address preventive care services for targeted chronic conditions, including but not limited to increasing the availability of healthy food, safe physical activity, and clean air in underserved urban communities.
- Provide grants and in-kind donations to community-based organizations to address chronic disease management of targeted chronic conditions.

Leveraging Organizational Assets

- Promote healthy eating and active living programs and resources (e.g. *Weight of the Nation*, Thriving Schools, Fire Up Your Feet!) to community members, schools, and community-based organizations.
- Implement the Faith-Based Partnership Program Pilot, offering community health lectures, chronic conditions training for health coaches, and home visitation training for church volunteers.

- Promote community participation in Kaiser Permanente Health Education classes on healthy eating and active living free-of-charge at the KFH-West Los Angeles Medical Center, KFH-Inglewood medical office building (MOB), and Wateridge.
- Provide community partners with health education materials and publications, including materials in Spanish and other foreign languages, to share with the community.
- Explore opportunities to support promotion of local farmers markets and their health education and screening programs.
- Make the weekly farmers' market at KFH-West Los Angeles available to members, families, employees, and the surrounding community.
- Promote community participation in Kaiser Permanente Health Education classes, including classes in Spanish, on management of targeted chronic diseases.
- Connect Regional Health Education's Healthy Lifestyles for Families Program (train-the-trainer) to appropriate clinics, schools, and community-based organizations in our region to offer the program to community members.
- Share clinical protocols and effective care coordination models, including the ALL Heart program for at-risk diabetic patients, with safety net providers.

Collaboration and Partnerships

- Support the South Los Angeles Health Care Leadership Roundtable Heart Health and Diabetes Care Initiative aiming to coordinate care among South Los Angeles providers for at-risk patients.

EXPECTED OUTCOMES

- Increased access to preventive education, activities, and services for targeted chronic conditions.
- Increased knowledge of healthy food choices and active living and their impact on health.
- Increased access to health literature on prevention of targeted chronic conditions.
- Improved access to fresh fruits and vegetables.
- Increased access to programs assisting community members in effective management of targeted chronic conditions.
- Increased knowledge about effective ways to manage targeted chronic conditions.
- Increased access to health literature on management of targeted chronic conditions.
- Increased community support for community members diagnosed with targeted chronic conditions.
- Increased care coordination, related to diabetes and cardiovascular disease, across community clinics.
- Increased community capacity to support healthy eating and healthy living behavioral changes for individuals and families diagnosed as overweight/obese.
- Improved clinical capacity for diagnosis and treatment of targeted chronic conditions.

2014 YEAR-END RESULTS

Grant Highlights			
Grantee	Grant Amount	Brief Project Description	Results to Date
Breathe California of Los Angeles County	\$10,000	Lung Power for Parents and Guardians gives caregivers of children with asthma the skills and understanding needed to avoid asthma exacerbations and improve their children's quality of life. Offered in four short modules, the program addresses asthma triggers, medication management,	With the support of KFH-West Los Angeles, BREATHE LA brings the Lung Power for Parents and Guardians program to approximately 500 parents and teachers of children participating in Head Start programs currently serving the communities of Inglewood and South Los Angeles. The Head Start program in these communities is highly utilized by Latino and African American participants.

