

Fact Sheet

Counties where the Most Psychiatrists are Residing*

County	# of Psychiatrists
Los Angeles	1,604
San Diego	568
San Francisco	533
Santa Clara	420
Orange	404
Total	3,529

These data are derived from the Medical Board of California’s Physician Survey. As of September 2014, the total number of currently licensed psychiatrists who selected Psychiatry as their primary specialty and who practice in California was 1,723. The total numbers vary by chart due to the removal of out of state/country and responses left blank within each survey question. *County of residence does not include practice location; therefore, it’s total n=5,975.