		relationship with doctors and schools, and supplemental information on maintaining a healthy home environment.	
Crenshaw Family YMCA	\$10,000	Physical Learning Activities for Youth (PLAY) program has YMCA coaches teach safe and effective exercise and encourage positive associations with physical activity to elementary school students.	This program serves 403 students at Tom Bradley Elementary School. PLAY sessions occur during the school day, up to 60 minutes one to three times per week, with a one to 30 coach-to-student ratio. In each class, children are challenged as individuals and as part of a group in a safe, non-competitive, age-appropriate environment.
South Bay Family Healthcare (SBFHC)	\$10,000	Diabetes Care Coordination Program provides a coordinated clinical intervention for high-risk patients and patients diagnosed with diabetes in a community clinic setting. This program improves quality of care for low-income under/uninsured patients.	Patients at SBFHC's Dr. Claudia Hampton Clinic are screened for diabetes. Those deemed to be at risk for diabetes receive nutrition and lifestyle education, and those diagnosed with diabetes are referred to a nurse practitioner who specializes in diabetes treatment. Patients receive appropriate medication, counseling, and care management as well as one-on-one insulin training as needed. The program has been effective at reducing the number of diabetic patients with an A1c greater than eight.
Community Clinics Health Network (CCHN)	\$225,000 (DAF) ¹	Spread the ALL HEART program across Southern California Region.	CCHN will lead the planning and implementation for hypertension, psychosocial assessment and care, and clinic to community integration for the ALL HEART initiative. CCHN will provide a varied training and technical assistance support to meet the needs of community clinics and health centers, and pilot test the integration of behavioral health with provider visits.
National Council of YMCAs of the USA (Y-USA)	\$43,750 (DAF)	Provide technical assistance, and training for implementation of the Diabetes Prevention Program.	The Y-USA will reach seven YMCA-LA branches and will serve at least 300 participants over the course of the two-year project with the Diabetes Prevention Program.
Non-Financial Highlights			
Beneficiary	Description of Non-Financial Contribution		Results to Date
UMMA Community Clinic	KFH-West Los Angeles partnered with UMMA for a presentation of Weight of the Nation for Youth video and discussion on healthy eating and active living.		In September, student health leaders organized a School Rush Day to promote active and healthy living among other events. They encouraged more than 400 students to participate in clubs and team sports and provided nutrition information.

¹ This grant was distributed from the Kaiser Permanente Southern California Charitable Contribution Fund, a donor-advised fund administered by the California Community Foundation. Accordingly, the grant amount was not included in the community benefit totals for 2014 (Tables A, B and 2).

KJLH Women Health Forum	Day conference and radio broadcast providing opportunities for African American women to learn and discuss health issues.	KFH-West Los Angeles physicians Marta Vakulenko, MD, and Tumani Leatherwood, MD, participated in panel discussions and both lead individual workshops. Topics included heart health and diabetes. The panel reached hundreds of women in-person and thousands over the radio. The workshops reached approximately 150 women.
Holman United Methodist Church Southside Church of Christ	This faith-based partnership seeks to improve the health of their community by educating and empowering faith-based support networks. Activities include health lectures, health coaches training and education of volunteers providing visitation services to the sick.	More than 200 individuals attended eight health lectures on topics such as health diet, stroke prevention, diabetes, and hypertension. Additionally, 35 volunteers trained as diabetes health coaches. Fifty five volunteers completed 36 home visits.
South Central Family Health Center	Facilitated additional support for this clinic to implement ALL HEART evidence – based protocol. ALL HEART identifies clinic patients ages 50 and over with diabetes and patients of any age at high risk for cardiovascular disease and applies the ALL intervention: aspirin, lisinopril (and ACE inhibitor) and a lipid-lowering medication (specifically statins).	Kaiser Permanente technical support experts, James Dudl, MD, and María Ureña, FNP, MSN, MHA, Clinical Quality Consultant, provided physicians with an in-depth explanation of ALL HEART clinical benefits during South Central Family Health Center staff meeting on 5/1/14.
Los Angeles Unified School District	Kaiser Permanente Educational Theatre's Healthy Eating Active Living Program (grades 4 and 5) is a multifaceted offering that includes the play, <i>Game On</i> and two supporting student workshops. In addition there is a workshop for adults entitled, <i>From the Label to the Table</i> . Through this program parents and families are introduced to the concepts their students learned and are encouraged to make changes to become healthier families.	Educational Theatre conducted nine performances and 22 workshops on healthy eating and active living on KFH-West Los Angeles service area. This program reached 1,906 students and 492 adults in 2014. Key topics included eating a balanced meal, choosing water over sugary beverages, the importance of active play and the power of media advertising.
Collaboration/Partnership Highlights		
Organization/Collaborative Name	Collaborative/Partnership Goal	Results to Date
South Los Angeles Health Care Leadership Round Table	This roundtable seeks to coordinate care among healthcare providers in order to improve services and outcomes for South Los Angeles residents.	Joan Crawford, Assistant Medical Group Administrator, shared Kaiser Permanente practices for efficient use of Advanced Practice Providers at the Roundtable annual retreat on 4/29/14.
Los Angeles Department of Public Health (LADPH)	KFH-West Los Angeles community benefit manager collaboration and participation in LADPH Community Health Improvement Plan (CHIP).	CB Manager participated in a planning committee for Service Planning Area (SPA) 8 and attended two she also met and discussed planning issues with SPA 6 and SPA 5.

2015 GOALS UPDATE

The goals will remain unchanged for 2015.

2015 STRATEGIES UPDATE

Most strategies will remain unchanged for 2015. However, the strategy under *Leverage Organizational Asset* to connect Regional Health Education's Healthy Lifestyles for Families Program (train-the-trainer) to appropriate to other organizations will not be implemented because the program being evaluated and revised.

PRIORITY HEALTH NEED II: ACCESS TO MENTAL HEALTH AND INTERVENTION PROGRAMS WITH AN EMPHASIS ON YOUTH WELL-BEING AND THE PREVENTION OF ALCOHOL AND SUBSTANCE ABUSE, VIOLENCE, AND HOMELESSNESS

GOALS

Kaiser Permanente aims to improve mental health outcomes and well-being, including outcomes related to alcohol and substance abuse, violence, and homelessness by aligning our strategies with the following goals:

- Improve access to mental health and intervention programs for vulnerable populations.
- Reduce opportunities for violence and gang involvement among at-risk youth.
- Improve capacity and resources of community-based organizations to respond to community mental health needs.

STRATEGIES

Programs and Services

- Offer Watts Counseling and Learning Center's counseling sessions, including individual, family, marriage, parent-child, and group therapy in English and Spanish, to low-income families.
- Offer Watts Counseling and Learning Center's Adult Grief Support Group at KFH-Inglewood MOB.
- Offer Watts Counseling and Learning Center's Kids Can Cope program at KFH-Inglewood MOB to provide emotional support to children whose parents or siblings have experienced cancer or other life-threatening illness.
- Partner with local middle schools to conduct Hippocrates Circle, a program that encourages students to pursue a health science career.
- Implement Summer Youth Employment Program, which gives youth from underserved high schools paid work experience.
- Connect Watts Counseling and Learning Center interns to community-based organizations to provide services focused on the early detection of mental health symptoms and illness in community settings.

Community Investments

- Provide grants to community-based organizations and clinics offering free or low-cost mental health services.
- Provide grants to community-based organizations and clinics offering direct services to the homeless population.
- Provide grants to community-based organizations and clinics offering intervention programs to support the emotional well-being of at-risk youth, including violence/intentional injury prevention, career development, and job training.

Leveraging Organizational Assets

- Connect Addiction Medicine Department with senior centers and/or community-based organizations to provide educational sessions about risks and quality of life issues associated with the excessive intake of medications.
- Connect Addiction Medicine Department to local high schools and youth-serving community-based organizations to provide substance abuse health education lectures for students and parents.

- Explore giving young adults 18 to 29 who are eligible for Medical Financial Assistance (MFA or charity care) access to Addiction Medicine services, provided the department meets access standards for Kaiser Permanente members.

EXPECTED OUTCOMES

- Increased free or low-cost opportunities for mental health treatment and services.
- Increased services available to the homeless population.
- Increased awareness about chemical dependency among senior citizens.
- Increased supportive services and intervention activities available to at-risk youth.
- Increased awareness about substance abuse among at-risk youth and families.
- Increased access to addiction counseling and treatment for eligible youth.
- Increased awareness and early detection of mental health symptoms in community settings.

2014 YEAR-END RESULTS

Grant Highlights			
Grantee	Grant Amount	Brief Project Description	Results to Date
A Place Called Home (APCH)	\$10,000	Counseling program for youth ages 8 to 21 and their families at large youth center located in underserved community.	The counseling department provides more than 3,000 hours of free, comprehensive mental health services to youth members and their families annually. The counseling program as a whole conducts 20 counseling sessions per day in addition to emergency interventions. Three counselors manage a caseload of 15-20 patients at any given time. The total department caseload exceeds 115 patients in a year.
WISE and Healthy Aging	\$10,000	Mental Health Services to support the independent functioning of seniors. It also provides multidisciplinary direct services to victims of elder abuse in collaboration with Santa Monica Police Department and Adult Protective Services.	The program serves 177 seniors through psychotherapy and Peer Counseling programs. Sixty of the seniors receive individual psychotherapy, with the majority receiving psychiatric services (including medication) and group therapy. Over 100 seniors are participants in one or more support groups.
Community Coalition For Substance Abuse Prevention and Treatment	\$10,000	Wellness Program for Youth provides leadership training and mental health support. In addition, the program includes workshops on substance abuse and social skills among others.	Four days a week, 50 South Los Angeles youth attend Community Coalition leadership development trainings. A masters of social work intern (MSW) and a licensed clinical social worker provide short-term mental health counselling. The intern administers academic intakes at the beginning of each semester and an evidence-based intervention plan for each student is developed as needed.
West Angeles Community Development Corporation	\$5,000	West Angeles Young N LA Program builds job readiness skills and creates an employment pipeline for age	More than 80 young African American young men participate in this program to enhance their chances to succeed in the job market as they reach adulthood. The

		14-18 African American young men involved in the probation system.	program provides case management, workshops and secures full-time employment, enrollment in a community college, or links to accredited apprenticeships or certified workforce training programs for students.
JWCH Institute Inc.	\$125,000 (DAF)	Funding to JWCH will support enhanced project management and strategic expansion of the recuperative care program.	JWCH Institute Inc. expects to provide at least 1,825 homeless patient bed days through the recuperative care program (730 Year 1 and 1,095 Year 2) as evidence by intake/assessments and treatment plans on file. In addition JWCH Institute Inc. expects improved recuperative care program management and efficiency through the hiring of a Recuperative Care Project Director as well as the expansion and/or an increase in the number of recuperative care beds available for homeless patients in Los Angeles County as demonstrated through the creation of the feasibility/business plan.
Non-Financial Highlights			
Beneficiary	Description of Non-Financial Contribution		Results to Date
KFH-West Los Angeles Service Area Schools	Educational Theatre's Adolescent Bullying Awareness Program (grades six to eight) consists of the play, <i>Someone Like Me</i> . The program is meant to be a springboard for discussions between students and teachers, parents and trusted adults. Key topics include; rumors and gossip are a form of bullying, the prevalence of bullying using social media, and, in middle school, the developmentally appropriate choice is abstinence.		KP Educational Theatre conducted 19 performances in KFH-West Los Angeles service area. This program reached 4,680 students and 276 adults. At the end of each performance, the actor-educators were available to the students for one-on-one sessions. Actors-educators were trained to bridge students to school personnel if necessary.
KFH-West Los Angeles Service Area Schools	Kaiser Permanente's Educational Theatre Conflict Management Program (grades three to five) is a multifaceted offering that includes the play, <i>Drummin' Up Peace</i> , and a student workshop. The program is designed to complement conflict resolution and violence prevention efforts in schools and community locations. In the fall of 2014, a new play, <i>It's Stop Time</i> , was introduced to replace <i>Drummin' Up Peace</i> .		Educational Theatre conducted four performances and 13 workshops in KFH-West Los Angeles service area. This program reached 1,422 students and 59 adults. Key topics included steps to managing conflict, empathy, cooperation and communication.
Fremont High School Parent Center	Health Dialogue for Parents		KFH-West Los Angeles counselors Michael Newman, Edward Tovar and Priscilla De Leon conducted a two-hour health dialogue on risks of marijuana use and abuse. More than 35 parents attended this event on 2/26/14.

General public	Watts Counseling and Learning Center (WCLC) has been a resource for low-income families in South Los Angeles. WCLC provides mental health and counseling services, assistance to children with learning disabilities, and pre-employment training for youth. It also operates state-licensed and nationally accredited preschool program and other outreach services in the community in English and Spanish.	Many individuals or families that participate in WCLC programs reside in KFH-West Los Angeles service area. WCLC provided 1,234 individuals with services in 2014.
Collaboration/Partnership Highlights		
Organization/Collaborative Name	Collaborative/Partnership Goal	Results to Date
Westside Health Access	This collaborative seeks to create an improved system of health care services for low income individuals living in Service Planning Area 5, as well as for homeless individuals and mentally ill patients who inappropriately utilize emergency room services.	In 2014, the collaborative identified three pilot projects to develop in 2015. One of those projects focuses on integrating care coordination resources between hospital emergency rooms, health plans and community clinics to improve care and services for homeless individuals and mentally ill patients.
Home For Good Funders Collaborative (HFGFC)	The mission of the collaborative is to end veteran and chronic homelessness in Los Angeles County.	Kaiser Permanente Southern California Region Community Benefit partners with other funders to support the HFG action plan. Funding supports permanent supportive housing services organizations in the provision of medical, behavioral and other social services. This funding enables homeless individuals placed in permanent supportive housing to maintain their housing.

2015 GOALS UPDATE

The goals will remain unchanged for 2015.

2015 STRATEGIES UPDATE

Most strategies will remain unchanged for 2015. However, the strategies under *Programs and Services for Watts Counseling and Learning Center (WCLC)* will change. WCLC conducted prolonged outreach to community organizations in the Inglewood area to determine the viability of groups at Inglewood MOB. It was determined that in order to better serve the community the Kids Can Cope program could be offered in partnership with Inglewood School District at a school location. The 2015 strategy will be: Offer Watts Counseling and Learning Center’s Kids Can Cope program at Inglewood School District. After conducting targeted outreach in 2014, the strategy to connect the Addiction Medicine Department with senior centers and/or community-based organizations will change to: Connect Addiction Medicine Department with senior centers and/or community-based organizations to provide educational sessions about brain health, depression, memory and other topics per request. And, after some exploration KFH-West Los Angeles will not create a program for community members adults suffering from substance abuse. Instead it was determined that a more effective approach would be to continue the promotion of health dialogue sessions on substance abuse issues among and vulnerable populations since it was successful in 2014.

PRIORITY HEALTH NEED III: ACCESS TO HEALTH CARE, DIAGNOSTIC AND PREVENTIVE SERVICES WITH AN EMPHASIS ON HIV-AIDS, CHLAMYDIA, AND CANCER.

GOALS

Kaiser Permanente aims to increase the number of people from uninsured, underinsured, and vulnerable populations who have access to quality health care services by aligning our strategies with the following goals:

- Increase access to primary care.
- Increase access to diagnostic testing and specialty care.
- Increase health care coverage to low-income individuals and the underserved.
- Improve timely access to needed medical care.
- Facilitate professional development of community clinic providers.
- Reduce workforce shortages.

STRATEGIES

Programs and Services

- Continue offering the Pharmacy Partnership Program, which connects Kaiser Permanente pharmacy residents to a community clinic partner to enhance capacity of the clinic's pharmacy operations
- Train new physicians (i.e., graduate medical education [GME]).
- Support youth health career pipeline programs (i.e., Summer Youth Employment and INROADS).
- Participate in government-sponsored programs for low-income individuals (i.e., Medi-Cal Managed Care and Medi-Cal Fee-For-Service).
- Provide heavily subsidized health care coverage.
- Provide MFA to help individuals with limited and/or no resources pay for care provided at Kaiser Permanente.

Community Investments

- Provide grants to community-based organizations and clinics to support access to care by providing free or low-cost services or removing barriers to accessing care.
- Provide grants to community-based organizations and clinics providing access to cancer screenings and HIV-AIDS and chlamydia testing and services.

Leverage Organizational Assets

- Implement Physician Community Engagement Program, connecting Kaiser Permanente specialty physicians with community clinic partners to provide specialty care clinical hours at the clinics using their paid educational time.
- Offer selected outpatient surgery procedures and diagnostics to uninsured populations by organizing Community Access Day (hernia repair, gallbladder removal, cataracts, colonoscopies).
- Invite community clinic providers to attend selected continuing medical education (CME) classes, conferences, and journal clubs.

EXPECTED OUTCOMES

- Increased number of underserved service area residents who have a medical home.
- Increased community clinic capacity to offer primary care consultation.
- Increased access to cancer screenings and HIV/AIDS and chlamydia testing and services.
- Increased access to needed specialty care and diagnostics services.
- Increased community clinic capacity to offer specialty care consultation.

- Increased number of eligible individuals enrolls in government-sponsored or subsidized health care coverage programs.
- Access to episodic care provided to un/underinsured and low-income people receiving services at Kaiser Permanente.
- Improved access to CME for community clinic providers.
- Increased diversity of trained physicians.

2014 YEAR-END RESULTS

Grant Highlights			
Grantee	Grant Amount	Brief Project Description	Results to Date
St. John's Well Child and Family Center, Inc. (SJWCFC)	\$5,000	Breast Cancer Screening Program at Louis C. Frayser Pediatric and Women's Health Center in South Los Angeles.	This new SJWCFC program refers all women age 50 and older seen for primary medical care to mammography services on site. A mammography technician is expected to provide a minimum of 2,000 mammograms to low-income women in the course of one year.
Saban Community Clinic	\$10,000	Chlamydia Testing and the Clinical Integration of HIV Screening.	This clinic implemented Centers for Disease Control and Prevention's HIV screening guidelines. Patients age 13-64 years old were automatically opted-in to receive HIV/AIDS screening at least once per year. The clinic along with its partners is projected to perform at least 2,500 HIV screenings and 700 Chlamydia tests at the Beverly Health Center.
Planned Parenthood Los Angeles (PPLA)	\$10,000	Improving Access to Reproductive Health Services in Baldwin Hills/Crenshaw.	PPLA provided reproductive and family planning services to members of the South Los Angeles community, including HIV testing, diagnosis, prevention and referral to services. It also offered a full range of family planning methods and STD screening, prevention and treatment. The clinic reports serving 6,000 patients annually.
To Help Everyone Clinic	\$10,000	Crenshaw High School Wellness Center HIV/STD Project	Crenshaw HS wellness center provided education classes to Crenshaw High School students on prevention, screenings, and treatments available for HIV and STIs and provided voluntary screenings for all students and community members.

Beneficiary	Description of Non-Financial Contribution		Results to Date
To Help Everyone Clinic	SCPMG Physician Engagement Project encourages physicians to volunteer at a community clinic once a month during their paid educational time. The Community Benefit manager connects them to an appropriate clinic partner and supports their on-boarding process.		Six physicians have been placed in this clinic. One physician is currently seeing patients. The rest are in training. They will offer medical services in internal and family medicine, pediatrics, OBGYN and pulmonary.

UMMA Community Clinic	SCPMG Physician Engagement Project encourages physicians to volunteer at a community clinic once a month during their paid educational time. Community Benefit Manager connects physicians to an appropriate clinic partner and supports their on-boarding process.	Three physicians have been placed at this clinic. They completed training in December 2014 and will begin seeing patients in January 2015. They will offer medical services in family and internal medicine, and pediatrics.
Venice Family Clinic	Community Access Day provides day surgeries and medical procedures at no cost to uninsured patients. Procedures include gallbladder removal, hernia repair, cataract surgery, and diagnostic colonoscopies.	On May 17, 2014, 22 patients received much needed procedures to restore their health. More than sixty physicians, medical personnel and support staff participated in this event. More than \$7,000 dollars were donated to the clinic through a system of employee salary deduction established by labor agreement. A colonoscopy patient presented early stages of cancer and a follow-up surgery was performed at no cost to this homeless patient.
Collaboration/Partnership Highlights		
Organization/Collaborative Name	Collaborative/Partnership Goal	Results to Date
Crenshaw High School Wellness Coordinating Council.	This council is a partnership between LAUSD and key community stakeholders to support the successful implementation and utilization of Crenshaw High School Wellness Center.	CB manager participated in Wellness Center Coordinating Council monthly meetings. Crenshaw High School Wellness Center successfully opened on 12/8/14. KFH-West Los Angeles donated 23 examination tables and 13 waiting room chairs.

2015 GOALS UPDATE

The goals will remain unchanged for 2015.

2015 STRATEGIES UPDATE

Most strategies will remain unchanged for 2015. However, the strategy under *Leverage Organizational Asset* to provide continuing medical education will not be implemented. In its place the SCPMG Physician Engagement Program will be implemented.

PRIORITY HEALTH NEED IV: WORKFORCE

LONG-TERM GOAL

- Address health care workforce shortages and cultural and linguistic disparities in the health care workforce

INTERMEDIATE GOAL

- Increase the number of skilled, culturally competent, diverse professionals working in and entering the health care workforce to provide access to quality, culturally relevant care

STRATEGIES

- Implement health care workforce pipeline programs to introduce diverse, underrepresented, school-age youth and college students to health careers
- Provide workforce training programs to train current and future health care providers with the skills, linguistic, and cultural competence to meet the health care needs of diverse communities
- Disseminate knowledge to educational and community partners to inform curricula, training, and health career ladder/pipeline programs
- Leverage CB-funded programs to develop strategies that increase access to allied health, clinical training, and residency programs for linguistically and culturally diverse candidates
- Increase capacity in allied health, clinical training, and residency programs to address health care workforce shortages through the provision of clinical training and residency programs
- Leverage Kaiser Permanente resources to support organizations and research institutions to collect, standardize, and improve access to workforce data to enhance planning and coordination of workforce training and residency training programs

EXPECTED OUTCOMES

- Increased number of diverse youth entering health care workforce educational and training programs, and health careers
- Increased number of culturally and linguistically competent and skilled providers
- Increased awareness among academia of what is required to adequately train current and future allied health, clinical, and physician residents on how to address the health care needs of our diverse communities
- Increased participation of diverse professionals in allied health, clinical training, and residency programs
- Improved access to relevant workforce data to inform health care workforce planning and academic curricula.

2014 YEAR-END RESULTS

Grant Highlights			
Grantee	Grant Amount	Brief Project Description	Results to Date
California Institute for Nursing and Health Care (CINHC)	\$100,000 (DAF)	To provide expert technical assistance to registered nursing programs at California State Universities (CSUs) and their identified California Community College (CCC) partners in Southern California. It will also help schools implement an associate degree to a bachelor of science in nursing pathway, facilitating fast tracking and efficient implementation of the California Collaborative Model of Nursing Education (CCMNE).	CINHC will facilitate engagement and partnership to develop, implement, and sustain the CCMNE across all 10 CSUs and respective CCCs. CINHC will engage interested private universities and colleges within the region, including deans, directors, and faculty. Lastly, CINHC will conduct a curriculum review, mapping process, and development of integrated pathways based on prior success strategies that are consistent with evidence based models.
George Washington University (GWU)	\$25,000 (DAF)	GWU School of Public Health will develop programs that raise social mission and health policy knowledge in medical education.	GWU will develop a national faculty fellowship in the social mission of medical education for rising medical school faculty to prepare them to teach social mission fundamentals.

Non-Financial Highlights		
Beneficiary	Description of Non-Financial Contribution	Results to Date
KFH-West Los Angeles Service Area Middle Schools	Hippocrates Circle is designed to provide youth from underrepresented communities and diverse backgrounds with awareness of career opportunities as a physician. Students participate in a series of all-day visits to the Medical Center where they are encouraged to pursue their goals towards becoming physicians.	In 2014, 50 students from six middle schools participated in this program at KFH-West Los Angeles. Student activities included a tour of the Medical Center and a Health Career Day.
KFH-West Los Angeles Service Area High Schools	Summer Youth Employment Program offers summer jobs to high school students. The program gives students from underserved communities the opportunity to access employment while getting exposed to healthcare careers.	In 2014, 38 students from 20 high schools participated in this program. They worked at KFH-West Los Angeles from June 27 to August 8, 2014 in various departments. In addition to hands-on-job training student employees attended weekly workshops. Topics included workplace safety, interviewing skills, cultural diversity, among others.
Collaboration/Partnership Highlights		
Organization/Collaborative Name	Collaborative/Partnership Goal	Results to Date
Crenshaw High School STEMM Magnet	Volunteer Services, Community Benefit and Public Affairs Department initiated a partnership with Crenshaw High School Magnet. Purpose of partnership is to support teachers and to encourage students to consider and prepare for healthcare careers.	KFH-West Los Angeles provided a small \$1,500 sponsorship for Crenshaw HS Community Day. KFH- West Los Angeles volunteers offered health career information to students at this event. Additionally, a group of eight KFH-West Los Angeles employees conducted a one-hour dialogue on health care careers for students attending 9 th grade and about to decide their orientation. Finally, KFH-West Los Angeles donated 90 Lab Coats for all students attending lab classes.
Dorsey High School STEMM Magnet	Volunteer Services, Community Benefit and Public Affairs Department initiated a partnership with Dorsey High School Magnet. Purpose of partnership is to support teachers and to encourage students to consider and prepare for healthcare careers.	Volunteer Services and Community Benefit met with STEMM Magnet coordinator to offer spaces for students to volunteer at our Medical Center. Four students were referred. Additional meetings are expected to take place in 2015 to continue developing this partnership.

2015 GOALS UPDATE

The goals will remain unchanged for 2015.

2015 STRATEGIES UPDATE

The strategies will remain unchanged for 2015.

PRIORITY HEALTH NEED V: RESEARCH

LONG-TERM GOAL

- Increase awareness of the changing health needs of diverse communities

INTERMEDIATE GOAL

- Increase access to and availability of relevant public health and clinical care data and research

STRATEGIES

- Disseminate knowledge and expertise to providers to increase awareness of the changing health needs of diverse communities to improve health outcomes and care delivery models
- Translate clinical data and practices to disseminate findings to safety net providers to increase quality in care delivery and to improve health outcomes
- Conduct, publish, and disseminate high-quality health services research to the broader community to address health disparities and to improve effective health care delivery and health outcomes
- Leverage Kaiser Permanente resources to support organizations and research institutions to collect, analyze, and publish data to inform public and clinical health policy, organizational practices, and community health interventions to improve health outcomes and to address health disparities

EXPECTED OUTCOMES

- Improved health care delivery in community clinics and public hospitals
- Improved health outcomes in diverse populations disproportionately impacted by health disparities
- Increased availability of research and publications to inform clinical practices and guidelines

2014 YEAR-END RESULTS

Collaboration/Partnership Highlights		
Organization/Collaborative Name	Collaborative/Partnership Goal	Results to Date
Individuals and organizations in the health care and medical community.	Kaiser Permanente Southern California Region's Department of Research and Evaluation works closely with national and regional research institutions and universities to provide high-quality health research that is disseminated to contribute to the knowledge and practice of health care and medicine.	In the KFH-West Los Angeles service area, 22 research projects were active as of year-end 2014.
Individuals and organizations in the health care and medical community.	Kaiser Permanente Southern California Region's Nursing Research Program provides administrative and technical support for nurses to conduct, publish and disseminate research studies and evidence based practice projects that improve patient care and practices as well as contribute to the knowledge base on nursing.	In the KFH-West Los Angeles service area, six research projects were active as of year-end 2014.
